Woollacott, 2015 Infinite Awareness pairs Woollacott s research as a neuroscientist with her self revelations about her mind s spiritual power Between the scientific and spiritual worlds she breaks open the definition of human consciousness to investigate the existence of a non physical mind Awareness Marjorie Hines Woollacott, 2015-10-08 Book Award of the Parapsychological Association 2017 Winner of the Eric Hoffer Book Awards 2017 Spiritual First Place Nautilus Book Awards 2017 Science Cosmology and Expanding Consciousness First Place International Excellence Mind Body Spirit Book Awards 2017 Human Consciousness Bronze Medal Feathered Quill Book Awards 2017 Best Religious Spiritual First Place Great Northwest Book Festival 2017 Spiritual Books First Place New England Book Festival 2016 Spiritual Books As a neuroscientist Marjorie Woollacott had no doubts that the brain was a purely physical entity controlled by chemicals and electrical pulses When she experimented with meditation for the first time however her entire world changed Woollacott's journey through years of meditation has made her guestion the reality she built her career upon and has forced her to ask what human consciousness really is Infinite Awareness pairs Woollacott s research as a neuroscientist with her self revelations about the mind's spiritual power Between the scientific and spiritual worlds she breaks open the definition of human consciousness to investigate the existence of a non physical and infinitely powerful mind The ^ASubtle Body Simon Cox,2022-05-18 How does the soul relate to the body Through the ages many religions and intellectual movements have posed answers to this question Many have gravitated to the notion of the subtle body positing some kind of subtle entity that is neither soul nor body but some mixture of the two This book traces the history of this idea from the late Roman empire to the present day touching on how philosophers wizards scholars occultists psychologists and mystics have engaged with the idea over the past two thousand years The Perennial Philosophy Reloaded Dana Sawyer, 2024-07-09 Dana Sawyer unpacks the philosophy spirituality of Huxley Watts and Ram Dass as well

as our contemporaries including Mirabai Starr and Richard Rohr in ways readers will find intriguing creating an original view of human nature revealing why this mystical understanding of our world is called perennial During the 1960s and 70s Perennial Philosophy was the most popular theory regarding what the world's mystical traditions held in common and it was touted as the best platform for understanding the nature of human consciousness including how to expand it therapeutically with meditation yoga and psychedelic drugs Consequently books by Aldous Huxley Alan Watts Huston Smith Stanislav Grof Frances Vaughan Ram Dass and other Perennialists were widely available and sold like hotcakes However during the 80s their shared perspective fell out of fashion The Perennial Philosophy Reloaded corrects several common errors in understanding the perennial philosophy while providing a short up to date overview of the general perspective The goal is to reveal the continued relevance of perennial philosophy during this time psychedelic renaissance when many are seeking ways to interpret their experiences inside an engaging narrative free of philosophical shop talk The result is a demonstration of now perennial philosophy applies to all who are interested in self realization. This book will appeal for the millions today who are involved with mindfulness meditation hatha yoga Transcendental Meditation Tibetan Buddhism Kabbalah Zen Sufism Shamanic drumming Christian Centering Prayer or their own DIY approaches to spiritual awakening **Beyond Human** Maryanne L. Leone, Shanna Lino, 2023-10-02 Chronicling sixteenth century Spain to the present day Beyond Human aims to decentre the human and acknowledge the material historicity of more than human nature The book explores key questions relating to ecological equity justice and responsibility within and beyond Spain in the Anthropocene Examining relations between Iberian cultural practices historical developments and ecological processes Maryanne L Leone Shanna Lino and the contributors to this volume reveal the structures that uphold and dismantle the non human human dichotomy and nature culture divide The book critiques works from the Golden Age to the twenty first century in a wide range of genres including comedia royal treatises agricultural reports paintings satirical essays horror fiction and film young adult and speculative literature poetry graphic novels and television series The authors contend that Spanish cultural studies must expose the material historicity that entangles today s ecological crises and ecosocial injustices with previous future and contemporary entities The book argues that this will require the simultaneous decentring of the human and of the Anthropocene as an ecocritical framework By standardizing ecosocial analysis and widening avenues for ecopedagogical approaches Beyond Human participates in the ecocentric transformation of Hispanic cultural studies Current Controversies in Philosophy of Religion Paul Draper, 2019-04-17 While orthodox religion by its very nature is conservative philosophy at its best is inherently radical It challenges authority tradition and the whole idea of dogma For this reason philosophy of religion can be explosively controversial It is bound to disturb those who peddle incontrovertible truth and fascinate those who seek spiritual truth and are willing to follow the argument wherever it leads This volume is designed for such seekers It brings together an international team of leading philosophers of religion to explore and debate radical new ideas about religion God and

ultimate reality Four related questions are addressed How might religion make progress Is life after death a real possibility Must a perfect God be motivated by our well being What alternatives are there to traditional theism and materialist atheism The book begins with a vision for the field of philosophy of religion and ends with a capstone chapter that touches on all of the topics debated in the other chapters The addition of chapter overviews annotated suggestions for further reading and annotated guides to three additional controversies make it an ideal textbook in addition to being an important source for scholars and seekers of all kinds Become Conscious of Wholeness Edwin E. Olson, 2021-11-30 How can we transcend our tribal philosophical and religious differences Is it possible to develop a global consciousness to resolve the peril to our biosphere and other human made existential crises Become Conscious of Wholeness Humanity's Only Future explores how connecting human consciousness with Universal Consciousness will give individuals and societies a sense of being complete not fragmented Accessing Universal Consciousness the fundamental wisdom intelligence and love in the Universe will align their identity and purpose and free them from limiting beliefs and fears Universal Consciousness is the organizing unifying force beyond space and time filled with the creative potential from which our diverse philosophies religions and primordial traditions emerged When Consciousness is understood from multiple scientific spiritual psychological and mystical perspectives what is of ultimate value becomes clear our relationships with each other and the Earth our essential Wholeness The reader will explore various portals to Universal Consciousness drawing upon their own mystical and spiritual experience to develop a more holistic Self Specific action steps are also presented to reframe religion reimagine education and mental wellbeing and reform the business organizations government agencies and divisive politics that perpetuate a fragmented view of reality Caught Between Heaven & Earth Nancy Van Alphen, 2019-03-27 An Incredible True Story of Awakening In Caught Between Heaven Earth Nancy van Alphen takes us on her unexpected spiritual journey that changed her from agnostic to believer A humorous peak into her childhood during which she had but a mere smattering of religion paints the picture of an ordinary girl living an ordinary life As a teen she concluded God was unprovable and never looked back until God decided He wasn t content being a mere possibility Alone one night Nancy happened upon a video of a young man given little time to live Heartfelt compassion morphed into anger as she raised her fists and railed about suffering to a God in whom she didn t really believe To her utter amazement God responded Thus begins her journey in which she traverses a surreal chasm between doubt and belief caught between Heaven and Earth as she struggles to understand messages she was given about suffering reincarnation including her own and humanity s true identity With a sprinkling of light hearted family anecdotes Nancy recalls her progressively more profound experiences within the context of earthly reality Interactions with God Jesus and angels chip away at her agnosticism until one day something so amazing happens it obliterates all traces of doubt Between scenes Nancy looks at various religious traditions and present day near death experiences uncovering information supporting what she was told by Divine source helping her round out her new picture of reality Her conclusion

presents four habits of LOVE by which to live to foster evolution of one s soul as well as the spiritual evolution of humanity Praise for Caught Between Heaven Earth I am proud of Nancy for her courage in sharing her story with us that we might find light in it It is valuable that she is open and sharing of her reproachment to God Nancy went in as an agnostic and exited as a full on believer Kudos to Nancy for her persistence in continuing the work in having courage and resilience and in doing it in a world too often filled with darkness What a lesson for the rest of us Dr Doris Eliana Cohen PhD Repetition and Dreaming on Both Sides of the Brain Nancy van Alphen takes you by the hand and ushers you into her mind and then into her heart where you experience her intimate and breathtaking journey from agnosticism to spirituality. Her authentic report begins with angels at her door That day marked the beginning of her transformation which she describes in honest detail Hers is a journey similar in its mystical nature to that which I and countless others have experienced in this time of rising awareness The truths that unfold to Nancy in surprising even astonishing ways will resonate in the heart of experiencers and non experiencers alike Emily Rodavich Mystical Interludes and Mystical Interludes II Lost Ecstasy June McDaniel, 2018-06-26 This book is a study of religious ecstasy and the ways that it has been suppressed in both the academic study of religion and in much of the modern practice of religion It examines the meanings of the term how ecstatic experience is understood in a range of religions and why the importance of religious and mystical ecstasy has declined in the modern West June McDaniel examines how the search for ecstatic experience has migrated into such areas as war terrorism transgression sexuality drug use and anti institutional forms of spirituality She argues that the loss of religious and mystical ecstasy as both a religious goal and as a topic of academic study has had wide ranging negative effects She also proposes that the field of religious studies must go beyond criminalizing trivializing and pathologizing ecstatic and mystical experiences Both religious studies and theology need to take these states seriously as important aspects of lived human experience The New Road: and the Paradigm. Peter Dodd Cooper, DSc, PhD,2022-08-01 Peter Dodd Cooper's book The New Road and the Paradigm is both a spiritual memoir and a series of scientific articles on his own exploration of the nature of consciousness and of reality itself As a scientist he brings credibility to this book with his credentials from a long and productive scientific career From this vantage point he then explores topics that don't fit into our current materialist paradigm looking deeper to see if he can find more satisfying answers After exploring the mysteries of quantum physics the he concludes his exploration by saying Experiencers tell us that reality is that realm outside Plato's cave where colours are brighter and Oneness with everything is self evident Hagiography and Religious Truth Rico G. Monge, Kerry P. C. San Chirico, Rachel J. Smith, 2016-09-16 The hagiographic materials from the world's religions can tell us much about the beliefs and practices of the people yet the limited degree to which hagiography has been used as an instrument for understanding diverse religious traditions is surprising Hagiography and Religious Truth provides a clearer understanding of the ways hagiography functions to disclose truth for practitioners and suggests various ways that these underexploited sources enrich our comprehension of broader

issues in religious studies. This volume provides a much needed cross cultural and interreligious comparison of saints lives iconography and devotional practices The contributors show that hagiographic sources can in fact be truths of manifestation which function as vehicles for prefiguring configuring and refiguring religious social and cultural life The editors argue that some meanings simply cannot be communicated effectively through historical critical methodologies By exploring how hagiography functions throughout several of the world's religious traditions this volume illustrates how various modes of hagiography articulate religious ideas and uniquely represent conceptions of sanctity Embrace Your Wobbles Priscilla Shumway, 2020-11-25 No matter what we do in life we will experience wobbles Wobbles are the physical and mental challenges we encounter both in our yoga practice and in our daily lives The essays in this book written by yoga teachers and practitioners reveal their personal journeys in learning to accept and even be grateful for the wobbles they experience both on and off the yoga mat Wobbles these writers agree are unavoidable the key is to notice wobbles not judge them This book encourages us to think about the types of wobbles we experience both on and off the yoga mat and challenges us to become more aware of our habitual often unconscious approach to managing wobbles Finally this book inspires us to embrace our wobbles as a source of wisdom to help us grow and live a satisfying life Ex Auditu - Volume 32 Klyne Snodgrass, 2017-06-05 Introduction Klyne Snodgrass On Bringing Home the Bacons Reflections on Science Faith and Scripture Iain Provan Response to Provan John Walton Paul and the Person Perspectives from Philosophy and the Cognitive Sciences Susan Grove Eastman Response to Eastman A Andrew Das Evolutionary Psychology and Romans 5 7 The Slavery to Sin in Human Nature Paul Allen Response to Allen Christopher Lilley Multiverse Philosophical and Theological Perspectives Gerald B Cleaver Made as Mirrors Biblical and Neuroscientific Reflections on Imaging God Joshua M Moritz Response to Moritz Tyler Johnson Forming Identities in Grace Imitatio and Habitus as Contemporary Categories for the Sciences of Mindfulness and Virtue Michael Spezio Knowing in Part The Demands of Scientific and Religious Knowledge in Everyday Decisions or She Blinded Me With Science and Deciding Whether to Wear Checks with Stripes Johnny Wei Bing Lin Response to Lin Linda M Eastwood A Rock of Offense The Problem of Scripture in Science and Theology Hans Madueme Response to Madueme Matthew Maas Annotated Bibliography on Science and Religion Presenters and Respondents Spirit Untethered Suzanne Grace Maiden, 2018-10-31 When you lose a loved one the pain can feel unbearable but what if you knew that the spirit of your loved one lived on Author psychotherapist and psychic medium Suzanne Maiden can answer that six months before she was diagnosed with terminal cancer she began to see dead people In Spirit Untethered Maiden recounts heartwarming stories of the deceased communicating messages of comfort and joy to loved ones left behind Drawing on wisdom gleaned from both her own dance with death and her journey of mediumship she illuminates the deathless nature of spirit and reveals that love is the vibration that links our world and spirit realms If you re a skeptic or have ever wondered whether death offers a deeper meaning then this heartfelt memoir serves as a reminder and gift for you This personal

narrative presents a collection of stories of spirit contact shared by a woman whose experiences with cancer opened her to spiritual connection beyond her imagination Hunger for Wholeness, A Ilia Delio, OSF, Nature is on a continuous trajectory of transcendence Building not only on the thought of Teilhard and others but also on the findings of quantum physics this is a reflection on the relationship of God humanity and nature in an ever evolving cosmos the Earth Delio, Ilia, 2020-09-16 Artificial Intelligence AI the new frontier of human evolution holds the promise of reuniting The Not-Yet God Delio, Ilia, 2023-09-15 A Christian theological engagement with evolutionary religion and science theory quantum theory and relational holism through the works of Teilhard de Chardin and Carl Jung God and the Natural World Ted Peters, Marie Turner, 2020-05-01 This collection of essays is a fitting tribute to Denis Edwards who was one of Australia s leading theologians In exploring the most challenging questions of our time these essays canvas some of the great themes of Christian theology that were the focus of Edwards research Denis Edwards was a theologian of dialogue dialogue with our rich theological tradition dialogue with science dialogue with contemporary theologians The contributors to this volume enter into a dialogue with substantial parts of the theological output of Denis Edwards In the process they capture something of his humanity his love of creation and his concern for our common home The book demonstrates the commitment Denis Edwards had to a theology that is truly ecumenical and always learning from the insights of others The editors and authors have done a great service in helping many others to deepen reflection on Denis Edwards contribution to our understanding of God and the natural world The Mystery of Evolutionary Mechanisms Robert F. Shedinger, 2019-06-28 Is Darwinian evolution really the most successful scientific theory ever proposed or even the best idea anyone has ever had as Daniel Dennett once put it The Mystery of Evolutionary Mechanisms provides a comprehensive critical reading of the literature of evolutionary biology from Darwin to Dobzhansky to Dawkins revealing this popular account of evolution to be a grand narrative of Darwinian triumph that greatly overstates the empirical validity of modern evolutionary theory The mechanisms driving the evolutionary process truly remain a mystery more than one hundred fifty years after Origin of Species a fact that can free religion scholars to think in more creative ways about the positive contributions religious reflection might make to our understanding of life s origin and diversity The Mystery of Evolutionary Mechanisms calls for an embrace of mystery understood not as an abdication of the scientific quest for truth but as a courageous and humble acknowledgment of the limits of human reason and an openness to a fundamentally religious orientation toward life
