Advances in Physical Ergonomics and Human Factors: Part II Tareq

Ahram,Renliu Jang,2018-07-19 The discipline of human factors and ergonomics HF E is concerned with the design of products process services and work systems to assure their productive safe and satisfying use by people Physical ergonomics involves the design of working environments to fit human physical abilities By understanding the constraints and capabilities of the human body and mind we can design products services and environments that are effective reliable safe and comfortable for everyday use This book focuses on the advances in the physical HF E which are a critical aspect in the design of any human centered technological system The ideas and practical solutions described in the book are the outcome of dedicated research by academics and practitioners aiming to advance theory and practice in this dynamic and all encompassing discipline A thorough understanding of the physical characteristics of a wide range of people is essential in the development of consumer products and systems Human performance data serve as valuable information to designers and help ensure that the final products will fit the targeted population of end users Mastering physical ergonomics and safety engineering concepts is fundamental to the creation of products and systems that people are able to use avoidance of stresses and minimization of the risk for accidents

Contemporary Ergonomics 2003 Paul T. McCabe,2002-06-01

The broad and developing scope of ergonomics the application of scientific knowledge to improve people s interaction with

products systems and environments has been illustrated over the past 15 years by the books which make up the Contemporary Ergonomics series Presenting the proceedings of the Ergonomics Society s annual conference the series embraces the wide range of topics covered by ergonomics Individual papers provide insight into current practice present new research findings and form an invaluable reference source The volumes provide a fast track for the publication of suitable papers from international contributors These are chosen on the basis of abstracts submitted to a selection panel in the autumn prior to the Ergonomics Society s annual conference held in the spring
