*Unanswered* Jeremiah J. Johnston, 2015-10-06 We live in a radically skeptical age Tough questions are being asked about Christianity And most believers are ill equipped to provide the answers our culture and communities desperately need Many in today's church do not know the Bible as well as they should and they struggle with their own big questions about the faith After receiving more than four thousand questions at his Christian Thinkers Society events over the span of six years Dr Jeremiah Johnston began to recognize six categories of recurring trending questions that dominated the rest In *Unanswered*

he tackles these tough issues that plague the minds of believers but are rarely addressed in church such as Why is it that God often seems to remain silent How can we trust in the bodily resurrection of Jesus and what does it mean for us today What do Christians need to understand about suicide and mental illness How should Christians respond to spiritual darkness and the obsession with paranormal activity Why is biblical illiteracy so dangerous for Christians and the church Why do we experience suffering and pain Unanswered will leave you enriched characterized by a thinking faith capable to communicate confidently and committed to escape the tendency to offer trite answers to a skeptical world Spiritualism, Mesmerism and the Occult, 1800–1920 Vol 1 Shane McCorristine, 2021-12-16 This edition provides an insight into the dark areas between Victorian science medicine and religion The rare reset source material in this collection is organized thematically and spans the period from initial mesmeric experiments at the beginning of the nineteenth century to the decline of the Society for Psychical Research in the 1920s **Landscapes of Fear** Yi-Fu Tuan, 2013-01-02 To be human is to experience fear but what is it exactly that makes us fearful Here is one geographer s striking exploration of our landscapes of fear as they change throughout our lives and have changed throughout history Yi fu Tuan investigates landscapes of the natural environment which are threatening and landscapes filled with the dark imageries of the mind fears of drought flood famine and disease shared by all members of a community and fears of the particular ghosts which haunt the individual imagination In this lucidly written ground breaking survey Professor Tuan delves into many cultures and reaches back into our prehistory to discover what is universal and what is particular in our inheritance of fear Starting with fear in animals he raises and explores a variety of questions What is specifically human about fear Is there or has there ever been a fearless society Professor Tuan examines the most specific forms fear takes in the mind of the child among hunters and agriculturists inside the walls of a medieval Chinese city among Navaho Indians and American immigrants He explores the ways in which authorities create landscapes of terror to instill fear in their own populations and he probes that most basic of all contradictions between the need for human security and the fear of human nature Professor Tuan particularly emphasizes how in coping with fears of enemies strangers the insane wolves wind witches mountains dragons rain or the terror that the universe itself might crumble humans respond adventurously by creating shelters ranging from fairy tales to cosmological myths We watch as human beings continually draw and redraw their circles of safety never feeling entirely at peace within them **Visitors from beyond the Grave** Dámaris Romero-González, Israel Muñoz-Gallarte, Gabriel Laguna-Mariscal, 2019 The monograph deals with the topic of ghosts in universal literature from a polyhedral perspective making use of different perspectives all of which highlight the resilience of these figures from the very beginning of literature up to the present day Therefore the aim of this volume is to focus on how ghosts have been translated and transformed over the years within literature written in the following languages Classical Greek and Latin Spanish Italian and English Supernatural Horror in Literature H. P. Lovecraft, 2013-06-10 Originally published in 1927 in a small circulation amateur magazine spanning the

period from antiquity until the 1930s and covering both the Anglo American world and Continental Europe Lovecraft's essay remains unparalleled as a survey of horror literature in our hemisphere Said literature's emergence as a genre coincided with the institutional establishment of liberalism which represents a diametrically opposed worldview This would suggest that horror literature even if inadvertently or subconsciously represents an attempt at escaping the limitations of the secular materialist rationalist Weltanschauung of liberal modernity as well as a desire for meaning in a world rendered meaningless through liberation from hierarchies folk traditions the occult and the supernatural Also of interest is the fact that the aesthetics of Gothic horror are invariably and luxuriantly beautiful if in a dark way whereas the logical extreme of rationality utilitarianism standardisation is inherently anti aesthetic Would this not indicate then that the Age of Reason marked the beginning of a process that concluded in late modernity with the wholesale destruction of beauty except where it or the counterfeiting of it was dictated by economic necessity If so we may view Lovecraft's essay not merely as a resource for those seeking entertainment within a genre of literature but also a map for those seeking to escape and begin to transcend the despair engendered by a worldview that pronounced itself dead when someone spoke of the end of history     The Publishers' Circular and Booksellers' Record ,1929
