Assisting the Invisible Hand W. Dubbink, 2013-03-09 This is an investigation into contemporary thinking on controlling the market especially with regard to the problem of dealing with environmental issues The book contributes to contemporary insight by arguing that the issue of market control must be addressed in terms of the relations between state market and civil society It stresses the normative dimensions of the market control issue The position adopted by the book is that the market cannot be controlled by the state alone

Macro-environmental Policy G. Huppes, 1993 The central theme of this book is how macro environmental policy can be developed which does not prescribe or suggest

specific technologies and products but realises the environmental quality desired by changing the general context and the normative principles for policy design and evaluation the first two parts form the analytic core The framework for analysis gives a classification of instruments in terms of permutations of a limited number of defining elements The normative principles guide choices in instrument design and as the flexible response strategy guide their application in specific policies Detailing two main new instruments the standard method for LCA and the substance deposit and applying the instrument strategy as developed to the cases make up the next two parts Social scientists and policy scientists might concentrate on the framework while those engaged in the theory of policy development and policy analysis including strategic analysis might find items of prime interest in the part on principles Those interested in specific environmental problems may find particular value in the extensive case studies **NEHA bulletin** ,1996 *Brinkman's catalogus van boeken en tijdschriften* ,1996 With 1901 1910 1956 1960 Repertorium is bound Brinkman s Titel catalogus van de gedurende 1901 1910 1956 1960 Title varies slightly **Groeien door kunstmest** Ernst Homburg,2004 **Sachs, Het einde van de armoede** Jeffrey D.
