How and Lady Why Charles Kingsley,2020-08-12 You find it dull walking up here upon Hartford Bridge Flat this sad November day Well I do not deny that the moor looks somewhat dreary though dull it need never be Though the fog is clinging to the fir trees and creeping among the heather till you cannot see as far as Minley Corner hardly as far as Bramshill woods and all the Berkshire hills are as invisible as if it was a dark midnight yet there is plenty to be seen here at our very feet Though there is nothing left for you to pick and all the flowers are dead and brown except here and there a poor half withered scrap of bottle heath and nothing left for you to catch either for the butterflies and insects are all dead too except one poor old Daddy long legs who sits upon that piece of turf boring a hole with her tail to lay her eggs in before the frost catches her and ends her like the rest though all things I say seem dead yet there is plenty of life around you at your feet I may almost say in the very stones on which you tread And though the place itself be dreary enough a sheet of flat heather and a little glen in it with banks of dead fern and a brown bog between them and a few fir trees struggling up yet if you only

have eyes to see it that little bit of glen is beautiful and wonderful so beautiful and so wonderful and so cunningly devised that it took thousands of years to make it and it is not I believe half finished yet Madame How and Lady Why; Or, First Lessons in Earth Lore for Children Anonymous, 2018-02-17 This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it This work was reproduced from the original artifact and remains as true to the original work as possible Therefore you will see the original copyright references library stamps as most of these works have been housed in our most important libraries around the world and other notations in the work This work is in the public domain in the United States of America and possibly other nations Within the United States you may freely copy and distribute this work as no entity individual or corporate has a copyright on the body of the work As a reproduction of a historical artifact this work may contain missing or blurred pages poor pictures errant marks etc Scholars believe and we concur that this work is important enough to be preserved reproduced and made generally available to the public We appreciate your support of the preservation process and thank you for being an important part of keeping this knowledge alive and relevant
