The First Tung Chee-hwa Administration Zhaojia Liu, Siu-kai Lau, 2002 This book is a study of the administration of Hong Kong's government under the leadership of Tung Chee hwa during a time when Hong Kong was changing politically and economically The contributors address the following questions To what extent are government policies consistent with those of colonial rule What does one country two systems mean and to what extent has the Tung regime been successful in safeguarding this principle How responsible are external economic forces for the apparent deterioration of the Hong Kong economy Who are affected most by the restructuring of the economy and what are some of the long term implications for Hong Kong as an important world financial center How do people in general perceive these changes What are some of the most effective economic and social policy measures that the Tung government has initiated Finally how successful has the Chief Executive been during his five years in office *China's Influence and the Center-periphery Tug of War in Hong Kong, Taiwan and Indo-Pacific* Brian C. H. Fong, Jieh-min Wu, Andrew J. Nathan, 2020-12-30 Bringing together a team of cutting edge researchers based in Hong Kong Taiwan and Indo Pacific countries this book focuses on the tug of war between China's influence and forces of resistance in Hong Kong Taiwan and selected countries in its surrounding jurisdictions China's influence has met growing defiance from citizens in Hong Kong and Taiwan who fear the extinction of their valued local identities However the book shows that resistance to China's influence is a global phenomenon varying in motivation and intensity from region to region and country to country depending on the forms of China's influence and the balances of forces in each society The book also advances a concentric center periphery framework for comparing different forms of extra jurisdictional Chinese influence mechanisms ranging from economic military and diplomatic influences to united front operations This book will be of key interest to scholars and students of comparative politics international relations geopolitics Chinese politics Hong Kong China relations Taiwan and Asian politics *City on the Edge* Ho-fung Hung, 2022-05-19 For decades Hong Kong has maintained precarious freedom at the edge of competing world powers In *City on the Edge* Ho-fung Hung offers a timely and engaging account of Hong Kong's development from precolonial times to the present with particular focus on the post 1997 handover period Through careful analysis of vast economic data a myriad of political events and intricate networks of actors and ideas Hung offers readers insight into the fraught economic political and social forces that led to the 2019 uprising while situating the protests in the context of global finance and the geopolitics of the US China rivalry A provocative contribution to the discussion on Hong Kong's position in today's world *City on the Edge* demonstrates that the resistance and repression of 2019-2020 does not spell the end of Hong Kong but the beginning of a long conflict with global repercussions *Islam and China's Hong Kong* Wai-Yip Ho, 2013-06-07 Hong Kong is a global city state under the sovereignty of the People's Republic of China and is home to around 250 000 Muslims practicing Islam However existing studies of the Muslim majority communities in Asia and the Northwest China largely ignore the Muslim community in Hong

Kong Islam and China's Hong Kong skillfully fills this gap and investigates how ethnic and Chinese speaking Muslims negotiate their identities and the increasing public attention to Islam in Hong Kong Examining a range of issues and challenges facing Muslims in Hong Kong this book focuses on the three different diasporic Muslim communities and reveals the city state's triple Islamic heritage and distinctive Islamic culture It begins with the transition from the colonial to the post colonial era and explores how this has impacted on the experiences of the Muslim diaspora and the ways this shift has compelled the community to adapt to Chinese nationalism whilst forging greater links with the Gulf Then with reference to the rise of new media and technology the book examines the heightened presence of Islam in the Chinese public sphere alongside the emergence of Chinese Islamic websites which have sought to balance transnational Muslim solidarity and sensitivity towards Chinese government's concern of external extremism Finally it concludes by investigating Hong Kong's growing awareness of the Muslim minorities demands for Islamic religious education and how this links with the city state's aspiration to become the new gateway for Islamic finance Indeed Wai Yip Ho posits that Hong Kong is now shifting from its role as the broker that bridged East and West during the Cold War to that of a new mediator between China and the Middle East Drawing on extensive ethnographic research this book thoughtfully charts a new area of inquiry and as such will be welcomed by students and scholars of Chinese studies Islamic studies Asian studies and ethnicity studies

Citizenship, Identity and Social Movements in the New Hong Kong Wai-man Lam, Luke Cooper, 2017-09-11 Hong Kong's Umbrella Revolution has been widely regarded as a watershed moment in the polity's post 1997 history While public protest has long been a routine part of Hong Kong's political culture the preparedness of large numbers of citizens to participate in civil disobedience represented a new moment for Hong Kong society reflecting both a very high level of politicisation and a deteriorating relationship with Beijing The transformative processes underpinning the dramatic events of autumn 2014 have a wide relevance to scholarly debates on Hong Kong China and the changing contours of world politics today This book provides an accessible entry point into the political and social cleavages that underpinned and were expressed through the Umbrella Movement A key focus is the societal context and issues that have led to growth in a Hong Kong identity and how this became highly politically charged during the Umbrella Movement It is widely recognised that political and ethnic identity has become a key cleavage in Hong Kong society But there is little agreement amongst citizens about what it means to be Hong Konger today or whether this identity is compatible or conflicting with being Chinese The book locates these identity cleavages within their historical context and uses a range of theories to understand these processes including theories of nationalism social identity ethnic conflict nativism and cosmopolitanism This theoretical plurality allows the reader to see the new localism in its full diversity and complexity and to reflect on the evolving nature of Hong Kong's relationship with Mainland China

Lost in China? Carol A. G. Jones, 2015-04-30 Rule of law is a core Hong Kong value providing a defensive wall around the territory and protecting its way of life against mainlandisation Before the 1997 retrocession to China fears were widespread that the rights and freedoms enjoyed under colonial rule would be eroded that the rule of law would be weakened and that corruption would increase Soon the first blows were struck against the rule of law via an NPCSC ruling which overturned the judgment of the Court of Final Appeal Successive interventions by Beijing in Hong Kong's legal and political affairs have given rise to fears about the loss of the rule of law and loss of identity These fears have subsequently provoked mass street demonstrations including the Umbrella Revolution of 2014 But as this book shows Hong Kongers also use less explicit arts of resistance to maintain their identity

Hong Kong on the Move Carola McGiffert, James T.H. Tang, 2008-10-14 The Occupy Movement in Hong Kong Yongshun Cai, 2016-08-12 The Occupy movement in Hong Kong was sustained for about 80 days because of government tolerance the presence of determined participants and a weak leadership The government tolerated the occupation because its initial use of force in particular teargas was counterproductive and provoked large scale participation Unlike other social movements such as the 1989 Tiananmen movement the Occupy movement reached its peak of participation at the very beginning making it difficult to sustain the momentum The presence of determined participants who chose to stay until the government responded was crucial to the sustaining of the movement These self selected participants were caught in a dilemma between fruitless occupation and reluctance to retreat without a success The movement lasted also because the weak leadership was unable to force the government to concede or devise approaches for making a graceful exit Consequently site clearance became the common choice of both the government and the protestors This book develops a new framework to explain the sustaining of decentralized protest in the absence of strong movement organizations and leadership Sustained protests are worth research because they not only reveal the broad social context in which the protests arise and persist but also point out the dynamics of the escalation or the decline of the protests In addition sustained protest may not only lead to more dramatic action but they also result in the diffusion of protests or lead to significant policy changes *Out of the Shadow of 1997?* Hsin-chi Kuan, 2002 Hong Kong's Legislative Council Elections have been riddled with difficulties The

first partial elections introduced in 1991 were tainted by the traumatic memories of the events of June 4 1989 The elections of 1995 bore the marks of the bitter Sino British controversies over Hong Kong's political reforms As a result of the derailed through train the first general election after the change of sovereignty to China in 1997 produced a two year successor to the Provisional Legislative Council which in turn was troubled by the Asian Financial Crisis In light of this the elections held in September 2000 offered Hong Kong a new lease on life A full four year term legislature was thus elected under conditions that were relatively free from the issues that characterized 1997 uncertainties over the political future of Hong Kong the attendant anxieties of the Hong Kong people and the tortuous struggle over reform initiatives among the political powers This book draws on a wide range of local and overseas expertise to provide an in depth study of the various aspects of the 2000 Legislative Council elections in Hong Kong These aspects include the basic conditions under which the elections took place the role of labor the District Councilors and media reporting the decisive effect of the proportional representation system factionalism in the Democratic Party voting propensity and the issues of identity campaign finance democratization and the degree of political participation
