## **Greenhouse Gases Environment In Focus:**

**A Focus on Sustainable Supply Chains and Green Logistics** Emerald Group Publishing Limited,2015-10-30 In a fast moving world the transportation of goods is expected to be more efficient than ever before This compendia features papers that address key themes in green logistics such as benchmarking and energy efficiency and includes highly cited papers from international contributors such as Alan McKinnon and Joseph Sarkis      **ENC Focus** ,2001      **Value-Focused Thinking** Ralph L. KEENEY,Ralph L Keeney,2009-06-30 This text argues that in decision making a focus should be placed on the bottom line objectives that give it its meaning It states that through recognizing and articulating fundamental values better decision opportunities can be identified thereby creating better alternatives      **Global Environmental Change Research** United States. Congress. Senate. Committee on Commerce, Science, and Transportation. Subcommittee on Science, Technology, and Space,1989      **A Comparative Analysis of German and Australian Climate Change Coverage in Quality Newspapers** Lena Birkenfeld,2020-01-01 In 2010 Germany and Australia had to deal with extreme floods Was climate change considered as cause of these weather events in the media In 2009 a conservative alliance committed to tackle climate change won the German election In 2007 the Australian Labor Party claimed that climate change is the greatest moral challenge of our time and won the election But how was climate change covered by the media in the context of these two elections This work answers these two questions comparing the climate change coverage of two German and two Australian quality newspapers n 1 012 articles As theoretical foundation Entman s 1993 framing approach and the Extended Sphere Model which provides a framework for the explanation of the differences in the coverage were applied With a hierarchical cluster analysis seven frames were identified Moreover six actor groups were differentiated and possible influencing factors were compiled The results show that the differences in terms of climate change coverage in quality newspapers are rather low between the two countries Some of the observed differences could be explained by the proposed model But the most striking results are certainly the similarities in the coverage Common media standards in terms of climate change coverage could however not be identified in this work      *Investing for a Greener Planet* Pardeep Singh,Shikha Daga,Kiran Yadav,2025-09-18 This title highlights the pertinent issue of climate change and its management using sustainable sources of finance The book provides a comprehensive overview of sustainable development and its management using green finance green energy green transport and green infrastructure as well as the policies and innovations that can be implemented at both the micro and macro levels Features Covers theories concepts practices regulations case studies and real world applications related to sustainable finance Introduces the concept of sustainable finance and climate risk management Explains green finance green infrastructure green transport and others to mitigate the climate risk Provides a comprehensive view of various policies and innovations that can be done at micro and macro level to reduce carbon footprints Reviews contemporary concept of climate related disclosures and reporting by financial institutions

This book is aimed at graduate students researchers and professionals in environmental sciences sustainable finance climate change and circular economy including policymakers

**Toward a Sustainable America** Martin A. Spitzer,1999-08 Each chapter of this report corresponds to one of the substantive policy areas the President's Council on Sustainable Development has considered The introduction establishes the context and illuminates some of the cross cutting lessons findings and recommendations that inform the council's work Chapters climate change environmental management metropolitan and rural strategies for sustainable communities and international leadership Appendixes environmental management examples of sustainable community initiatives international capital flows and council member profiles Further reading

**Research Handbook on International Marine Environmental Law** Rosemary Rayfuse,Aline Jaeckel,Natalie Klein,2023-01-20 This wholly new edition of the Handbook provides an authoritative examination of international law relating to the protection of the marine environment Chapters critically engage with current legal issues surrounding activities that harm the marine environment including marine pollution seabed activities exploitation of marine biodiversity and climate change and with the different legal tools and mechanisms including environmental impact assessments and compliance and dispute settlement mechanisms used to protect the marine environment New chapters also address legal issues relating to the role of technology and marine scientific research as well as the application of principles such as public participation This title contains one or more Open Access chapters

**Energy and Water Development Appropriations for 2007** United States. Congress. House. Committee on Appropriations. Subcommittee on Energy and Water Development,2006

*Agriculture, Rural Development, Food and Drug Administration, and Related Agencies Appropriations for 2015* United States. Congress. House. Committee on Appropriations. Subcommittee on Agriculture, Rural Development, Food and Drug Administration, and Related Agencies,2014

**Climate, Science and Society** Zeke Baker,Tamar Law,Mark Vardy,Stephen Zehr,2023-12-13 Climate Science and Society A Primer makes cutting edge research on climate change accessible to student readers The primer consists of 37 short chapters organized within 11 parts written by Science and Technology Studies STS and other social science scholars It covers a range of key topics including communication justice and inequality climate policy and energy transitions situating each one within the context of STS studies Each reading translates a focused area of climate change research into short accessible and lively prose Chapter authors open debates where relevant consider policy implications critique existing areas of research and otherwise situate their reading within a larger body of research relevant to climate change courses Designed as a jumping off point for further exploration this innovative book will be essential reading for students studying climate change STS environmental sociology and environmental sciences The Open Access version of this book available at [www.taylorfrancis.com](http://www.taylorfrancis.com) has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license

Health-Focused Public-Private Partnerships in the Urban Context National Academies of Sciences, Engineering, and Medicine,Health and Medicine Division,Board on Global Health,Forum on

Publicâ—"Private Partnerships for Global Health and Safety,2020-12-04 To draw attention to health determinants and health inequities among populations that live in urban environments and to explore challenges faced in establishing urban population health the Forum on Public Private Partnerships for Global Health and Safety hosted a 1 5 day workshop on the role of health focused public private partnerships PPPs in the urban context The workshop held June 13 14 2019 in Washington DC aimed to illuminate some of the intervention strategies that have been designed to attenuate these urban health issues and highlighted the importance of PPPs and urban level governance in remediation efforts By facilitating discussion among participants in both the public and private sectors as well as among policy makers the workshop served as a platform to share best practices on how to address health challenges through interventions that target healthier urban populations This publication highlights the presentations and discussion of the workshop **Routledge Handbook of the Climate Change Movement** Matthias Dietz,Heiko Garrelts,2014-01-10 This handbook provides a comprehensive overview of the growing transnational climate movement A dual focus on climate politics and civil society provides a hitherto unavailable broad and systematic analysis of the current global movement highlighting how its dynamic and diverse character can play an important role in environmental politics and climate protection The range of contributors from well known academics to activist scholars look at climate movements in the developed and developing world north and south small and large central and marginal The movement is examined as a whole and as single actors thereby capturing its scope structure development activities and influence The book thoroughly addresses theoretical approaches from classic social movement theory to the influence of environmental justice frames and follows this with a systematic focus on regions specific NGOs and activists cases and strategies as well as relations with peripheral groups In its breadth balance and depth this accessible volume offers a fresh and important take on the question of social mobilization around climate change making it an essential text for advanced undergraduates postgraduate students and researchers in the social sciences International Seminar on Nuclear War and Planetary Emergencies Richard C. Ragaini,2010 The Erice International Seminars are multidisciplinary seminars attended by over 100 eminent participants from all fields of Science Each year a few scientific issues are selected and experts are invited to present contrasting views during the plenary multidisciplinary sessions of the Seminar followed by general debates These sessions offer a unique opportunity for specialists to enlarge their fields of vision by being confronted to the ideas and suggestions from high level scientists in complementary domains of science Associated workshops allow the experts to further refine and process the ideas evoked during the seminar This year s topics are focused on the World Energy Crisis and more specifically on the Essential Technologies for Moderating Climate Change and Improving Energy Security and for Energy Limits of Development We also concentrated on Managing the Challenges of Climate Change Energy Security and Pollution in Asian Countries On Global Monitoring of the Planet we have focused on the Climate Change issues and specifically on the Sensitivity of Climate to Additional CO2 as indicated by Water Cycle Feedback

Issues Climate Uncertainties Addressed by Satellites and the Basic Mathematics Needed for All Models In Information Security we focused on Cyber Conflict and Cyber Stability For Pollution and Medicine we focused on the Revolution in the Environmental Health Sciences and the Emergence of Green Chemistry      **Handbook on Sustainability Transition and Sustainable Peace** Hans Günter Brauch,Ürsula Oswald Spring,John Grin,Jürgen Scheffran,2016-08-10 In this book 60 authors from many disciplines and from 18 countries on five continents examine in ten parts Moving towards Sustainability Transition Aiming at Sustainable Peace Meeting Challenges of the 21st Century Demographic Imbalances Temperature Rise and the Climate Conflict Nexus Initiating Research on Global Environmental Change Limits to Growth Decoupling of Growth and Resource Needs Developing Theoretical Approaches on Sustainability and Transitions Analysing National Debates on Sustainability in North America Preparing Transitions towards a Sustainable Economy and Society Production and Consumption and Urbanization Examining Sustainability Transitions in the Water Food and Health Sectors from Latin American and European Perspectives Preparing Sustainability Transitions in the Energy Sector and Relying on Transnational International Regional and National Governance for Strategies and Policies Towards Sustainability Transition This book is based on workshops held in Mexico 2012 and in the US 2013 on a winter school at Chulalongkorn University Thailand 2013 and on commissioned chapters The workshop in Mexico and the publication were supported by two grants by the German Foundation for Peace Research DSF All texts in this book were peer reviewed by scholars from all parts of the world

Temperature Adaptation in a Changing Climate Kenneth B. Storey,Karen K. Tanino,2012 Cold adaptation is a much neglected field in the minds of climate change researchers and policy makers However increasing fluctuations in temperature means that the risk of cold stress will pose an increasing threat to both wild and cultivated plants and animals with frost injury expected to cause devastating damage to crops on an increasingly large scale Conversely species already adapted to cold seasonality are declining in numbers and threatening both wildlife and human food sources Thus improving shared knowledge of the biological mechanisms of cold adaptation in plants and animals will help prevent major losses of crops and genetic resources in the future This book is the first to focus on the mechanistic similarities between species in their responses to cold in a multi organism approach that addresses the challenges and impacts of climate change on cold adaptation in micro organisms including pathogens invertebrates economically and scientifically important plants and vertebrates in both terrestrial and marine environments The book concludes with a focus on the interactions between organisms exploring common mechanisms in cold adaptation and dormancy      Encyclopedia of Global Warming and Climate Change, Second Edition S. George Philander,2012-06-13 The First Edition of the Encyclopedia of Global Warming and Climate Change provided a multi authored academic yet non technical resource for students and teachers to understand the importance of global warming to appreciate the effects of human activity and greenhouse gases around the world and to learn the history of climate change and the research enterprise examining it This edition was well received with notable

reviews Since its publication the debate over the advent of global warming at least partially brought on by human enterprise has continued to ebb and flow depending literally on the weather politics and media coverage of climate summits and debates Advances in research also change the discourse as new data is collected and new scientific projects continue to explore and explain global warming and climate change Thus a new Second Edition updates more than half of the original entries and adds new perspectives and content to keep students and researchers up to date in a field that has proven provocatively lively

**Utilization-Focused Evaluation** Michael Quinn Patton, Charmagne E. Campbell-Patton, 2021-10-11 The Fifth Edition of the bestselling Utilization Focused Evaluation provides expert detailed advice on conducting evaluations that promote effective use of the findings Chock full of useful pedagogy this book presents Michael Quinn Patton's distinctive opinions based on more than forty years of experience and also the expertise of new co author Charmagne E Campbell Patton The authors begin by describing the essence of utilization focused evaluation and then outline 10 operating principles They conclude with chapters focused on how evaluation can be used to promote a more thoughtful equitable and sustainable world Richly illustrated with examples figures and cartoons this engaging text shows readers how to design and conduct evaluations that provide useful findings and which contribute to a more equitable society A companion website is available to accompany this book

**Integrating Science and Policy** Roger E Kasperson, 2012-08-06 As progress towards a greater knowledge in sustainability science continues the question of how better to integrate scientific progress with actual decisions made by practitioners remains paramount This book aims to help close the gap between science and practice Based on a two year collaborative project between Harvard and Clark Universities the book takes as its focus the vulnerability and resilience of people around the world to the effects of environmental change a mature area of research in which one might expect the gap between science and policy practice to have been extensively bridged The book presents analysis of past studies interviews conducted with the producers and users of scientific knowledge and case studies performed by leading scholars across a spectrum of international settings and political systems Crucially the authors identify new directions and tools for closing the gap between science and policy across a range of situations and societies The result is an illuminating collection of studies and analyses that suggest to researchers students practitioners and policy makers alike how best to ensure that high quality environmental research informs good environmental policy and practice

**ACKNOWLEDGEMENTS** The editors and authors are grateful to Lu Ann Pacenka who formatted the text of the book The editors also wish to express their appreciation to Bill Clark and Nancy Dickson of Harvard University who commissioned and provided oversight for the preparation of the volume Both editors and authors wish to express their appreciation to the David and Lucile Packard Foundation for providing funds to support the project Finally the editors are grateful for the continuing support of the George Perkins Marsh Institute at Clark University Published with Science in Society

**Implementation of Environmental Treaties** United States. Congress. Senate. Committee on Environment and Public Works, 2003
