throughout the first sixteen years of the 21st century Since the Great Recession substantial resources and effort have been expended to incorporate ethics and corporate social responsibility into business curricula The effectiveness of these efforts has been limited because they have little impact on the technical and core business courses serving as the gateway to the highest paying jobs Students and practitioners may be led to conclude falsely that the business world is an ethics free zone Seeking Adam Smith demonstrates that greed is highly destructive motive for conducting business and the notion that greed is good is nowhere to be found in the Wealth of Nations despite claims by some of the world s leading economists Cox offers alternative economic perspectives that are more realistic and less prone to misuse than those permeating the current business curricula Seeking Adam Smith also contains a forward written by Thomas J Ward who served as Senior Managing Partner of Bear Stearns during its demise and an afterward by Sherron Watkins Enron whistle blower and Time Person of the Year 2002

Shadow Sophia Celia E. Deane-Drummond, 2021-02-25 Why do humans who seem to be exemplars of virtue also have the capacity to act in atrocious ways What are the roots of tendencies for sin and evil A popular assumption is that it is our animalistic natures that are responsible for human immorality and sin while our moral nature curtails and contains such tendencies through human powers of freedom and higher reason This book challenges such assumptions as being far too simplistic Through a careful engagement with evolutionary and psychological literature Celia Deane Drummond argues that tendencies towards vice are more often than not distortions of the very virtues that are capable of making us good After beginning with Augustine s classic theory of original sin the book probes the philosophical implications of sin s origins in dialogue with the philosophy of Paul Ricoeur Different vices are treated in both individual and collective settings in keeping with a multispecies approach Areas covered include selfishness pride violence anger injustice greed envy gluttony deception lying lust despair anxiety and sloth The work of Thomas Aquinas helps to illuminate and clarify much of this discussion on vice including those vices which are more distinctive for human persons in community with other beings Such an approach amounts to a search for the shadow side of human nature shadow sophia Facing that shadow is part of a fuller understanding of what makes us human and thus this book is a contribution to both theological anthropology and theological ethics

An Invitation to Slow Mark R. McMinn, Lisa Graham McMinn, 2024-10-22 We live in a day of fast information fast fingers fast food fast shipping fast words fast anger and fast judgment Our fight or flight impulses keep us on high alert aided by mobile devices that vibrate each time another crisis strikes All this fastness can easily interfere with a slow intentional life grounded in God s love Christian faith has deep treasures and practices to offer us How will we live and who will we be in this highly charged era where politics economics environment and social norms are under significant duress Come explore quieter more intentional ways of being and how these might attune us to the slow work of God in order that we might love one another and the world as God does Our chapters pair a lure to move fast with an invitation to slow Becoming slow to anger is an invitation to empathy slow to judge is an invitation to humility and slow to grasp is an invitation to contentment Ultimately each of

these invitations is a movement toward God *Civic Empowerment in an Age of Corporate Greed* Edward C.
