Romberg,Elizabeth Fennema,Thomas P. Carpenter,2012-10-12 This volume focuses on the important mathematical idea of functions that with the technology of computers and calculators can be dynamically represented in ways that have not been

possible previously The book's editors contend that as result of recent technological developments combined with the integrated knowledge available from research on teaching instruction students thinking and assessment curriculum developers researchers and teacher educators are faced with an unprecedented opportunity for making dramatic changes The book presents content considerations that occur when the mathematics of graphs and functions relate to curriculum It also examines content in a carefully considered integration of research that conveys where the field stands and where it might go Drawing heavily on their own work the chapter authors reconceptualize research in their specific areas so that this knowledge is integrated with the others strands This model for synthesizing research can serve as a paradigm for how research in mathematics education can and probably should proceed      *Wireless Hacking: Projects for Wi-Fi Enthusiasts*

Lee Barken, 2004-10-29 Sales of wireless LANs to home users and small businesses will soar this year with products using IEEE 802.11 Wi-Fi technology leading the way according to a report by Cahners research Worldwide consumers will buy 7.3 million wireless LAN nodes which include client and network hub devices up from about 4 million last year This third book in the HACKING series from Syngress is written by the SoCalFreeNet Wireless Users Group and will cover 802.11a b g Wi-Fi projects teaching these millions of Wi-Fi users how to mod and hack Wi-Fi access points network cards and antennas to run various Linux distributions and create robust Wi-Fi networks Cahners predicts that wireless LANs next year will gain on Ethernet as the most popular home network technology Consumers will hook up 10.9 million Ethernet nodes and 7.3 million wireless out of a total of 14.4 million home LAN nodes shipped This book will show Wi-Fi enthusiasts and consumers of Wi-Fi LANs who want to modify their Wi-Fi hardware how to build and deploy homebrew Wi-Fi networks both large and small Wireless LANs next year will gain on Ethernet as the most popular home network technology Consumers will hook up 10.9 million Ethernet nodes and 7.3 million wireless clients out of a total of 14.4 million home LAN nodes shipped This book will use a series of detailed inter-related projects to teach readers how to modify their Wi-Fi hardware to increase power and performance to match that of far more expensive enterprise networking products Also features hacks to allow mobile laptop users to actively seek wireless connections everywhere they go The authors are all members of the San Diego Wireless Users Group which is famous for building some of the most innovative and powerful home brew Wi-Fi networks in the world

*Assessing Middle and High School Mathematics & Science* Sheryn Spencer-Waterman, 2013-08-16 For middle and high school teachers of mathematics and science this book is filled with examples of instructional strategies that address students readiness levels interests and learning preferences It shows teachers how to formatively assess their students by addressing differentiated learning targets Included are detailed examples of differentiated formative assessment schedules plus tips on how to collaborate with others to improve assessment processes Teachers will learn how to adjust instruction for the whole class for small groups and for individuals They will also uncover step by step procedures for creating their own lessons infused with opportunities to formatively assess students who participate in differentiated learning activities      *American*
