Green Industrial Policy In Emerging Countries

Kathryn Hochstetler

Green Industrial Policy In Emerging Countries:

Green Industrial Policy in Emerging Countries Anna Pegels, 2014-03-05 For decades governments have tried to foster industrial competitiveness and economic growth Many instruments are known to work and many lessons have been learned However humanity is increasingly feeling the effects of natural resource depletion The rate of this depletion is deeply unsustainable and it is as of yet inextricably linked to economic growth and development To preserve acceptable living conditions for future generations while at the same time creating these conditions for millions of poor in the first place we must achieve a de linking of economic activity and resource depletion This book identifies the drivers and success factors of green industrial policy which seeks to reconcile the synergies and trade offs which exist between economic and environmental goals Greening the economy is a goal which will require enormous investment As markets are currently failing to provide the required incentives for environmental sustainability governments must intervene and provide policy rents for investments in sustainability while withdrawing rents from polluting investments In this they will face the risk of political capture by interest groups and difficult choices among technologies Rent management is therefore the heart of green industrial policy and the focus of this book On top of this the country examples provided in this volume focus on the emerging powers which will have an important influence the future of our planet However the lessons learned are valuable not only for countries introducing green industrial policies for the first time but also for those under pressure to reform existing policies This book will be of interest to students researchers and policymakers in the areas of energy policy sustainable development industrial economics and ecological economics

Green Industrial Policy in Emerging Countries Anna Pegels, 2014-03-05 For decades governments have tried to foster industrial competitiveness and economic growth Many instruments are known to work and many lessons have been learned However humanity is increasingly feeling the effects of natural resource depletion The rate of this depletion is deeply unsustainable and it is as of yet inextricably linked to economic growth and development To preserve acceptable living conditions for future generations while at the same time creating these conditions for millions of poor in the first place we must achieve a de linking of economic activity and resource depletion This book identifies the drivers and success factors of green industrial policy which seeks to reconcile the synergies and trade offs which exist between economic and environmental goals Greening the economy is a goal which will require enormous investment As markets are currently failing to provide the required incentives for environmental sustainability governments must intervene and provide policy rents for investments in sustainability while withdrawing rents from polluting investments In this they will face the risk of political capture by interest groups and difficult choices among technologies Rent management is therefore the heart of green industrial policy and the focus of this book On top of this the country examples provided in this volume focus on the emerging powers which will have an important influence the future of our planet However the lessons learned are valuable not only for countries introducing green industrial policies for the first time

but also for those under pressure to reform existing policies This book will be of interest to students researchers and policymakers in the areas of energy policy sustainable development industrial economics and ecological economics

Industrial Policy in Developing Countries Tilman Altenburg,Wilfried Lütkenhorst,2015-09-25 Against the backdrop of persistently high levels of poverty and inequality critical environmental boundaries and increasing global economic interdependence this book addresses the role and impact of industrial policies in developing countries Accepting the reality of both market failure and policy failure it identifies the conditions under which industrial policy can deliver socially desirable results General conclusions on the political economy of development are complemented by country case studies covering Ethiopia Mozambique Namibia Tunisia and Vietnam Political Economies of Energy Transition Kathryn

Hochstetler,2020-11-26 Shows that economic concerns about jobs costs and consumption rather than climate change are likely to drive energy transition in developing countries *The Challenges of Technology and Economic Catch-Up in*

Emerging Economies Chông-dong Yi,Keun Lee,Dirk Meissner,Slavo Radosevic,Nicholas S. Vonortas,2021 Innovation and technological capability are pivotal driving forces behind economic growth This book synthesizes existing knowledge on technology upgrading failures to better understand the challenges of technology upgrading in emerging economies in an increasingly complex and connected world *Regulation and Investments in Energy Markets* Alessandro Rubino,Ilhan

Öztürk,Veronica Lenzi,Maria Teresa Costa Campi,2015-12-02 Regulation Investments in Energy Markets Solutions for the Mediterranean presents the status of advancement and maturity of the Mediterranean energy policy identifying patterns of development as well as lessons learned Mediterranean countries are facing unprecedented challenges in the energy sector which affect the entire region Energy policy and regulation is the key to tackling energy efficiency challenges and providing favorable conditions for engineering infrastructures investments and improving security of energy supply The assumption that the normative model on which the EC energy policy is based could be adopted outside EU boundaries has proven to be difficult to implement This book looks at the Mediterranean regions search for a revised model for regulatory convergence and provides answers to those research questions allowing the reader to understand the different technical institutional and financial frameworks for energy policy Contains a detailed overview of the specificities and institutional frameworks giving greater clarity on existing energy practice Provides recommendations and contributions from leading scholars and key players in energy policy research Presents information from a region wide interdisciplinary approach based on specific industry information **Industry 4.0** Elena B. Zavyalova,Elena G. Popkova,2021-08-09 This book reflects the futuristic

scientific view of the consequences of transition to Industry 4 0 for climate change The authors present a systemic overview of the current negative consequences of digitization for the environment new outlines of the energy sphere in Industry 4 0 and the change of the environment pollution level in Industry 4 0 The book also analyses the ecological consequences of growth and development of Industry 4 0 and considers Industry 4 0 as an alternative to fighting climate change The book

presents a view on fighting climate change in Industry 4.0 from the positions of shifting the global community's attention from environment protection to formation of the digital economy. A logical continuation of this book is a view from the opposite side which would allow reflecting the contribution of Industry 4.0 into fighting climate change and the perspectives of harmonization of these top priority directions of the global economy's development. This book will be of interest to academics and practitioners interested in climate change and development of Industry 4.0 as well contributing to a national economic policy for fighting climate change and corporate strategies of sustainable development in Industry 4.0

Greening Industrialization in Sub-Saharan Africa Ralph Luken, Edward Clarence-Smith, 2020-04-21 This book explores the concept of greening industrialisation and issues and considerations surrounding it through the lens of Sub-Saharan Africa. The book critically examines the concept of greening industrialisation and describes the progress and data challenges of monitoring the Sustainable Development Goals confronting African countries. The chapters summarise the policy and programme literature focused on eight policy regimes essential for greening industrialisation and identify opportunities for greening industrial policies. The authors lay out a research agenda that would inform enable and support greening industrialisation in Sub-Saharan Africa and provide an overview of green industrial plans that include climate strategies, energy efficiency strategies and green industry assessments. This book will be of great interest to students, scholars, policy makers and planners in the fields of Sub-Saharan African development and African environmentalism

Decarbonizing Development Marianne Fay, Stephane Hallegatte, Adrien Vogt-Schilb, Julie Rozenberg, Ulf Narloch, Tom Kerr, 2015-06-09 The science is unequivocal: stabilizing climate change implies bringing net carbon emissions to zero. This must be done by 2100 if we are to keep climate change anywhere near the 2°C warming that world leaders have set as the maximum acceptable limit. *Decarbonizing Development: Three Steps to a Zero Carbon Future* looks at what it would take to decarbonize the world economy by 2100 in a way that is compatible with countries' broader development goals. Here is what needs to be done: Act early with an eye on the end goal. To best achieve a given reduction in emissions in 2030 depends on whether this is the final target or a step towards zero net emissions. Go beyond prices with a policy package that triggers changes in investment patterns, technologies and behaviors. Carbon pricing is necessary for an efficient transition toward decarbonization. It is an efficient way to raise revenue which can be used to support poverty reduction or reduce other taxes. Policymakers need to adopt measures that trigger the required changes in investment patterns, behaviors and technologies and if carbon pricing is temporarily impossible use these measures as a substitute. Mind the political economy and smooth the transition for those who stand to be most affected. Reforms live or die based on the political economy. A climate policy package must be attractive to a majority of voters and avoid impacts that appear unfair or are concentrated on a region, sector or community. Reforms have to smooth the transition for those who stand to be affected by protecting vulnerable people but also sometimes compensating powerful lobbies

Global Challenges, Governance, and Complexity Victor Galaz, 2019-12-27 There is an increased interest in

integrating insights from the complexity sciences to studies of governance and policy While the issue has been debated and the term of complexity has multiple and sometimes contested interpretations it is also clear the field has spurred a number of interesting theoretical and empirical efforts The book includes key thinkers in the field elaborates on different analytical approaches in studying governance institutions and policy in the face of complexity and showcases empirical applications and insights

The Quality of Growth in Africa Akbar Noman, Joseph E. Stiglitz, Ravi Kanbur, 2019-08-20 In recent years concerns about the outcomes and nature of economic growth have given way to a new emphasis on its quality This volume brings together prominent international contributors to consider a range of interrelated questions concerning the quality of growth in Africa with a primary focus on sub Saharan countries Contributors discuss the measurement of growth the transformations necessary to sustain it and issues around equity and well being They consider topics such as the distribution of income gains from growth the extent to which economic growth has resulted in improvements in employment poverty and security structural transformations of the economy and diversification of the sources of growth environmental sustainability and management of urbanization Offering both diagnoses and prescriptions The Quality of Growth in Africa helps envision a future that goes beyond increasing GDP to ensuring that growth translates into advancements in well being Although the book focuses on sub Saharan Africa much of the contributors incisive analysis has implications for countries outside the region

Development Co-operation Report 2024 Tackling Poverty and Inequalities through the Green Transition OECD, 2024-07-17 Faced with multiple priorities including the imperative of accelerating the global green transition development co operation providers are at risk of losing sight of a silent yet devastating crisis that has been unfolding even before the COVID 19 pandemic the alarming increase of poverty and inequalities in low and middle income countries And yet not only are ending poverty and reducing inequalities at the core of their mandates both are also essential to meeting their broader ambitions in terms of sustainable development worldwide What opportunities and risks is the climate priority posing for the fight against poverty and inequality Can just green transitions reinvigorate development agendas How can international development co operation policy and finance help Bringing together the latest evidence data and insights from governments academia international organisations and civil society the OECD Development Co operation Report 2024 provides policy makers with concrete ways of delivering on their commitments to improve the lives of billions while fostering green just transitions around the world

Social and Economic Perspectives on Sustainability Raya Tsvetkova, Savina Ezekieva, Caroline Duvier, Crina Oltean-Dumbrava, Dilek Akbaş Akdoğan, Coşkun Karaca, Övünç Gürsoy, Semra F. Aşçıgil, Uğur Soytaş, Meltem Ö. Özcanlı, Sadullah Çelik, Aslı Yüksel Mermod, Ayşe Demirhan, Serdar Bozkurt, Burcu Yiğit, Mehmet Çağlar, Solomon Chukwuemeka Ugbajaa, Refika Bakoğlu, Neşe Soysal, Ahmet Ok, Merve Er Kara, Özlem Yurtsever, Seniye Ümit Oktay Fırat, Ayşe Ümit Gökdeniz, Ayşe Uygur, Recep Kurt, Artür Yetvart Mumcu, Ozan Emre Ufacık, 2016-12-20 e term Sustainability possesses numerous meanings for different people and various circumstances and it is a common mistake to

define sustainability strictly in terms of environmental sustainability is misconception believes the major flaw of the contemporary pattern of development is simply its destruction of the environment Handling sustainability only from an environmental standpoint is a superficial view that needs to be assessed carefully and underlined correctly As A D Basiago suggests the protection of natural systems represents not an overarching panacea for achieving economic vitality and social justice but a necessary component of an entire system for achieving economic social and environmental sustainability in which economic reforms and social reforms are as important e chapters included in this volume are composed of some selected significant contributions from the first International Sustainability Congress organized by International Center of Sustainability ICS 13 December 2016 in Istanbul Turkey All chapters are peer reviewed by both the editors and at least two independent scholars from fields relevant to the manuscript s subject area ICS is a research and academic center for sustainability founded in 2015 and dedicated to build resilience of communities and ecosystems to environmental and socio economic risks ICS has an integrated approach and specifies sustainability not only from an environmental point of view but also in terms of socio economic process Its mission is to produce information as well as enhance research and practice at Micro and Macro levels in Sustainable Development with a holistic and a cross disciplinary approach **Workforce**

Development in Emerging Economies Jee-Peng Tan, Kiong Hock Lee, Ryan Flynn, Viviana V. Roseth, Yoo-Jeung Joy Nam, 2016-07-06 Investing in skills has risen to the top of the policy agenda today in rich and poor countries alike The World Bank supports its partner countries on this agenda in multiple ways development finance research and analysis global knowledge exchange and technical assistance This report was originally conceived as a contribution to this catalog of the World Bank s work but its topic and findings are relevant to all policy makers and analysts interested in skills building to drive economic growth and improve human well being The book examines workforce development WfD systems in emerging economies around the world and presents novel systems level data generated by the Systems Approach for Better Education Results SABER WfD benchmarking tool which was created to implement the World Bank s 10 year Education Sector Strategy launched in 2012 A key theme in the book is that WfD entails a multi layered engagement involving high level policy makers system level managers as well as leaders at individual institutions Too often the conversation and actions are fragmented by intellectual administrative and operational silos which undermine effective cooperation to solve the deep challenges of building job relevant skills The book s findings based on cross sectional data for nearly 30 countries and time series data for five countries identify successes and common issues across countries in the sample In lagging countries the biggest difficulties relate to forming and sustaining strategic partnerships with employers ensuring equitable and efficient funding for vocational education and putting in place mechanisms to enhance training providers accountability for results defined by their trainees job market performance By framing WfD in the broader skills for growth context and drawing on lessons from countries where well designed WfD strategies have helped to drive sustained growth this book offers clear guidance on how

to enable a more effective approach to the inevitably complex challenges of workforce development in emerging economies

Towards Hydrogen Infrastructure Deepshikha Jaiswal-Nagar, Viney Dixit, Sheila Devasahayam, 2023-08-22 Towards Hydrogen Infrastructure Advances and Challenges in Preparing for the Hydrogen Economy lays out the fundamental needs and processes of a potential hydrogen based economy This book begins by outlining the processes theory and technology underlying hydrogen energy from production to storage and dissemination Each chapter outlines the potential and the hurdles for developing each element toward a workable hydrogen infrastructure The later parts consider the social and environmental issues surrounding the hydrogen economy and suggest updated governmental policies Presenting the needs of hydrogen energy infrastructure from development to practical implementation Provides a basic overview of hydrogen energy processes from production and storage to transportation and use Considers in detail the potential needs and opportunities of future hydrogen economic infrastructure identifies necessary developments and lays out a roadmap toward a successful transition Presents safety and environmental considerations for the potential hydrogen economy and proposes governmental and regulatory policies to enable effective safe and sustainable use

Towards AI-Aided Invention and Innovation Denis Cavallucci, Pavel Livotov, Stelian Brad, 2023-08-29 This book constitutes the proceedings of the 23rd International TRIZ Future Conference on Towards AI Aided Invention and Innovation TFC 2023 which was held in Offenburg Germany during September 12 14 2023 The event was sponsored by IFIP WG 5.4 The 43 full papers presented in this book were carefully reviewed and selected from 80 submissions The papers are divided into the following topical sections AI and TRIZ sustainable development general vision of TRIZ TRIZ impact in society and TRIZ case studies

Private Sector Development in an Emerging World Diederik Boer, Harald Sander, Katharina Friz, Antonella Anastasi, 2023-12-04 This book explores the interactions between private sector development public policies and societal institutions with a strong view on contributing to sustainable and inclusive development in emerging countries The private sector is often praised as an engine of economic growth This belief has led to significant efforts to promote private sector development in emerging countries Development agencies prioritize private sector development and national governments are following suit resulting in often huge incentives to stimulate and attract private investment However private sector development is not a panacea for sustainable and inclusive development as the past decades have clearly shown Economic growth societal development and environmental sustainability are often in a sharp conflict and more often than not economic growth has failed to improve the lives of all citizens This book examines the role the state and the private sector should play to benefit from the dynamics of business development while ensuring that these benefits are shared broadly without jeopardizing sustainability The views presented differ in detail but the analyses and case studies presented share common themes namely that the relative roles of state and private sector should be balanced and that this particular balance should be based on the context of each country in order to make the private public sector interaction work for all people

Extractive Industries Tony

Addison,Alan Roe,2018 This book is about the challenges and opportunities facing developing countries in using their extractive industries to achieve inclusive and sustainable development It recognizes the importance of using oil gas and mining to achieve inclusive change *The Oxford Handbook of Industrial Policy* Arkebe Oqubay,Christopher Cramer,Ha-Joon Chang,Richard Kozul-Wright,2020 Industrial policy has long been regarded as a strategy to encourage sector industry or economy wide development by the state It has been central to competitiveness catching up and structural change in both advanced and developing countries The Oxford Handbook of Industrial Policy presents a comprehensive review of and a novel approach to the conceptual and theoretical foundations of industrial policy providing analytical perspectives on how industrial policy connects to broader issues of development strategy macro economic policies infrastructure development human capital political economy green economy and shifts in the twenty first century The chapters offer valuable lessons and policy insights to policymakers practitioners and researchers in the field Putting a Price on Carbon in South Africa and Other Developing Countries Harald Winkler,Marquard Andrew,2020-12-14 How should we be putting a price on carbon particularly in developing countries This volume takes up this contested issue and examines how different economic instruments might apply in developing countries with a special focus on South Africa The papers included address a variety of themes in this area Emissions trading carbon taxes fiscal and non fiscal instruments policy and institutional dimensions and lessons from the Clean Development Mechanism Presenting the very latest research the volume will be of interest to academics and policymakers in economics policy and development

Green Industrial Policy In Emerging Countries Introduction

In the digital age, access to information has become easier than ever before. The ability to download Green Industrial Policy In Emerging Countries has revolutionized the way we consume written content. Whether you are a student looking for course material, an avid reader searching for your next favorite book, or a professional seeking research papers, the option to download Green Industrial Policy In Emerging Countries has opened up a world of possibilities. Downloading Green Industrial Policy In Emerging Countries provides numerous advantages over physical copies of books and documents. Firstly, it is incredibly convenient. Gone are the days of carrying around heavy textbooks or bulky folders filled with papers. With the click of a button, you can gain immediate access to valuable resources on any device. This convenience allows for efficient studying, researching, and reading on the go. Moreover, the cost-effective nature of downloading Green Industrial Policy In Emerging Countries has democratized knowledge. Traditional books and academic journals can be expensive, making it difficult for individuals with limited financial resources to access information. By offering free PDF downloads, publishers and authors are enabling a wider audience to benefit from their work. This inclusivity promotes equal opportunities for learning and personal growth. There are numerous websites and platforms where individuals can download Green Industrial Policy In Emerging Countries. These websites range from academic databases offering research papers and journals to online libraries with an expansive collection of books from various genres. Many authors and publishers also upload their work to specific websites, granting readers access to their content without any charge. These platforms not only provide access to existing literature but also serve as an excellent platform for undiscovered authors to share their work with the world. However, it is essential to be cautious while downloading Green Industrial Policy In Emerging Countries. Some websites may offer pirated or illegally obtained copies of copyrighted material. Engaging in such activities not only violates copyright laws but also undermines the efforts of authors, publishers, and researchers. To ensure ethical downloading, it is advisable to utilize reputable websites that prioritize the legal distribution of content. When downloading Green Industrial Policy In Emerging Countries, users should also consider the potential security risks associated with online platforms. Malicious actors may exploit vulnerabilities in unprotected websites to distribute malware or steal personal information. To protect themselves, individuals should ensure their devices have reliable antivirus software installed and validate the legitimacy of the websites they are downloading from. In conclusion, the ability to download Green Industrial Policy In Emerging Countries has transformed the way we access information. With the convenience, cost-effectiveness, and accessibility it offers, free PDF downloads have become a popular choice for students, researchers, and book lovers worldwide. However, it is crucial to engage in ethical downloading practices and prioritize personal security when utilizing online platforms. By doing so,

individuals can make the most of the vast array of free PDF resources available and embark on a journey of continuous learning and intellectual growth.

FAQs About Green Industrial Policy In Emerging Countries Books

How do I know which eBook platform is the best for me? Finding the best eBook platform depends on your reading preferences and device compatibility. Research different platforms, read user reviews, and explore their features before making a choice. Are free eBooks of good quality? Yes, many reputable platforms offer high-quality free eBooks, including classics and public domain works. However, make sure to verify the source to ensure the eBook credibility. Can I read eBooks without an eReader? Absolutely! Most eBook platforms offer web-based readers or mobile apps that allow you to read eBooks on your computer, tablet, or smartphone. How do I avoid digital eye strain while reading eBooks? To prevent digital eye strain, take regular breaks, adjust the font size and background color, and ensure proper lighting while reading eBooks. What the advantage of interactive eBooks? Interactive eBooks incorporate multimedia elements, quizzes, and activities, enhancing the reader engagement and providing a more immersive learning experience. Green Industrial Policy In Emerging Countries is one of the best book in our library for free trial. We provide copy of Green Industrial Policy In Emerging Countries in digital format, so the resources that you find are reliable. There are also many Ebooks of related with Green Industrial Policy In Emerging Countries. Where to download Green Industrial Policy In Emerging Countries online for free? Are you looking for Green Industrial Policy In Emerging Countries PDF? This is definitely going to save you time and cash in something you should think about.
