Reframing the Ethnographic Museum Michael Rowlands, Nick Stanley, Graeme Were, 2025-03-20 Since the later part of the twentieth century ethnographic museums have come under increasing scrutiny and many have reflected on and changed their presentation as they questioned collections so often made by colonial officials and explorers Now is a good time to explore whether new developments in display and cultural politics provide a viable future for ethnographic museums In particular policies for restitution by colonial era institutions create a changed landscape for ethnographic display both in the

countries from which they originate and in former colonising states Reframing the Ethnographic Museum presents a wide range of cultural settings across the world where ethnographic displays have appeared in their local circumstances Non European museum strategies raise new problems but also new solutions Nationalism has been especially significant in museology in Asia and in Africa new museum objectives have emerged They share a problematic future in a digital age when the aura of artefacts is challenged by digital repositories and a public less willing to travel to visit original objects Authors in this book grapple with the new complexities facing them as curators in the contemporary world Praise for Reframing the Ethnographic Museum Ethnographic museums have been controversial and have been undergoing re invention for decades They are considered illegitimate but have renewed prominence as highly visible contact zones and theatres of cross cultural mediation This book reviews and explores the sector with insight and nuance reporting the successes and failures of key curatorial projects both within Europe and across the Global South Nicholas Thomas University of Cambridge **Asia and Oceania: District of Columbia** G. Berelson on Population John A. Ross,W. Parker Mauldin,2012-12-06 Bernard Barney Berelson had a major influence in the application of social science concepts and methods to population policy during the period from 1962 to 1980 This was the period when concern with population problems spread from a relatively small group of scholars and population activists to a much larger diverse international group of political and intellectual leaders and to the general public as well There was an

exponential growth in the number of scholars and service personnel in various population and family specialties in this period Barney came into the field with his appointment as Director of the Communication Research Program of The Population Council in 1962 He had no previous training or experience in demography Frank Notestein President of The Population Council at the time had the wisdom to appreciate the value and relevance of Barney's impressive background in communication research and other social science areas as well as his creative mind and leadership qualities His influence on the Council's rapidly expanding program was so immediate and impressive that within a year he was named Vice President When Frank Notestein retired in 1968 Barney became President a post he held for 6 very productive years

International Language, 1924 *India Social Development Report 2023* Indira Hirway, 2024-01-20 This report highlights that gender inequalities and women's subordination in India are caused by two formidable macro structures patriarchy and the exclusion of unpaid work from the macro economy Both these structures reinforce each other and negatively impact women's empowerment Patriarchy imposes subordination on women and forces a disproportionately higher share of unpaid domestic services and unpaid care onto them This is unfair and unjust a violation of basic human rights Other structures like race religion and caste cut across these main structures The selected papers in this report show how patriarchy causes gender inequalities in all critical dimensions of women's life on the one hand and how unpaid domestic services and unpaid care sustains the macro economy and its growth on the other The contributors discuss pathways to integrate unpaid work with the macro economy such that the strength of patriarchy declines and at the same time gender equality is promoted To put it differently unless the structures are addressed by integrating unpaid work inequalities cannot be addressed effectively The report emphasizes that this is the only way to move to real macroeconomics The papers have explored pathways to break

these structures gradually to achieve gender equality and empower women Though the path is challenging it is feasible to reach the goal of pervasive gender equality **Resources in Education** ,1994 Current Catalog National Library of Medicine (U.S.), First multi year cumulation covers six years 1965 70 **History of Sesame (100 CE to 2022)** William Shurtleff; Akiko Aoyagi,2022-02-16 The world s most comprehensive well documented and well illustrated book on this subject With extensive subject and geographic index 28 photographs and illustrations mostly color Free of charge in digital PDF format **Proceeding** ,1993 **History of Soybeans and Soyfoods in Italy (1597-2015)** William Shurtleff; Akiko Aoyagi,2015-08-02 The world s most comprehensive well documented and well illustrated book on this subject With extensive index 93 photographs and illustrations mostly color Free of charge in digital PDF format on Google Books **Artifak** Hugo DeBlock,2018-11-29 In Vanuatu commoditization and revitalization of culture and the arts do not necessarily work against each other both revolve around value formation and the authentication of things This book investigates the meaning and value of art objects as commodities in differing states of transit and transition in the local place on the market in the museum It provides an ethnographic account of commoditization in a context of revitalization of culture and the arts in Vanuatu and the issues this generates such as authentication of actions and things indigenized copyright and kastom disputes over ownership and the nature of kastom itself
