Lessons in Disability Jacob

Stratman, 2015-11-16 Disability is a growing reality. According to the United States Census Bureau, approximately 57 million people, 19 percent of the population, had a disability in 2010, more than half being reported as severe. Interest in disability studies is also growing in literature, film, art, politics, and religion. Exploring the intersection between disability and young adult literature, this collection of new essays fills a gap in scholarship between teachers and YAL scholars. The contributors offer textual analysis, best practices, and numerous examples that enable teachers to expose students to dynamic characters who both reflect and contrast with the reader's reality.

Cyborg Saints Carissa Smith, 2019-09-02

Saints are currently undergoing a resurrection in middle grade and young adult fiction, as recent prominent novels by Socorro Aciole, Julie Berry, Adam Gidwitz, Rachel Hartman, Merrie Haskell, Gene Luen Yang, and others demonstrate. *Cyborg Saints: Religion and Posthumanism in Middle Grade and Young Adult Fiction* makes the radical claim that these holy medieval figures are actually the new cyborgs, in that they dethrone the autonomous subject of humanist modernity. While young people navigate political and personal forces as well as technologies that threaten to fragment and thingify them, saints show that agency is still possible outside of the humanist construct of subjectivity. The saints of these neomedievalist novels, through living a life vulnerable to the other, attain a distributed agency that accomplishes miracles through bodies and places and things, relics, icons, pilgrimage sites, and ultimately the hagiographic text, and its reader spread across time. *Cyborg Saints* analyzes MG and YA fiction through the triple lens of posthumanism, neomedievalism, and postsecularism. *Cyborg Saints* charts new ground in joining religion and posthumanism to represent the creativity and diversity of young people's fiction.

The Oxford

Handbook of Biblical Monsters Associate Professor of Biblical Studies and Academic Dean Brandon R. Grafius, Brandon R.

Grafius, Adjunct Instructor in New and World Religions John W. Morehead, John W. The authors, all leaders in their fields, emphasize the large scale continuities of Iranian history while also describing the important patterns of transformation that have characterized Iran's past. Each of the chapters focuses on a specific epoch of Iranian history and surveys the general political, social, cultural, and economic issues of that era. The ancient period begins with chapters considering the anthropological evidence of the prehistoric era through to the early settled civilizations of the Iranian plateau and continuing to the rise of the ancient Persian empires. The medieval section first considers the Arab Muslim conquest of the seventh century and then moves on to discuss the growing Turkish influence filtering in from Central Asia beginning in the tenth and eleventh centuries. The last third of the book covers Iran in the modern era by considering the rise of the Safavid state and its accompanying policy of centralization, the introduction of Shiism, the problems of reform and modernization in the Qajar and Pahlavi periods, and the revolution of 1978-79 and its aftermath. The book is a collaborative exercise among scholars specializing in a variety of sub-fields and across a number of disciplines including history, art history, classics, literature, politics, and linguistics.
