## **Had Enough A Handbook For Fighting Back:**

*Had Enough?* James Carville, 2003 In *Had Enough* the legendary political adviser comes out of his corner swinging taking on the Bush White House and the Republican leaders in Congress on every front from the economy to education to foreign affairs But he doesn't just attack he lays out constructive had enough solutions for healing the damage done by the Republicans and helping disheartened Democrats get back on their feet In addition he offers Ten Rules for Progressives to Live By and a new War Room mantra for a new era BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved      The Making of Modern America Gary Donaldson, 2012-10-18 The second edition of Dr Gary A Donaldson's highly successful textbook *The Making of Modern America* introduces students to the cultural social and political paths the United States has traveled from the end of WWII to the present day While deftly cataloguing the sweeping changes and major events in America from Dewey Defeats Truman through the election of our first black President this newly updated edition never loses touch with that American history taking place at the level of the people This edition details not just the United States rich cultural history but elegantly repositions it as integral to our understanding of any portion of this country's past Donaldson provides a factual foundation for students and then pushes them to interpret those facts framing the discussions essential to any complete study of American history *The Making of Modern America* Second Edition is updated to include An expanded chapter titled *America After the New Millennium* which more retrospectively and completely details the 21st century's first decade A new chapter titled *The Second Bush and Obama* From the War on Terrorism to the Audacity of Hope updating readers on the calamitous end to President George W Bush's second term the Obama administration's first term challenges and the Great Recession Newly revised readings each profiling an historical event speech or figure Lee Harvey Oswald to Bill Gates to Condoleezza Rice at the conclusion of each chapter      **Escaping Plato's Cave** Mort Rosenblum, 2013-11-05 *Cave Blindness* Like Plato's cave dwellers who only saw inaccurate reflections of reality on the wall America has been blinded to dangerous realities inside and outside our borders argues award winning journalist Mort Rosenblum Our ignorance is not just deplorable it is literally killing us and others Rosenblum who has reported from more than one hundred countries many of which he has outlived explains how we all can and must learn more about what's really happening in the Middle East Europe Africa Asia Latin America in matters of war peace business the environment and education This cri de coeur by one of our planet's most eloquent journalists is a must read for anyone concerned about what they don't see in the newspaper or on TV *Escaping Plato's Cave* offers both insight and practical ways for Americans to get out of the cave and see what's really going on around us      **Bush Must Go** Bill Press, 2004-06-10 More information to be announced soon on this forthcoming title from Penguin USA      **Leading Men** Jackson Katz, 2012-10-22 Why Americans always elect men as presidents It's no secret that there is a wide and growing gender gap in American presidential politics Over the past thirty years Democrats have made major gains with women while Republicans have been doing far better with

men especially white working class men The question is why In *Leading Men* Jackson Katz argues that racial politics and economic anxieties are not enough to explain the dramatic gender divide in American voting patterns Cutting against the grain of typical analyses of the gender gap that have focused almost exclusively on women Katz trains his focus the other way around on the male side of the equation He offers stunning evidence that American presidential campaigns have evolved into nothing less than quadrennial referenda on competing versions of American manhood And in the process he never takes his eye off what this development means for women as both candidates and citizens Written in an engaging style that will appeal to general readers political experts and activists alike Katz explores some of the major political developments news events and campaign strategies that have made the presidency the center of a cultural conversation about manhood over the past few decades Ranging from the election of the former Hollywood actor Ronald Reagan in 1980 through the election of Barack Obama in 2008 and into the 2012 campaign season Katz zeroes in on how the very notion of what it means to be presidential has in many ways become synonymous with traditional definitions of manhood Whether he is examining right wing talk radio's relentless attacks on the masculinity of Democratic candidates or how fears of appearing weak and vulnerable end up shaping candidates' actual policy positions Katz offers a new way to understand the power of image in presidential politics In the end *Leading Men* offers nothing less than a paradigm shifting way to understand the dynamics of presidential elections and the very nature of the American presidency

**Intelligence**

**Matters** Bob Graham, Jeff Nussbaum, 2004-09-14 In this explosive controversial and profoundly alarming insider's report Senator Bob Graham reveals faults in America's national security network severe enough to raise fundamental questions about the competence and honesty of public officials in the CIA the FBI and the White House For ten years Senator Graham served on the Senate Intelligence Committee where he had access to some of the nation's most closely guarded secrets Following the attacks of September 11 2001 Graham co chaired a historic joint House Senate inquiry into the intelligence community's failures From that investigation and his own personal fact finding Graham discovered disturbing evidence of terrorist activity and a web of complicity At one point a terrorist support network conducted some of its operations through Saudi Arabia's U S embassy and a funding chain for terrorism led to the Saudi royal family In February 2002 only four months after combat began in Afghanistan the Bush administration ordered General Tommy Franks to move vital military resources out of Afghanistan for an operation against Iraq despite Franks's privately stated belief that there was a job to finish in Afghanistan and that the war on terrorism should focus next on terrorist targets in Somalia and Yemen Throughout 2002 President Bush directed the FBI to limit its investigations of Saudi Arabia which supported some and possibly all of the September 11 hijackers The White House was so uncooperative with the bipartisan inquiry that its behavior bore all the hallmarks of a cover up The FBI had an informant who was extremely close to two of the September 11 hijackers and actually housed one of them yet the existence of this informant and the scope of his contacts with the hijackers were covered up There were twelve instances when the September 11 plot could have been discovered and potentially foiled Days after 9 11 U S authorities allowed some Saudis to fly despite a complete civil aviation ban after which the government expedited the departure of more than one hundred Saudis from the United States Foreign leaders throughout the Middle East warned President Bush of exactly what would happen in a postwar Iraq and those warnings went either ignored or unheeded As a result of his Senate work Graham has become convinced that the attacks of September 11 could have been avoided and that the Bush administration's war on terrorism has failed to address the immediate danger posed by al Qaeda Hezbollah and Hamas in Afghanistan Syria Yemen and Somalia His book is a disturbing reminder that at the highest levels of national security now more than ever intelligence matters
