Greed Lust And Gender A History Of Economic Ideas:

Greed, Lust & Gender Nancy Folbre, 2023 This book dramatizes the history of self interest by describing a centuries long debate over greed lust and appropriate gender roles Ranging from the 18th century to the present it offers a deft and engaging critique of economic history and the history of ideas from a feminist perspective Greed, Lust and Gender Nancy Folbre, 2009-10-22 This book dramatizes the history of self interest by describing a centuries long debate over greed lust and appropriate gender roles in terms that ordinary readers will enjoy Ranging from the 18th century to the present it offers a deft and engaging critique of economic history and the history of ideas from a feminist perspective **A History of Feminist and Gender Economics** Giandomenica Becchio, 2019-10-30 This book offers a historical exploration of the genesis of feminist economics and gender economics as well as their theoretical and methodological differences Its narrative also serves to embed both within a broader cultural context Although both feminist economics and gender neoclassical economics belong to the cultural process related to the central role of the political economy in promoting women s emancipation and empowerment they differ in many aspects Feminist economics mainly influenced by women s studies and feminism rejected neoclassical economics while gender neoclassical economics mainly influenced by home economics and the new home economics adopted the neoclassical economics approach to gender issues The book includes diverse case studies which also highlight the continuity between the story of women s emancipation and the more recent developments of feminist and gender studies This volume will be of great interest to researchers and academia in the fields of feminist economics gender studies and the history of economic thought **Research in the History of Economic Thought and Methodology** Luca Fiorito, Scott Scheall, Carlos Eduardo Suprinyak, Rebeca Gomez Betancourt, 2024-02-09 Research in the History of Economic Thought and Methodology RHETM is a book series dedicated to an interdisciplinary approach to a broad range of topics related to the history and methodology of economics **Capitalism's Sexual History** Nicola Jo-Anne Smith, 2020 As ongoing controversies over commercial sex attest the relationship between capitalism and sexuality is deeply contentious Economic and sexual practices are assumed to be not only separable but antithetical hence why paid sex is so often criminalized and morally condemned Yet while sexuality is highly politicized in moral terms it has largely been overlooked in the discipline devoted to the study of global capitalism international political economy IPE Likewise the prevailing field in sexuality studies queer theory has frequently sidelined questions of political economy This book calls for critical scholarship to challenge the economy sexuality dichotomy as it not only structures disciplinary debates but is part and parcel of capitalism itself Capitalism s Sexual History brings IPE and queer theory into close dialogue to explore how the division between economy and sexuality has been historically produced to appear both natural and moral By examining sex work in Britain Nicola J Smith draws on in depth archival research to chart a history of capitalism s sexual relations from medieval times to the present day She shows how capitalist development was made possible by the appropriation of unpaid sexual

labor that relied in turn on the repression and production of paid sex By tracing the historical construction of boundaries around sex and work this book exposes how capitalism has long profited from the notion that the sexual and economic spheres can and must be kept apart In so doing it offers a distinctive contribution to the study of sex and work as well as to wider scholarly activist and policy debates about political economy reproductive labor gender equality and sexual justice

History of Economic Thought Newsletter ,2009 *Gender and Hindu Nationalism* Prem Kumar Vijayan,2019-08-23 This book presents an innovative approach to gender nationalism and the relations between them and analyses the broader social base of Hindu nationalist organisation to understand the growth of Hindutva or Hindu nationalism in India Arguing that Hindu nationalist thought and predilections emerge out of and in turn feed pre existing gendered tendencies the author presents the new concept of masculine hegemony specifically Brahmanical masculine hegemony The book offers a historical overview of the processes that converge in the making of the identity Hindu in the making of the religion Hinduism and in the shaping of the movement known as Hindutva The impact of colonialism social reform and caste movements is explored as is the role of key figures such as Mohandas Gandhi Indira Gandhi and Narendra Modi The book sheds light on the close yet uneasy relations that Hindu nationalist thought and practice have with conceptions of modernity development and women s movements and politics and the future of Hindu nationalism in India A new approach to the study of Hindu nationalism this book offers a theoretically innovative understanding of Indian history and socio politics It will be of interest to academics working in the field of Gender studies and Asian Studies in particular South Asian history and politics **For Love or**

Money Nancy Folbre,2012-09-06 As women moved into the formal labor force in large numbers over the last forty years care work traditionally provided primarily by women has increasingly shifted from the family arena to the market Child care elder care care for the disabled and home care now account for a growing segment of low wage work in the United States and demand for such work will only increase as the baby boom generation ages But the expanding market provision of care has created new economic anxieties and raised pointed questions Why do women continue to do most care work both paid and unpaid Why does care work remain low paid when the quality of care is so highly valued How effective and equitable are public policies toward dependents in the United States In *For Love and Money* an interdisciplinary team of experts explores the theoretical dilemmas of care provision and provides an unprecedented empirical overview of the looming problems for the care sector in the United States Drawing on diverse disciplines and areas of expertise *For Love and Money* develops an innovative framework to analyze existing care policies and suggest potential directions for care policy and future research Contributors Paula England Nancy Folbre and Carrie Leana explore the range of motivations for caregiving such as familial responsibility or limited job prospects and why both love and money can be efficient motivators They also examine why women tend to specialize in the provision of care citing factors like job discrimination social pressure or the personal motivation to provide care reported by many women Suzanne Bianchi Nancy Folbre and Douglas Wolf estimate how much

unpaid care is being provided in the United States and show that low income families rely more on unpaid family members for their child and for elder care than do affluent families With low wages and little savings these families often find it difficult to provide care and earn enough money to stay afloat Candace Howes Carrie Leana and Kristin Smith investigate the dynamics within the paid care sector and find problematic wages and working conditions including high turnover inadequate training and a pay penalty for workers who enter care jobs These conditions have consequences poor job quality in child care and adult care also leads to poor care quality In their chapters Janet Gornick Candace Howes and Laura Braslow provide a systematic inventory of public policies that directly shape the provision of care for children or for adults who need personal assistance such as family leave child care tax credits and Medicaid funded long term care They conclude that income and variations in states policies are the greatest factors determining how well and for whom the current system works Despite the demand for care work very little public policy attention has been devoted to it Only three states for example have enacted paid family leave programs Paid or unpaid care costs those who provide it At the heart of *For Love and Money* is the understanding that the quality of care work in the United States matters not only for those who receive care but also for society at large which benefits from the nurturance and maintenance of human capabilities As care work gravitates from the family to the formal economy this volume clarifies the pressing need for America to fundamentally rethink its care policies and increase public investment in this increasingly crucial sector

Deficit Emma Holten, 2025-03-06 AN INTERNATIONAL BESTSELLER WINNER OF THE POLITIKEN LITERATURE PRIZE 2024 Brilliantly rewrites the history of economic thought to place her story at its heart A must read Kate Raworth author of *DOUGHNUT ECONOMICS* One of the most important feminist voices of the 21st century The book about capitalism we didn't know we needed Sofie Hagen In 2020 the prominent Danish feminist Emma Holten read an article stating that women were a net deficit to society Women took more than they gave draining the public purse by giving birth and taking parental leave They contributed less than their fair share in taxes because they often worked part time to look after other people at home or held low paid jobs in the public sector Denmark would be richer if women's lives looked more like men's the economic experts concluded A similar story is told around the globe How did we get here In *Deficit* Emma Holten traces how economic thinkers from the Enlightenment onwards created a value framework that overlooked and neglected women's work and acts of care She reveals how the economic models that drive political decisions today are just as flawed giving us unparalleled monetary wealth but causing deep social harms that are hurting us all If we cannot properly value the things that matter how can we build a better future

The Oxford Handbook of Feminist Theory Lisa Disch, Mary Hawkesworth, 2018-02-01 The Oxford Handbook of Feminist Theory provides a rich overview of the analytical frameworks and theoretical concepts that feminist theorists have developed to explicate the known world Featuring leading feminist theorists from diverse regions of the globe this collection delves into fifty subject areas demonstrating the complexity of feminist challenges to established knowledge while also engaging areas of

contestation within feminist theory Economics and the Left C.J. Polychroniou, 2022-03-08 Twenty four economists discuss how they promote egalitarianism democracy and ecological sanity through research activism and policy engagement Economics and the Left presents interviews with twenty four leading progressive economists All of these practitioners of the dismal science are dedicated to both interpreting the world and changing it for the better The result is a combustible brew of ideas and reflections on major historical events including the Covid 19 pandemic and its impact on the global economy Interviewed are Michael Ash Nelson Henrique Barbosa Filho James K Boyce Ha Joon Chang Jane D Arista Diane Elson Gerald Epstein Nancy Folbre James K Galbraith Teresa Ghilarducci Jayati Ghosh Ilene Grabel Costas Lapavistas Zhongjin Li William Milberg L once Ndikumana Ozlem Onaran Robert Pollin Malcolm Sawyer Juliet Schor Anwar Shaikh William Spriggs Fiona Tregenna and Thomas Weisskopf The Century of Women Maria Bucur, 2018-04-05 This innovative text explores the unprecedented changes in the realms of politics demography economics culture knowledge and kinship that women have brought about in the twentieth and twenty first centuries Global in reach the book provides a comparative analysis of developments worldwide to show both progress as well as new tensions and forms of inequality that have emerged out of women s entry into politics wage employment education and the production of culture Beginning with suffrage and moving to participation in international movements such as anti war labor and environmental rights activism Maria Bucur explores how women have transformed the operation of states and international institutions She focuses on the radical demographic shifts since 1900 through the prism of changing practices in women s sexuality from birth control practices to education Examining the continuing economic gender gap around the world Bucur highlights ways women have been both beneficiaries of new economic opportunities and participants in developing new forms of inequality Considering the remarkable achievements of women in the areas of knowledge making and cultural production the author shifts her gaze toward the future and what these changes mean in terms of gender norms and evolving kinship relations She thus presents a new perspective on contemporary world history centered on how women have become both the subjects and objects of seismic shifts in the political social and economic structures of societies across the globe **The Routledge Handbook of Heterodox Economics** Tae-Hee Jo, Lynne Chester, Carlo D'Ippoliti, 2017-07-28 The Routledge Handbook of Heterodox Economics presents a comprehensive overview of the latest work on economic theory and policy from a pluralistic heterodox perspective Contributions throughout the Handbook explore different theoretical perspectives including Marxian radical political economics Post Keynesian Sraffian economics institutionalist evolutionary economics feminist economics social economics Regulation theory the Social Structure of Accumulation approach and ecological economics They explain the structural properties and dynamics of capitalism as well as propose economic and social policies for the benefit of the majority of the population This book aims firstly to provide realistic and coherent theoretical frameworks to understand the capitalist economy in a constructive and forward looking manner Secondly it delineates the future directions as well as the current

state of heterodox economics and then provides both heat and light on controversial issues drawing out the commonalities and differences among different heterodox economic approaches The volume also envisions transformative economic and social policies for the majority of the population and explains why economics is and should be treated as a social science This Handbook will be of compelling interest to those including students who wish to learn about alternative economic theories and policies that are rarely found in conventional economics textbooks or discussed in the mainstream media and to critical economists and other social scientists who are concerned with analyzing pressing socio economic issues

What is Work? Raffaella Sarti, Anna Bellavitis, Manuela Martini, 2018-09-21 Every society throughout history has defined what counts as work and what doesn't And more often than not those lines of demarcation are inextricable from considerations of gender What Is Work offers a multi disciplinary approach to understanding labor within the highly gendered realm of household economies Drawing from scholarship on gender history economic sociology family history civil law and feminist economics these essays explore the changing and often contested boundaries between what was and is considered work in different Euro American contexts over several centuries with an eye to the ambiguities and biases that have shaped mainstream conceptions of work across all social sectors

The Adam Smith Review Volume 7 Fonna Forman, 2013-11-07 Adam Smith's contribution to economics is well recognised but in recent years scholars have been exploring anew the multidisciplinary nature of his works The Adam Smith Review is a refereed annual review that provides a unique forum for interdisciplinary debate on all aspects of Adam Smith's works his place in history and the significance of his writings to the modern world It is aimed at facilitating debate between scholars working across the humanities and social sciences thus emulating the reach of the Enlightenment world which Smith helped to shape The seventh volume of the series contains contributions from specialists across a range of disciplines including Christopher Berry Maureen Harkin Edith Kuiper N B Leddy Catriona Seth Henry C Clarke Deidre Dawson Dionysios Drosos Ioannis A Tassopoulos Jeremy Jennings Ryan Patrick Hanley Fotini Vaki Spiros Tegos Nicholas J Theocarakis Chandran Kukathas Donald Winch Fonna Forman Craig Smith Nicholas Phillipson Chad Flanders Emily Nacol Andrea Radasanu Rachel Zuckert Michael L Fraser Ian S Ross Daniel B Klein Douglas J Den Uyl James A Harris Geoffrey Kellow Paul Dumouchel Jan Horst Keppler Paul Oslington Adrian Walsh Spencer J Pack and Dennis C Rasmussen Topics examined include Smith and Women Adam Smith in Greece Nicholas Phillipson's Adam Smith An Enlightened Life Michael L Fraser's The Enlightenment of Sympathy Justice and the Moral Sentiments in the Eighteenth Century and Today

Varieties of Alternative Economic Systems Richard Westra, Robert Albritton, Seongjin Jeong, 2017-07-14 In this age of overlapping and mutually reinforcing deep global crises financial convulsions global warming mass migrations militarism inequality selfish nation states etc there needs to be more realistic dialogue about radical alternatives to the status quo Most literature produced heretofore has focused on the surface causes of these crises without much attention given to the sorts of major societal changes needed in order to deal with the crises we face This book moves the debate beyond the critiques and

the false or not fully realised alternatives to focus on what can be termed practical utopias The contributors to this book outline a range of practical proposals for constructing pathways out of the global economic ecological and social crisis

Varieties of Alternative Economic Systems eschews a single blueprint but insists on dealing directly with the deep structural problems and contradictions of contemporary global capitalism It provides a diverse array of complementary proposals and perspectives that can inform both theoretical thinking and practical action This volume will be of interest to academics and students who study political science ecological economics international politics and socialism

The Oxford Handbook of the Sociology of Finance Karin Knorr Cetina,Alex Preda,2012-11-29 The Handbook brings together leading international scholars to provide a comprehensive overview of research and theory on the sociology of finance and the workings of financial institutions and financial markets It will serve as a reference point for this rapidly expanding discipline

The Rise and Decline of Patriarchal Systems Nancy Folbre,2021-02-16 Why do patriarchal systems survive In this groundbreaking work of feminist theory Nancy Folbre examines the contradictory effects of capitalist development She explains why the work of caring for others is under valued and under rewarded in today s global economy calling attention to the organisation of childrearing the care of other dependants and the inheritance of assets Upending conventional definitions of the economy based only on the market Folbre emphasizes the production of human capabilities in families and communities and the social reproduction of group solidarities Highlighting the complexity of hierarchical systems and their implications for political coalitions The Rise and Decline of Patriarchal Systems sets a new feminist agenda for the twenty first century

Radical Political Economics Mona Ali,Ann E. Davis,2024-12-13 This collection of essays engages in the analysis of key concepts concerns and cutting edge insights in radical political economy Offering a robust critique of capitalist institutions as well as of mainstream economics radical political economics reveals the structures and dynamics of global capitalism The attention to method ideology and institutions differentiates it from mainstream approaches to economics which often obfuscate how capitalism actually works While maintaining a central focus on capitalism the analyses in this book encompass a variety of issues from racial discrimination gender inequality to economic development and imperialism Capitalism is an economic system based on the exploitation of workers to generate surplus value profit which is then appropriated by the owners of capital Under global capitalism profit maximization precedes other social concerns such as protection of the environment Political economy understands that social relations are shaped by class race geography and gender Capitalism skews social relations of production and reproduction It perpetuates inequalities along classed gendered racialized and geographic lines Radical political economy offers ideas and policies to change capitalism in ways that are more beneficial for people and the planet Incorporating insights from a range of disciplines including history philosophy political science anthropology sociology and law the wide range of topics diverse set of scholars and consideration of future political economy formations offers readers a deeper understanding of the contours of contemporary global capitalism and post

capitalist possibilities in the twenty first century Capitalism on Trial Jeannette Wicks-Lim, Robert Pollin, 2013-01-01 This volume presents a collection of essays honoring Professor Thomas E Weisskopf one of the most prominent contributors to the field of radical economics Beginning his academic career at Harvard before moving to the University of Michigan at Ann Arbor Professor Weisskopf has spent the past forty years exploring through highly innovative and rigorous research the questions of economic equality social justice and environmental responsibility The chapters in this book reflect the main subjects of Professor Weisskopf s work and seek to foster continued innovation in these research areas The diverse contributions to this volume explore the impressive range of Professor Weisskopf s research themes These include the economics of developing countries US imperialism Marxian crisis theory contemporary economic history and institutional development affirmative action policies and the potential of socialism as an alternative to capitalism for developing non exploitative societies In addition to 26 chapters by leading economists this book also includes a chapter by Professor Weisskopf himself in which he reflects on his own career in economics as well as the state of the U S and global economies The volume also includes a full bibliography listing Professor Weisskopf s publications Students professors and researchers working in any branch of economics will find much of interest in this set of wide ranging studies building from the themes advanced by Thomas Weisskopf
