 Lesh,2023-10-10 Every major measure of students historical understanding since 1917 has demonstrated that students do  
 not retain understand or enjoy their school experiences with history Bruce Lesh believes that this is due to the way we teach  
 history lecture and memorization Over the last fifteen years Bruce has refined a method of teaching history that mirrors the  
 process used by historians where students are taught to ask questions of evidence and develop historical explanations And  
 now in his new book Why Won't You Just Tell Us the Answer he shows teachers how to successfully implement his methods in  
 the classroom Students may think they want to be given the answer Yet when they are actively engaged in investigating the  
 past the way professional historians do they find that history class is not about the boring memorization of names dates and  
 facts Instead it's challenging fun Historical study that centers on a question where students gather a variety of historical  
 sources and then develop and defend their answers to that question allows students to become actual historians immersed in  
 an interpretive study of the past Each chapter focuses on a key concept in understanding history and then offers a sample  
 unit on how the concept can be taught Readers will learn about the following Exploring Text Subtext and Context President
