Through multicultural education, students can discover the ways they are shaped by their own culture as well as learn more about others. Multicultural education practices provide mutually beneficial dialogue between cultures, and the pedagogical practices increase learning outcomes for not just the ethnically and racially diverse but all students who are participatory in the content. This book provides educational stakeholders with culturally relevant and affirming techniques for utilizing multicultural literature as a pedagogical tool in social studies, mathematics, science, and reading. Each chapter provides a brief summary about the selected multicultural text and also contains an instructional strategy to be used.
