A Social History of Early Rock 'n' Roll in Germany Julia Sneeringer, 2018-05-31 A Social History of Early Rock n Roll in Germany explores the people and spaces of St Pauli's rock n roll scene in the 1960s Starting in 1960 young British rockers were hired to entertain tourists in Hamburg's red light district around the Reeperbahn in the area of St Pauli German youths quickly joined in to experience the forbidden thrill of rock n roll and used African American sounds to distance themselves from the old Nazi generation In 1962 the Star Club opened and drew international attention for hosting some of the Beatles most influential performances In this book Julia Sneeringer weaves together this story of youth culture with histories of sex and gender popular culture media and subculture By exploring the history of one locale in depth Sneeringer offers a welcome contribution to the scholarly literature on space place sound and the city and pays overdue attention to the impact that Hamburg had upon music and style She is also careful to place performers such as The Beatles back into the social spatial and musical contexts that shaped them and their generation This book reveals that transnational

encounters between musicians fans entrepreneurs and businessmen in St Pauli produced a musical style that provided emotional and physical liberation and challenged powerful forces of conservatism and conformity with effects that transformed the world for decades to come The City in Central Europe Malcolm Gee,Tim Kirk,Jill Steward,2019-01-04 First published in 1999 this volume explores how the cities of central Europe among them Berlin Budapest Hamburg Vienna and Prague went through a period of phenomenal growth during the nineteenth and early twentieth centuries Their rapid expansion and growing economic importance made citizens aware of the need to manage the fabric and culture of the urban environment while burgeoning nationalism and the development of local and international tourism constructed cities as showcases for national and regional identity Competing visions of how city and nation should represent themselves were advanced by different social groups by commercial interests and by local and national political authorities Among the developments examined in this collection of essays are the campaign for the architectural development of Hamburg international modernism and notions of the garden city in Czechoslovakia competition among German cities as art centres the role of Wawel Hill in Krak w as a vehicle for Polish nationalism tourism in Austria Hungary Jewish assimilation in Vienna social control and cultural policy in Vienna and the representation of Berlin on film The volume is introduced by Malcolm Gee Tim Kirk and Jill Steward who provide an historical overview which establishes a context for the exchange of ideas and competition between the cities of central Europe during this period The German Bourgeoisie (Routledge Revivals) David Blackbourn,Richard J Evans,2014-06-17 First published in 1991 this collection of original studies by British German and American historians examines the whole range of modern German bourgeoisie groups including professional mercantile industrial and financial bourgeoisie and the bourgeois family Drawing on original research the book focuses on the historical evidence as counterpoint to the well known literary accounts of the German bourgeoisie It also discusses bourgeois values as manifested in the cult of local roots and in the widespread practice of duelling Edited by two of the most respected scholars in the field this important reissue will be of value to any students of modern German and European history *Hustle and Bustle* ,2024-12-09 Hustle and Bustle explores the movements sites sounds and smells unique to port cities and to the constant activity associated with the shipping and trade migration and transport that characterizes the spaces of port cities during day and night Detailed case studies with a focus on European examples from multidisciplinary perspectives provide new approaches to reading port cities The authors explore perspectives from planning to understand these unique conditions of port cities and their spatial social and cultural conditions and to inform new policies plans designs that acknowledge both the specific conditions of transshipment and associated nuisances of sound and smell and of air and water pollution Contributors are Vincent Baptist Robert Bart omiejski Tianchen Dai Carola Hein S awomir Iwasi w Karolina Izdebska Maciej Kowalewski Urszula Koz owska Paul van de Laar Beatrice Moretti Nick Osbaldiston Manuel Pacheco Coelho Ewa Rewers Dirk Schubert Christoph Strupp and Enrico Tommarchi New Mattheson Studies George J. Marx,2007-02 This collection of essays brings together the current research on Johann Mattheson 1681 1764 an influential musician and chronicler of musical thought in eighteenth century Germany The essays explore the cultural climate of Hamburg during Mattheson s lifetime Mattheson as a composer Mattheson s relationship to his contemporaries and Mattheson s influence on developing musical theories and aesthetics *Steamship Nationalism* Mark A. Russell,2020-04-15 Steamship Nationalism is a cultural social and political history of the S S Imperator Vaterland and Bismarck Transatlantic passenger steamships launched by the Hamburg Amerikanische Packetfahrt Aktien Gesellschaft HAPAG between 1912 and 1914 they do not enjoy the international fame of their British counterparts most notably the Titanic Yet the Imperator class liners were the largest most luxurious passenger vessels built before the First World War In keeping with the often overlooked history of its merchant marine as a whole they reveal much about Imperial Germany in its national and international dimensions As products of business decisions shaped by global dynamics and the imperatives of international travel immigration and trade HAPAG s giant liners bear witness to Germany s involvement in the processes of globalization prior to 1914 Yet this book focuses not on their physical but on their cultural construction in a variety of contemporaneous media including the press and advertising on both sides of the Atlantic At home they were presented to the public as symbolic of the nation s achievements and ambitions in ways that emphasize the complex nature of German national identity at the time Abroad they were often construed as floating national monuments and as such facilitated important encounters with Germany both virtual and real for the populations of Britain and America Their overseas reception highlights the multi faceted image of the European superpower that was constructed in the Anglo American world in these years More generally it is a pointed indicator of the complex relationship between Britain the United States and Imperial Germany

Wirtschaftsräume und Lebenschancen Stefan Grüner,Sabine Mecking,2017-05-22 In beiden deutschen Staaten wurden seit ihrer Gründung politische Anstrengungen unternommen um den ökonomischen Strukturwandel in seinem Verlauf und seinen Wirkungen zu lenken Trotz unterschiedlicher Rahmenbedingungen gestalteten sich die Problemkonstellationen ähnlich Einseitige Branchenstrukturen und räumliche Ungleichgewichte sollten ausgeglichen Arbeitsplätze bereitgestellt und die Infrastruktur entwickelt werden Der Sammelband fragt nach Wahrnehmungen und Deutungen strukturalistischer Herausforderungen sowie nach den Tugenden und Mängeln des strukturellen Wandels in West und Ostdeutschland in der zweiten Hälfte des 20 Jahrhunderts Dabei werden Möglichkeiten und Grenzen der Steuerungsansätze sowohl im nationalen Kontext analysiert als auch mit Blick auf kollektive Akteure und Betroffene wie Länderregierungen und Kommunen Branchen und Unternehmen Gewerkschaften und Arbeitnehmer **Communicative Figurations** Andreas Hepp,Andreas Breiter,Uwe Hasebrink,2017-11-27 This open access volume assesses the influence of our changing media environment Today there is not one single medium that is the driving force of change With the spread of various technical communication media such as mobile phones and internet platforms we are confronted with a media manifold of deep mediatization But how can we

investigate its transformative capability This book answers this question by taking a non media centric perspective researching the various figurations of collectivities and organizations humans are involved in The first part of the book outlines a fundamental understanding of the changing media environment of deep mediatization and its transformative capacity The second part focuses on collectivities and movements communities in the city critical social movements maker online gaming groups and networked groups of young people The third part moves institutions and organizations into the foreground discussing the transformation of journalism religion politics and education whilst the fourth and final part is dedicated to methodologies and perspectives

Ferguson, 2002-11-07 Few economic events have had a more profound or enduring impact than the German hyperinflation of 1923 still remembered popularly as a root cause of Hitler's rise to power Yet many historians have argued that inflationary policies were on balance advantageous to post 1918 Germany both boosting growth and helping to reduce reparations The scholarly consensus is that there was no viable alternative to inflation In Paper and Iron Niall Ferguson takes a different view He argues that inflation was indeed an economic and political disaster and further that there were alternative economic policies which could have stabilised the German currency in 1920 To explain why these were not adopted he points to long term defects in the political institutions of the Reich which went back as far as the 1890s and which persisted beyond 1918 The book therefore reveals the Wilhelmine origins of Weimar's failure as well as casting light on the origins of the Third Reich **Arrival Infrastructures** Bruno Meeus, Karel Arnaut, Bas van Heur, 2018-06-16 This volume introduces a strategic interdisciplinary research agenda on arrival infrastructures Arrival infrastructures are those parts of the urban fabric within which newcomers become entangled on arrival and where their future local or translocal social mobilities are produced as

much as negotiated Challenging the dominance of national normativities temporalities and geographies of arrival the authors scrutinize the position and potential of cities as transnationally embedded places of arrival Critically interrogating conceptions of migrant arrival as oriented towards settlement and integration the volume directs attention to much more diverse migration trajectories that shape our cities today Each chapter examines how migrants street level bureaucrats local residents and civil society actors build with the resources they have at hand the infrastructures that accommodate channel and govern arrival

Whether you seek tales of romance, adventure, or personal growth, the world of literature offers an abundance of engaging stories waiting to be discovered. The novel begins with Richard Paffen, a bright but troubled young man, arriving at Hampden College. Richard is immediately drawn to the group of students who call themselves the Classics Club. The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a masterful and thrilling novel that will keep you guessing until the very end. The novel is a cautionary tale about the dangers of obsession and the power of evil.
