Greek Poetry Of The Imperial Period Greek Poetry Of The Imperial Period:

Greek Poetry of the Imperial Period Neil Hopkinson, 1994-09-22 This book contains a selection of pagan Greek poetic texts ranging in date from the first to the sixth century AD It makes easily accessible for the first time work by poets such as Quintus Smyrnaeus Nonnus Musaeus and Babrius hitherto neglected in Classical syllabuses Genres represented include epic epyllion didactic epigram lyric and the verse fable There is a brief general introduction and in addition each section of detailed commentary is prefaced by a discussion of literary aspects of the poems and of their wider contexts The book is intended primarily for undergraduate and graduate students of Greek but will be of interest also to Classical scholars

Oppian's Halieutica Emily Kneebone, 2020-10-08 Oppian's Halieutica is a dazzling five book Greek didactic poem about the sea and its wily chaotic inhabitants This book offers the first sustained reading of the poem as a didactic epic that meditates on the place of human beings within the cosmos at large and on the lessons we can learn from fish Using a combination of close reading and wider interpretative lenses this book examines the literary texture and cultural relevance of the Halieutica by analysing its sophisticated refraction of earlier literary critical theories and hexameter traditions its commentary on human animal relations and its contribution to imperial Greek literary political and cultural debates The book demonstrates the importance and cultural centrality of this understudied Greek didactic epic it is written for students and scholars of imperial Greek literature and culture including the ancient novel ancient heroic and didactic epics and those interested in human animal relations in the ancient world

Latin Poetry in the Ancient Greek Novels Daniel Jolowicz, 2021-04-15 Latin Poetry in the Ancient Greek Novels establishes and explores connections between Greek imperial literature and Latin poetry This work challenges conventional thinking about literary and cultural interaction of the period which assumes that imperial Greeks were not much interested in Roman cultural products especially literature Instead it argues that Latin poetry is a crucially important frame of reference for Greek imperial literature This has significant ramifications bearing on the question of bilingual allusion and intertextuality as well as on that of cultural interaction during the imperial period more generally Three of these novels in particular Chariton's Chaereas and Callirhoe Achilles Tatius Clitophon and Leucippe and Longus Daphnis and Chloe are analysed for the extent to which they allude to Latin poetry and for the effects literary and ideological of such allusion After establishing the cultural context and parameters of the study each chapter pursues the strategies of an individual novelist in connection with Latin poetry The work offers the first book length study of the role of Latin literature in Greek literary culture under the empire and thus provides fresh perspectives and new approaches to the literature and culture of this period

introducing the primary resources and exploring the latest agenda for their study The emphasis is on the breadth and potential of Hellenic Studies as a flourishing and exciting intellectual arena and also upon its relevance to the way we think about ourselves today *A Companion to Ancient Epic* John Miles Foley, 2008-11-03 *A Companion to Ancient Epic* presents for the first time a comprehensive up to date overview of ancient Near Eastern Greek and Roman epic It offers a multi disciplinary discussion of both longstanding ideas and newer perspectives *A Companion to the Near Eastern Greek and Roman epic traditions* Considers the interrelation between these different traditions Provides a balanced overview of longstanding ideas and newer perspectives in the study of epic Shows how scholarship over the last forty years has transformed the ways that we conceive of and understand the genre Covers recently introduced topics such as the role of women the history of reception and comparison with living analogues from oral tradition The editor and contributors are leading scholars in the field Includes a detailed index of poems poets technical terms and important figures and events

"Cast in Later Grecian Mould", Quintus of Smyrna's Reception of Homer in the Posthomerica Vincent Edward Tomasso, 2010 This dissertation examines the relationship between the Homeric epics the *Iliad* and the *Odyssey* and Quintus of Smyrna's *Posthomerica* a 14 book epic of the third century CE It argues that Quintus bridges the narratives of the *Iliad* and the *Odyssey* and redeploys Homeric style in order to re activate the cultural power of Homer under the Roman Empire The first chapter analyzes Quintus' depiction of the Muses The ways in which the goddesses are represented encodes the contemporary conflict of constructing a Greek identity as panhellenic or epichoric in the language of the past This demonstrates the *Posthomerica*'s deep engagement with the position of Hellenism and its connection to the past The lack of an opening invocation to the Muses is part of Quintus' strategy for tapping into Homeric power he connects the *Iliad* with the *Posthomerica* but also respects the boundaries of the Homeric text The second chapter explores how Quintus occasionally draws his audience's gaze away from the primary narrative of the heroic past and towards their own present This is done through landscapes a simile involving the arena Odysseus' *testudo* maneuver and Calchas' prophecy about the Roman empire These passages fuse the two time frames together which implicates the past in the construction of the present In the third chapter specific nodes of intertextuality between the *Posthomerica* and the *Iliad* *Odyssey* are the primary focus It is argued that the intertextual web is incomplete and that the audience must engage their education *paideia* to fill in the narrative gaps This engages them in creating a Hellenic identity from the narratives of the past with knowledge derived from the present The fourth chapter contextualizes Quintus with other hexameter poets of the first through fourth centuries CE who treated the Trojan War narrative including Nestor and Pisander of Laranda Triphiodorus and hexameter papyrus fragments **The Roman World** J. S. a number of Greek and Roman poets incorporated counting and calculation within their verses Setting the work of authors such as Callimachus Catullus and Archimedes in dialogue with the less well known isopsephic epigrams of Leonides of Alexandria and the anonymous arithmetical poems preserved in the Palatine Anthology the book reveals the various roles that number played in ancient poetry Focussing especially on counting and arithmetic Max Leventhal demonstrates how the discussion rejection or enacting of these two operations was bound up with wider conceptions of the nature of poetry Practices of composing reading interpreting and critiquing poetry emerge in these texts as having a numerical component The result is an illuminating new way of approaching Greek and Latin poetry and one that reaches across modern disciplinary divisions
