Writing Literary History in the Greek and Roman World Giacomo Fedeli,Henry Spelman,2024-06-27 The first study of ancient Greek and Roman literary history as a phenomenon on its own terms *The Minoan Epiphany - A Bronze Age Visionary Culture* Bruce Rimell,2021-01-02 The art and iconography of the Minoan civilisation of Bronze Age Crete is rightly described as having a refreshing vitality with a fortunate combination of stylisation and spontaneity in which the artist is able to transform conventional imagery into a personal expression The dynamism torsion and naturalism evident in Minoan art stands in stark contrast to the hieratic rigidity of other ancient civilisations and nowhere is this more apparent than in the iconography of the Minoan Epiphany a set of mainly glyptic rings seals and seal impression images which appear to depict religious celebrants experiencing direct and seemingly ecstatic encounters with deities This collection of essays explores this central aspect of Minoan religion taking a strongly archaeological focus to allow the artefacts to speak for themselves and moving from traditional representational interpretations into embodied perspectives in which the ecstatic capabilities of the human body throw new light on Aegean Bronze Age ritual practices Such ideas challenge rather passive assumptions modern Western observers hold about the nature of religious feelings and experiences in particular the depictions of altered states of consciousness in ancient art and the visionary potential of dance gestures Speculative asides on the potential for a Minoan origin for Classical Greek humanism and hints in the imagery on ancient Cretan conceptions of the cosmos are set against sound archaeological theories to explain this lively and dynamic corpus of images Beautifully illustrated with images and sketches of the relevant artefacts this wide ranging volume will stimulate audiences with archaeological prehistorical and

spiritual interests as well as historians of religion and art The Minoan Epiphany also represents an influential antecedent to the Visionary Humanist philosophy which forms the majority of Bruce s current independent research interests

Rutherford,2020-09-23 Our knowledge of ancient Greece has been transformed in the last century by an increased understanding of the cultures of the Ancient Near East This is particularly true of ancient religion This book looks at the relationship between the religious systems of Ancient Greece and the Hittites who controlled Turkey in the Late Bronze Age 1400 1200 BC The cuneiform texts preserved in the Hittite archives provide a particularly rich source for religious practice detailing festivals purification rituals oracle consultations prayers and myths of the Hittite state as well as documenting the religious practice of neighbouring Anatolian states in which the Hittites took an interest Hittite religion is thus more comprehensively documented than any other ancient religious tradition in the Near East even Egypt The Hittites are also known to have been in contact with Mycenaean Greece known to them as Ahhiyawa The book first sets out the evidence and provides a methodological paradigm for using comparative data It then explores cases where there may have been contact or influence such as in the case of scapegoat rituals or the Kumarbi Cycle Finally it considers key aspects of religious practices shared by both systems such as the pantheon rituals of war festivals and animal sacrifice The aim of such a comparison is to discover clues that may further our understanding of the deep history of religious practices and when used in conjunction with historical data illuminate the differences between cultures and reveal what is distinctive about each of them
