Gilbert-Kawai, Marc D. Wittenberg, 2014-05-08 A sound knowledge of equations and their use derivation and clinical application is an absolute prerequisite for any anaesthetist As a result equations are a favourite question topic of examiners particularly in the viva examinations Many candidates answer these poorly losing valuable marks and floundering when they face what they perceive as nightmare questions This book provides a simple portable reference guide to all the equations that candidates may be asked about during their examinations The content is split into four sections physics pharmacology physiology and statistics Each equation is clearly explained derived where necessary and placed into a clinical context using a worked or clinically relevant example to demonstrate its use Units and relevant terms are given and where required clear concise diagrams have also been provided to simplify understanding Written by anaesthetic trainees this is an essential resource for preparation for the FRCA EDA and other anaesthetic examinations **Physics, Pharmacology and Physiology for Anaesthetists** Matthew E. Cross, Emma V. E. Plunkett, 2008-03-27 The FRCA examination relies in part on a sound understanding of the basic sciences physics physiology pharmacology and statistics behind anaesthetic practice It is important to be able to

describe these principles clearly particularly in the viva section of the examination This book provides the reader with all the important graphs definitions and equations which may be covered in the examination together with clear and concise explanations of how to present them to the examiner and why they are important Particular attention is paid to teaching the reader how to draw the graphs This is an aspect of the examination which can be overlooked but which if done well can create a much better impression in the viva situation Packed full of precise clear diagrams with well structured explanations and with all key definitions derivations and statistics this is an essential study aid for all FRCA examination candidates
