The Public Mind and the Politics of Postmillennial U.S.-American Writing Jolene Mathieson, Marius Henderson, Julia Lange, 2022-08-22 In the last twenty years how has U S American writing and the reading public responded to the complexity of an American culture resolutely situated in a larger highly politicized globalized world undergoing radical change The 20th century modes of realism and postmodernism have been succeeded by writerly practices that are that are invested in the idea of embodied authenticity and that are relatable to neorealism whether it be via outright affirmation or critical experimentation and appropriation The individual case studies mark the ways in which postmillennial U S American writing is marked by an ongoing awareness toward complexity and the entanglement of writers and the reading public with pressing political concerns and at times oppressive social and economic discursive and structural formations These contributions further attest to how narrative and structural complexity grammatical and lexical sophistication and social nuance endure as the main literary modes of confronting 21st century

The Historical Jesus of the Gospels Craig S. Keener,2012-04-13 The earliest substantive sources available for historical Jesus research are in the Gospels themselves when interpreted in their early Jewish setting their picture of Jesus is more coherent and plausible than are the competing theories offered by many modern scholars So argues Craig Keener in The Historical Jesus of the Gospels In exploring the depth and riches of the material found in the Synoptic Gospels Keener shows how many works on the historical Jesus emphasize just one aspect of the Jesus tradition against others but a much wider range of material in the Jesus tradition makes sense in an ancient Jewish setting Keener masterfully uses a broad range of evidence from the early Jesus traditions and early Judaism to reconstruct a fuller portrait of the Jesus who lived in history

The Childhood of Jesus Reidar Aasgaard,2011-06-30 The mid second century apocryphal infancy gospel the Gospel of Thomas which deals with the childhood of Jesus from age five to age twelve has attained only limited interest

from scholars Much research into the story has also been seriously misguided especially study of the story's origin character and setting This book gives a fresh interpretation of the infancy gospel not least by applying a variety of new approaches including orality studies narrative studies gender studies and social scientific approaches The book comes to a number of radically new conclusions The Gospel of Thomas is dependent on oral storytelling and has far more narrative qualities than has been previously assumed The narrative world depicted in the gospel is that of middle class Christianity with the social and cultural ideas and values characteristic of such a milieu The gospel's theology is not heretical as has often been claimed but mirrors mainstream thinking rooted in biblical tradition particularly in the Johannine and Lukan traditions Jesus is portrayed as a divine figure but also as a true to life child of late antiquity The audience for the Gospel of Thomas is likely to have come from the rural population of early Christianity a milieu that has received little attention A main audience for the story was children among early Christians making this at least within Christianity the oldest known children's tale The book provides a Greek text and a translation and several appendixes on the story along with other early Christian infancy material
