Bildungsroman The selected coming of age novels present further transformations of the female Bildungsroman The classic heroine of eighteenth and nineteenth century Bildung narratives reappears in twentieth century novels as a modern girl who experiences a significant rise of feminist consciousness In more recent works she becomes a postfeminist girl who questions victim feminism and tests the potential of girl power to subvert the patriarchal tradition Relating the postfeminist developments of the girl heroine to the influence of contemporary media culture the book explores whether these literary representations of girlhood incorporate antifeminist backlash messages It will be of interest to scholars and students in the fields of literary and girls studies particularly those who want to see new trends and issues in young adult fiction in the context of a literary tradition

The Mother in Psychoanalysis and Beyond Rosalind Mayo, Christina Moutsou, 2016-10-04 The question of what it means to be a mother is a very contentious topic in psychoanalysis and in wider society The Mother in Psychoanalysis and Beyond explores our relationship to the maternal through psychoanalysis philosophy art and political and gender studies Over two years a group of psychotherapists and members of the public met at the Philadelphia Association for a series of seminars on the Maternal In the discussions that followed a chasm opened up slowly and painfully between the idealised longings and fantasies we all share and the realities of maternal experiences here were met the great silences of love loss longing memories desire hatred and ambivalence This book is the result of this bringing together in conversation and reflections of what so often seems unsayable about the Mother It examines how issues of personal and gender identity are shaped by the ideals of separation from the mother the fears and anxiety of merging with the mother and how this has often led in psychoanalysis and society to holding mothers responsible for a variety of personal and social ills and problems in which maternal vulnerability is denied

and silenced There are two main themes running throughout the book *Matricide and Maternal Subjectivity* On the theme of matricide several contributors discuss the ways in which the discourse and narratives of the Mother have been silenced on a sociocultural level and within psychoanalysis and philosophy in favour of discourses that promote independence autonomy power and the avoidance and denial of our fundamental helplessness and vulnerability On the theme of maternal subjectivity several chapters look at the actual experience of mothering and or our relationship to our mother to highlight the ways in which the maternal is intimately connected with human subjectivity *The Mother in Psychoanalysis and Beyond* provides new and provocative thinking about the maternal and its place in various contemporary discourses It will appeal to psychoanalysts psychotherapists and psychologists of different schools scholars and advanced students of art gender studies politics and philosophy as well as anyone interested in maternity studies and the relationship between the maternal and human subjectivity

how Italian customs traditions social mores and cultural antecedents have wrought their influence on the American character Filled with insights observations and ethnic facts and fictions this volume should prove to be a valuable source of information for scholars researchers and students interested in pinpointing and examining the cultural intellectual and social influence of Italian immigrants and their successors *Through Us, with Us, in Us* Lisa Isherwood, Elaine Bellchambers, 2010 Relational theologies such as feminist theology ecotheology and liberation theologies of various kinds turn our traditional starting point for theology on its head They ask what it is that we experience This book aims to explore the concept of the emerging divine within human and non human relationality **The Universal Vampire** Barbara Brodman, James E. Doan, 2013-03-08 Since the publication of John Polidori's *The Vampyre* 1819 the vampire has been a mainstay of Western culture appearing consistently in literature art music notably opera film television graphic novels and popular culture in general Even before its entrance into the realm of arts and letters in the early nineteenth century the vampire was a feared creature of Eastern European folklore and legend rising from the grave at night to consume its living loved ones and neighbors often converting them at the same time into fellow vampires A major question exists within vampire scholarship to what extent is this creature a product of European cultural forms or is the vampire indeed a universal perhaps even archetypal figure In this collection of sixteen original essays the contributors shed light on this question One essay traces the origins of the legend to the early medieval Norse draugr an undead creature who reflects the underpinnings of *Dracula* the latter first appearing as a vampire in Anglo Irish Bram Stoker's 1897 novel *Dracula* In addition to these investigations of the Western mythic literary and historic traditions other essays in this volume move outside Europe to explore vampire figures in Native American and Mesoamerican myth and ritual as well as the existence of similar vampiric traditions in Japanese Russian and Latin American art theatre literature film and other cultural productions The female vampire looms large beginning with the Sumerian goddess Lilith including the nineteenth century *Carmilla* and moving to vampiresses in twentieth century film literature and television series Scientific explanations for vampires and werewolves constitute another section of the book including eighteenth century accounts of unearthing decapitation and cremation of suspected vampires in Eastern Europe The vampire's beauty attainment of immortality and eternal youth are all suggested as reasons for its continued success in contemporary popular culture *Feminism and Power* Mary Caputi, 2013-05-16 *Feminism and Power* the Need for Critical Theory is a six chapter manuscript which offers an important critique of power feminism The latter having produced such spinoffs as *girl power* *choice babe* *lipstick* and *stiletto* feminisms encourages women to be strong self sufficient feisty and independent While I have no argument with much of that tough minded ideal I ask whether this brave new girl doesn't too readily acquiesce in a neo liberal ideology whose underlying tenets derive from American rugged individualism At its worst this strain within Third Wave feminism contains no critique of capitalism no distance on neoliberal theory no effort to address the injustices contained in globalization's asymmetries and the industrialized North's exploitation of developing countries Feminism and

Power the Need for Critical Theory therefore argues that the critical theories of Theodor Adorno and Jacques Derrida have much to offer feminism and a feminist understanding of female empowerment Its pages rely on Adorno s assertion that it is only by allowing the sufferer to speak that we can unveil social truth rather than be duped by the bravado of victory culture Similarly it demonstrates how Derrida s insistence on the trace as well as the asymmetries of friendship and hospitality lead feminism away from the perils of contented triumphalism The book promotes listening as a paradigmatic feminist gesture rather than always speaking up and out

Sexism and Sin-Talk Rachel Sophia Baard,2020-01-01 Early feminist theologians criticized the Christian doctrine of sin for its focus on female sexual purity and its enabling of the marginalization and oppression of women Others have questioned whether the entire theological category of sin should be abandoned in favor of other ways of talking about the human predicament In this new book Rachel Baard argues for a feminist critique of traditional sin talk alongside a constructive reinterpretation of the doctrine of sinone that can be life affirming for all persons She claims that the Christian idea of sinthat tragic flaw at the core of human experienceprovides one of the best tools for understanding the evils of sexism patriarchy and traditional sin talk itself She likewise provides a new rhetoric of sin talk one that accounts for the diverse experiences of the human family not simply those of powerful men
