the whole Western world The Love Jones Cohort Kris Marsh,2023-02-09 This book provides a structural understanding of how identities of race class gender and singleness reconfigure the Black middle class *Social Stratification* David B. Grusky,2018-05-04 The book covers the research on economic inequality including the social construction of racial categories the uneven and stalled gender revolution and the role of new educational forms and institutions in generating both equality and inequality **Rural Inequality in Divided Russia** Stephen Wegren,2013-07-24 This book examines economic and political polarisation in post Soviet Russia and in particular analyses the development of rural inequality It discusses how rural inequality has developed in post Soviet Russia and how it differs from the Soviet period and goes on to look at the factors that affect rural stratification and inequality using human and social capital profession gender and village location as independent variables The book uses survey data from rural households and fieldwork in Russia in order to highlight the multiplicity of divisions that act as fault lines in contemporary rural Russia **Black Masculinity and Sexual Politics** Anthony J. Lemelle, Jr.,2010-04-26 This book is about how African American males experience masculinity politics and how U S sexism and racial ranking influences relationships between black and white males Lemelle argues that the only way to accommodate African American males is to eliminate sexism particularly as it appears in the organization of families **Families** ,2011 **The Politics and Psychoanalysis of Comedy** Robert Samuels,2023-11-20 This book looks at the political aspects of comedy and how humor is shaped by unconscious social and psychological factors within a particular cultural and historical context Updating Freud s work on jokes Robert Samuels argues that any universal model of comedy must take into account the role played by distinct genres which are themselves determined by particular political psychopathologies In looking at contemporary comedy we encounter a structure that is often seen throughout the world in response to what is experienced as a Leftist super ego censoring thoughts and speech and a Libertarian Right which promotes free speech as the ultimate value Within this dynamic comedians seeking to make their audience laugh by poking fun at sensitive and taboo subjects intentionally and unintentionally these humorists present an alternative to Left wing political correctness and identity politics Contemporary comedians then cannot help but to cater to Right wing politics since the Right is centered on loudly rejecting the cultural dictations of the Left Families Shirley A. Hill,2011-06-30 This book focuses on the impact of economic systems and social class on the organization of family life Since the most vital function of the family is the survival of its members the author give primacy to the economic system in structuring the broad parameters of family life She explains how the economy shapes the prospects families have for earning a decent living by determining the location nature and pay associated with work Digesting Race, Class, and Gender I. Ken,2010-12-20 How are the ways that race organizes our lives related to the ways gender and class organize our lives How might these organizing mechanisms conflict or work together In *Digesting Race Class and Gender* Ivy Ken likens race class and gender to foods foods that are produced in fields mixed together in bowls and digested in our social and institutional bodies In the field one food may

contaminate another through cross pollination In the mixing bowl each food s original molecular structure changes in the presence of others And within a meal the presence of one food may impede or facilitate the digestion of another At each of these sites the foods of race class and gender are involved in dynamic relationships with each other that have implications for the shape or the taste of our social order

Gender, Work, and Economy Heidi Gottfried,2013-11-15 This engaging new text uses a feminist lens to crack open the often hidden worlds of gender and work addressing enduring questions about how structural inequalities are produced and why they persist Making visible the social relationships that drive the global economy the book explores how economic transformations not only change the way we work but how we live our lives The full extent of changing patterns of employment and the current financial crisis cannot be fully understood in the confines of narrow conceptions of work and economy Feminists address this shortcoming by developing both a theory and a political movement aimed at unveiling the power relations inherent in old and new forms of work By providing an analysis of gender work and the economy Heidi Gottfried brings to light the many faces of power from the bedroom to the boardroom A discussion of globalization is threaded throughout the book to uncover the impact of increasing global interconnections and vivid case studies are included from industrialized countries such as the US and the global cities of New York London and Tokyo as well as from developing countries and the emerging global cities of Beijing Shanghai and Dubai This comprehensive analysis of gender and work in a global economy incorporating sociology geography and political economy perspectives will be a valued companion to students in gender studies and across the social sciences more generally
