Harlan Coben In development as a major motion picture starring Austin Butler and directed by Darren Aronofsky. Henry Call Me Hank Thompson used to play California baseball. Now he tends to a bar on Manhattan's Lower East Side. When two Russians in tracksuits beat Hank to a pulp, he gets the clue someone wants something from him. He just doesn't know what it is, where it is, or how to make them understand. He doesn't have it. Within twenty-four hours, Hank is running over rooftops, playing hide-and-seek with the NYPD riding the subway with a dead man at his side and counting a whole lot of cash on a concrete floor. All because of some Russian hoods and a flat-out freakshow of goons. All because once in another life, the only thing Hank wanted to steal was third base without getting caught.

Fitting The Task To The Human, Fifth Edition E. Grandjean, Karl H.E. Kroemer, 1997-07-31 Our working conditions have undergone rapid and fundamental changes during the last few years. One example is the widespread use of the individual computer in the shop office and home. Another major development is that women now hold many jobs that used to be in the male domain and that many more women choose a life-long occupational career. Workforce's tasks, conditions, and tools are changing. Many office and industrial workers are tied to human-machine systems. Repetitive work can create cumulative health problems such as the often-reported visual strains, mental stress, and physical injury. Proper ergonomic measures can avoid such harmful effects and instead promote health conditions which are both efficient and agreeable. In this latest edition of *Fitting the Task to the Human*, Professor Karl Kroemer has revised and updated the text and data while remaining true to the spirit of Professor Etienne Grandjean's earlier editions. This aim is as before: to impart basic knowledge of occupational ergonomics in a straightforward and lucid fashion to those responsible for the design, management, and safety of people in the workplace and to those who study it.
