Business of Teaching Yoga immediately became the essential resource for those looking to start or maintain a successful career in yoga. Since then the landscape has changed. Online yoga and social media are now a crucial part of most teachers' repertoires. Yoga teachers also face broad cultural shifts, an evolving environmental crisis, and resulting anxiety among students, all of which bring fresh challenges to their leadership and teaching abilities. This expanded edition will help you plan dynamic classes, including engaging digital content, build a loyal student base, and become more financially stable. Optimize your own practice, maintain a marketing plan, and develop a unique brand. Teach yoga to facilitate ease and inspire creative action in a troubled world.

The Path of Light David Scott Yglesias, 2019-05-29

Thank you for purchasing this book and being willing to look deeper into your practice of yoga. The Path of Light is a compilation of the life work of the author David Scott as he explored yoga for himself from the very roots of where it began to where it is today. The Path of Light has been used as the foundation for a syllabus for both the Yoga Alliance 200 hour and 300 hour programs for Registered Yoga Teachers. If you are a teacher or running your own teacher training program and giving back to the community, we thank you. We truly hope this book will enhance your teaching, your practice, and your programs. In most teacher training programs, only about 25% of the students taking the course do so with the intention of one day actually teaching. The vast majority take the course simply to gain a better understanding of yoga and help themselves along this adventurous journey called life. Be careful, however, because some of the best teachers of today took their first teacher training course only for personal growth. Teaching yoga can be very addicting, and it gives our lives meaning and purpose beyond measure. The author David Scott is a pragmatic thinker. He looks at everything through the eyes of a scientist that is evidenced based and examines with discernment for proof before simply believing. Just because something was written long ago or is on the internet today does not mean that it is valid or that modern advancements in science have not proven a theory false or obsolete. Researching this book has been a transformative, eye-opening experience for the author. Many beliefs instilled since childhood, thought to be solid bedrocks of truth, can crumble under the light of scientific evidence. Some beliefs we are taught early on served a purpose once and were meant to protect us but can limit us as our life takes flight and our horizons expand. In order to fly, we have to release the things weighing us down. Learn to let go of what no longer serves you in your life as you enjoy this book and your spiritual journey. The Path of Light has altered the thinking of the author; his hope is that you will be at least open to exploring different viewpoints rather than being limited by beliefs. Some principles of our exploration will simply be unexplainable in rationale or scientific terms. Love, for example, is an emotion that while it cannot be studied under a microscope, is evident to exist in our hearts and minds. Perhaps modern science still has some catching up to do with the ancient Indian teachings as we expand our boundaries of knowledge. Many things in our subtle energetic body are this way. To be understood, they must be felt, and our hope is that we can feel them together along the Path of Light. Often David's scientific approach can be a bit coarse; you may not agree with all of his conclusions. That being said, feel free to email David.
