Greatest Adventures In Human Development:

The Greatest Adventures In Human Development G. Kenneth West, 2021-04-14 This undergraduate psychology text acknowledges the diverse backgrounds and learning styles of students by blending Adlerian tasks of life with the developmental psychology of Adler, Catalano, Dreikurs, Erikson, Fowler, Fromm, Gilligan, Hoffberger, Kierkegaard, Kohlberg, Levinson, Maslow, May, Piaget, Rogers, Sekkaran, and Sternberg. Each chapter examines one of life's greatest adventures and offers the wisdom and advice of psychologists and counsellors most familiar with that aspect of life. Chapters cover adventures such as birth, loss, loving, leaving, growing up, growing old, children who succeed and fail, stagnant and fulfilling careers, faith, despair, and crisis, and transformation. Reflection questions precede each chapter to stimulate class discussion.

"Do Not Be Concerned Only About Yourself..." Noemi Bravená, 2019-09-13 This interdisciplinary book sets forth the goal of introducing and critically addressing a new paradigm of thought based on the concepts of transcending, transcendence, and overlap, as well as defining these terms in reference to children, their personality, and socialization. For many readers, the concept of transcendence is mainly identified with the fields of theology or philosophy. This book seeks to demonstrate that the concept of transcendence is intricately connected with psychology, the philosophy of education, and general pedagogy. It aims to discover unity in plurality and to define the term transcendence in relation to the educational process. The author raises the question whether transcendence, not being concerned only with one's own self, is a concept of cross-curricular education and whether every school subject is able to develop the transcendent dimension of children, an important dimension which the author calls the competence of higher order thinking. Here, a new pedagogical paradigm is defined with the support of some Czech authors: Helus, Spilkov, Patočka, Pelcov, etc. and several quotations from the Czech curriculum. Thus, a careful reflection upon this significant work will allow the reader to recognize that this new paradigm is applicable in any country of the world where the state has a primary interest in promoting the flourishing of human values and pursuing that which is considered good by society. Religious pedagogy is embedded in the entire array of fields aimed at developing the transcendent dimension of children, and therefore it plays an equal role within the overall framework of the education of children.

G. Wells,1925 No book is provoking a more animated discussion

among students of the social sciences at the present time than H G Wells Outline of History The author s task as he himself sets it is to tell truly and clearly in one continuous narrative the whole story of life and mankind so far as it is known today But while these two volumes are plainly for the general reader rather than for the special student of history it does not follow that they contain nothing beyond an endless parade of names and dates Their chief value indeed is in the author s interpretation of what he writes about Events are appraised and men are weighed in the balance as he goes along Historians in general will not agree with some of these appraisals nor will they credit Mr Wells with an approach to infallibility in his judgment of the men who flit across his pages but his estimates of the relative value of facts and forces can scarcely be brushed aside because they do not command general indorsement On some matters unhappily Mr Wells has allowed his iconoclastic proclivities to run away with him Napoleon I for example cannot be disposed of as a second grade pestilence because he killed fewer people than the influenza epidemic of 1918 II p 384 nor will the world believe so long as it retains its senses that Napoleon III was a much more intelligent man than his uncle II p 438 Even the pinchbeck himself would have rebuked this insinuation But when all is said these two stout volumes embody a remarkable achievement They contain astonishingly few historical inaccuracies of the customary type The author s advisers and a competent galaxy of scholars they are have kept him clear of the pitfalls The style is terse and forceful Mr Wells certainly has the gift of cogent exposition
