The Gang's All Queer Vanessa R. Panfil, 2017-08-15 Many people believe that gangs are made up of violent thugs who are in and out of jail and who are hyper masculine and heterosexual Vanessa Panfil introduces us to a different world Meet gay gang members sometimes referred to in popular culture as homo thugs whose gay identity complicates

criminology's portrayal and representation of gangs, gang members, and gang life. In vivid detail, Panfil provides an in-depth understanding of how gay gang members construct and negotiate both masculine and gay identities through crime and gang membership. She draws from interviews with over 50 gay gang and crime involved young men in Columbus, Ohio, the majority of whom are men of color in their late teens and early twenties, as well as on the ground ethnographic fieldwork with men who are in gay hybrid and straight gangs. Panfil provides an eye-opening portrait of how even members of straight gangs are connected to a same-sex oriented underground world. Most of these young men still present a traditionally masculine persona and voice, deeply held affection for their fellow gang members. They also fight with their enemies, many of whom are in rival gay gangs. Most come from impoverished rough neighborhoods and seek to defy negative stereotypes of gay and Black men as deadbeats, though sometimes through illegal activity. Some are still closeted to their fellow gang members and families, yet others fight to defend members of the gay community, even those who they deem to be fags, despite distaste for these flamboyant members of the community.

Gender and Crime Sandra L. Browning, Leah C. Butler, Cheryl Lero

Jonson, 2024-05-23 This volume takes stock of contemporary perspectives on gender and crime. In 1975, Freda Adler published her pathbreaking book *Sisters in Crime: The Rise of the New Female Criminal*. She made the bold claim that changes in American society, including changing attitudes and opportunities, would allow for greater participation of women in criminal enterprises. Beyond her substantive thesis, which turned out to be partially accurate, Adler opened up a vibrant new area within criminology: the study of gender and crime. Now, nearly a half century later, the field of criminology is replete with women scholars who are making plentiful and important contributions. As a result, this volume explores cutting-edge issues. Part I starts by laying out a theoretical foundation, focusing on the origins of theories of female criminality and then providing an overview of more contemporary perspectives. Part II explores the role of race in shaping women's criminality, drawing on the novel approaches of Black Criminology and the study of intersectionality. Part III gives attention to issues that heretofore were male-centric, illuminating female desistance from crime, the effects of peer groups, and gender differences in attitudes toward criminal justice policies. Finally, Part IV considers the explanation of three important realms of criminality: risky lifestyles, white collar crime, and terrorism. This volume will be of interest to a wide range of criminologists and is an ideal choice for use in graduate seminars and upper-level undergraduate courses.

Youth Violence Prevention Terrance

Taylor, 2016-04-14 Youth violence is a pressing social concern, and this book examines several elements of youth violence prevention. It offers state-of-the-art research on several different topics, including the relationship between bullying, offending, and victimization; the relationship between race and the code of the streets; explanation for violent offending; and how differences in methodology affect the validity of the multiple marginality theory of gang membership. It also examines an understudied population: gay gang members, as well as providing an analysis of the degree to which risk factors for gang membership and violent offending are sex-specific. The critical component of this text is the melding of research with
