Greek Gems And Finger Rings Early Bronze To Late Classical:

Greek Gems and Finger Rings John Boardman, 1970 The miniaturist art of gem engraving is the least familiar of the major arts of ancient Greece yet we know it to have been practiced by the greatest artists This book presents a comprehensive account of the art in Greek lands from the early Bronze Age down to the Hellenistic period The gems are related to history and to the artistic achievements in other media of their day and the subject matter of the scenes engraved upon them is examined and found to hold much that will be new to students of Greek myth and iconography The development of the Bronze Age studios in the Minoan and Mycenaean world is discussed and the works of the great period of Classical gem engraving are resolved into their styles and schools with a special chapter devoted to Greek works within the Persian Empire *Greek Gems and Finger Rings* John Boardman, 1970 **Greek Gems and Fingerrings**, 2001 Engraved Gems and Propaganda in the Roman Republic and under Augustus Paweł Gołyźniak, 2020-05-14 This book studies small but highly captivating artworks from antiquity engraved gemstones These objects had multiple applications and the images upon them captured snapshots of people's beliefs ideologies and everyday occupations They provide a unique perspective on the propaganda of Roman political leaders especially Octavian Augustus The World of Juba II and Kleopatra Selene Duane W Roller, 2004-02-24 First Published in 2004 Routledge is an imprint of Taylor Francis an informa company **Die Fragmente Der Griechischen Historiker, Continued** Felix Jacoby, Jan Bollansée, Guido Schepens, 1998 *Interactions between Animals and Humans in Graeco-Roman Antiquity* Thorsten Fögen, Edmund V. Thomas, 2017-08-21 The seventeen contributions to this volume written by leading experts show that animals and humans in Graeco Roman antiquity are interconnected on a variety of different levels and that their encounters and interactions often result from their belonging to the same structures networks and communities or at least from finding themselves together in a certain setting context or environment wittingly or unwittingly Papers explore the concrete categories of interaction between animals and humans that can be identified in what contexts they occur and what types of evidence can be productively used to examine the concept of interactions Articles in this volume take into account literary visual and other types of evidence A comprehensive research bibliography is also provided **Wilderness in Mythology and Religion** Laura Feldt, 2012-10-01 Wilderness is one of the most abiding creations in the history of religions It has a long and seminal history and is of contemporary relevance in wildlife preservation and climate discourses Yet it has not previously been subject to scrutiny or theorising from a cross cultural study of religions perspective What are the specific relations between the world's religions and imagined and real wilderness areas The wilderness is often understood as a domain void of humans opposed to civilization but the analyses in this book complicate and question the dualism of previous theoretical grids and offer new perspectives on the interesting multiplicity of the wilderness and religion nexus This book thus addresses the need for cross cultural anthropological and history of religions analyses by offering in depth case studies of the use and functions of wilderness spaces in a diverse range

M. Dussinberre, 2003-04-10 Elspeth R M Dussinberre proposes a fresh approach to understanding the Achaemenid Empire based on her study of the regional capital Sardis This study uses archaeological artistic and textual sources to demonstrate that the two hundred year Persian presence in this city had a profound impact on local social structures revealing the region's successful absorption both ideological and physical into the Persian Empire During this period Sardis was a centre of burgeoning creativity and vitality where a polyethnic elite devised a fresh culture inspired by Iranian Greek and local Lydian traditions that drew on and legitimated imperial ideology The non elite absorbed

and adapted multiple aspects of this culture to create a wholly different profile of what it meant to be Sardinian As well as successfully bringing together information on the Achaemenids this book is also an excellent contribution to empire studies

The Harvest of War Stephen P. Kershaw, 2022-10-04 The year 2022 marks 2 500 years since Athens the birthplace of democracy fought off the mighty Persian Empire This is the story of the three epic battles Marathon Thermopylae and Salamis that saved democracy forever altering the history of Europe and the West In 2022 it will be 2 500 years since the final defeat of the invasion of Greece by Xerxes the Persian king This astonishing clash between East and West still has resonances in modern history and has left us with tales of heroic resistance in the face of seemingly hopeless odds The Harvest of War makes use of recent archaeological and geological discoveries in this thrilling and timely retelling of the story originally told by Herodotus the Father of History In 499 BC when the rich sophisticated Greek communities of Ionia on the western coast of modern Turkey rebel from their Persian overlord Darius I Athens sends ships to help them Darius crushes the Greeks in a huge sea battle near Miletus and then invades Greece Standing alone against the powerful Persian army the soldiers of Athens newly democratic state a system which they have invented unexpectedly repel Darius's forces on the plains of Marathon After their victory the Athenians strike a rich vein of silver in their state owned mining district and decide to spend the windfall on building a fleet of state of the art warships Persia wants revenge The next Persian king Xerxes assembles a vast multinational force constructs a bridge of boats across the Hellespont digs a canal through the Mount Athos peninsula and bears down on Greece Trusting in their wooden walls the Athenians station their ships at Artemisium where they and the weather prevent the Persians landing forces in the rear of the land forces under the Spartan King Leonidas at the nearby pass of Thermopylae Xerxes's assault is a disastrous failure until a traitor shows him a mountain track that leads behind the Greeks Leonidas dismisses the Greek troops but remains in the pass with his 300 Spartan warriors where they are overwhelmed in an heroic last stand Athens is sacked by the Persians Democracy is hanging by a thread But the Athenians convince the Greek allies to fight on in the narrow waters by the island of Salamis Despite the heroism of the Persian female commander Artemisia the Persian fleet is destroyed The Harvest of War concludes by exploring the ideas that the decisive battles of Marathon Thermopylae and Salamis mark the beginnings of Western civilization itself and that Greece became the bulwark of the West representing the values of peace freedom and

democracy in a region historically ravaged by instability and war 2001 Massimo Mastrogregori,2011-08-02 Annually published since 1930 the International bibliography of Historical Sciences IBOHS is an international bibliography of the most important historical monographs and periodical articles published throughout the world which deal with history from the earliest to the most recent times The works are arranged systematically according to period region or historical discipline and within this classification alphabetically The bibliography contains a geographical index and indexes of persons and authors
