

The background of the cover is a dark, textured grey. On the left side, there is a detailed illustration of a lightbulb. The base of the lightbulb is rendered with thick, dark blue and black brushstrokes. The glass part of the bulb is filled with a vibrant, multi-colored paint splatter. The colors include bright yellow, orange, red, pink, blue, and purple, with some white highlights. The paint splatters appear to be dripping and splashing outwards from the bulb, creating a sense of dynamic energy and creativity. The overall composition suggests a connection between the lightbulb as a symbol of ideas and the colorful, expressive paint as a representation of creative output.

Employee Inventions in Patent Law Kazuhide Odaki, 2018-10-18 Although employers are required to pay compensation for employee inventions under the laws in many countries existing legal literature has never critically examined whether such compensation actually gives employee inventors an incentive to invent as the legislature intends This book addresses the issue through reference to recent large scale surveys on the motivation of employee inventors in Europe the United States and Japan and studies in social psychology and econometrics arguing that the compensation is unlikely to boost the motivation productivity and creativity of employee inventors and thereby encourage the creation of inventions It also discusses the ownership of inventions made by university researchers giving due consideration to the need to ensure open science and their academic freedom Challenging popular assumptions this book provides a solution to a critical issue by arguing that compensation for employee inventions should not be made mandatory regardless of jurisdiction because there is no legitimate reason to require employers to pay it This means that patent law does not need to give employee inventors an incentive to invent separately from the incentive to innovate which is already given to employers The Hidden Barriers

and Enablers of Team-Based Ideation Linda Suzanne Folk, 2023-01-01 This book explores elements of team dynamics and interactions that block or enable effective ideation The author investigates interpersonal dynamics inhibitors of collaboration and boosters of ideation efficiency that govern the ability of a team to generate new and valuable ideas Where it is widely accepted that teams are a necessity in the creative process this book highlights the inconsistency in terms of quality and reliability of creative output when looking at teams Why do some teams struggle and others succeed in innovating This book offers a valuable resource for those interested in the qualities and interventions that can impact the ideation potential of a team
