Gratitude An Intellectual History:

Gratitude Peter J. Leithart, 2018-06-15 Gratitude is often understood as etiquette rather than ethics an emotion rather than politics It was not always so From Seneca to Shakespeare gratitude was a public virtue The circle of benefaction and return of service worked to make society strong But at the beginning of the modern era European thinkers began to imagine a political economy freed from the burdens of gratitude Though this rethinking was part of a larger process of secularization it was also a distorted byproduct of an impulse ultimately rooted in the teachings of Jesus and the apostle Paul Christians believed that God stood at the center of the circle of gratitude God was the object of thanksgiving and God gave graciously Thus Christians taught that grace cancelled the oppressive debts of a purely political gratitude *Gratitude An Intellectual History* examines changing conceptions of gratitude from Homer to the present In so doing Peter J Leithart highlights the profound cultural impact of early Christian ingratitude the release of humankind from the bonds of social and political reciprocity by a benevolent God who gave and who continues to give graciously *Themelios, Volume 40, Issue 2* D. A. Carson, 2016-04-22 Themelios is an international evangelical peer reviewed theological journal that expounds and defends the historic Christian faith Themelios is published three times a year online at The Gospel Coalition <http://thegospelcoalition.org/themelios> and in print by Wipf and Stock Its primary audience is theological students and pastors though scholars read it as well Themelios began in 1975 and was operated by RTSF UCCF in the UK and it became a digital journal operated by The Gospel Coalition in 2008 The editorial team draws participants from across the globe as editors essayists and reviewers General Editor D A Carson Trinity Evangelical Divinity School Managing Editor Brian Tabb Bethlehem College and Seminary Consulting Editor Michael J Ovey Oak Hill Theological College Administrator Andrew David Naselli Bethlehem College and Seminary Book Review Editors Jerry Hwang Singapore Bible College Alan Thompson Sydney Missionary Nathan A Finn Southeastern Baptist Theological Seminary Hans Madueme Covenant College Dane Ortlund Crossway Jason Sexton Golden Gate Baptist Seminary Editorial Board Gerald Bray Beeson Divinity School Lee Gatiss Wales Evangelical School of Theology Paul Helseth University of Northwestern St Paul Paul House Beeson Divinity School Ken Magnuson The Southern Baptist Theological Seminary Jonathan Pennington The Southern Baptist Theological Seminary James Robson Wycliffe Hall Mark D Thompson Moore Theological College Paul Williamson Moore Theological College Stephen Witmer Pepperell Christian Fellowship Robert Yarbrough Covenant Seminary *The Art of Gratitude* Jeremy David Engels, 2018-04-25 In *The Art of Gratitude* Jeremy David Engels sketches a genealogy of gratitude from the ancient Greeks to the contemporary self help movement One of the most striking things about gratitude Engels finds is how consistently it is described using the language of indebtedness A chief purpose of this he contends is to make us more comfortable living lives in debt with the nefarious effect of pacifying the citizenry so we are less likely to speak out about social and economic injustice To counteract this he proposes an alternative art of gratitude as thanksgiving that is inspired by Indian philosophy particularly the yoga philosophy

of the Bhagavad Gita and Patanjali's Yoga Sutras He argues that this art of gratitude can challenge neoliberalism by reorienting our politics away from resentment anger and guilt and toward a democratic ethic of thanksgiving and the common good

American Intellectual History Jennifer Ratner-Rosenhagen, 2021 Long before the United States was a nation it was a set of ideas projected onto the New World by European explorers with centuries of belief and thought in tow From this foundation of expectation and experience America and American thought grew in turn enriched by the bounties of the Enlightenment the philosophies of liberty and individuality the tenets of religion and the doctrines of republicanism and democracy In engaging and accessible prose Jennifer Ratner-Rosenhagen's introduction to American thought considers how notions about freedom and belonging the market and morality and even truth have commanded generations of Americans and been the cause of fierce debate

The New Testament and Intellectual Humility Grant Macaskill, 2018-12-20 This study examines how the New Testament scriptures might form and foster intellectual humility

within Christian communities It is informed by recent interdisciplinary interest in intellectual humility and concerned to appreciate the distinctive representations of the virtue offered by the New Testament writers on their own terms It argues that the intellectual virtue is cast as a particular expression of the broader Christian virtue of humility something which itself proceeds from the believer's union with Christ through which personal identity is reconstituted by the operation of the Holy Spirit This demands that we speak of virtue in ways determined by the acting presence of Jesus Christ that overcomes sin and evil in human lives and in the world The Christian account of the intellectual virtue of humility is framed by this conflict as the minds of believers who live together within the Christian community struggle with natural arrogance and selfishness and come to share in the mind of Christ The new identity that emerges creates a fresh openness to truth as the capacity of the sinful mind to distort truth is exposed and challenged This affects not just knowledge and perception but also volition for these ancient writers a humble mind makes good decisions that reflect judgements decisively shaped by the sacrificial love of Jesus Christ By presenting humility of mind as a characteristic of the One who is worshipped Jesus Christ the New Testament writers insist that we acknowledge the virtue not just as an admission of human deficiency or limitation but as a positive affirmation of our rightful place within the divine economy

Islam, Orientalism and Intellectual History Mohammad R. Salama, 2011-03-30 Debates on the relationship between Islam and the West rage on from talk of clashing civilizations to political pacification from ethical and historical perspectives to distrust xenophobia and fear Here Mohammad Salama argues that the events of 9 11 force us to engage ourselves fully without preconditions in understanding not just the history of Islam as a religion but of Islam as a historical condition that has existed in relationship to the West since the seventh century Salama compares the Arab Islamic and European traditions of historical thought since the early modern period focusing on the watershed moments that informed the two traditions ideas of intellectual history and perceptions of one another He draws attention to European intellectual history s entangled links with the Islamic philosophy of history especially the complexities of orientalism and modernity Recent critical reflections on the work of Ibn Khald n confirm this intertwined and troubled relationship reflecting major disparities and contradictions At the same time recent Arab writings on Europe s intellectual history reveal a struggle against erasure and intellectual superiority Calling for a new understanding of the relationship between Islam and the West Salama argues that Islam has played a major role in enabling and positioning various paths of Western historiography at crucial moments of its development leaving palpable imprints on Islamic historiography in the process He proposes an answer to a fundamental question how to make sense of the mechanics of production in Arab Islamic and Western historiographies or how to identify the ways in which they have both failed to make sense of themselves and of each other in an increasingly disenchanted postnationalist world Spanning an impressive array of recent writings on these themes as well as older foundational texts in both traditions including al Tabar Ibn Khald n Hegel al Jabart Toynbee Foucault Edward Said and Hourani this book is both timely and crucial for all those interested in Islamic and Middle Eastern studies Western and Islamic philosophies of history modernity and the relationship between Islam and the West
