Inhabiting Eden Christians The Bible And The Ecological Crisis:

Inhabiting Eden Patricia K. Tull, 2013-01-01 In this thoughtful study respected Old Testament scholar Patricia K Tull explores the Scriptures for guidance on today's ecological crisis Tull looks to the Bible for what it can tell us about our relationships not just to the earth itself but also to plant and animal life to each other to descendants who will inherit the planet from us and to our Creator She offers candid discussions on many current ecological problems that humans contribute to such as the overuse of energy resources like gas and electricity consumerism food production systems including land use and factory farming and toxic waste Each chapter concludes with discussion questions and a practical exercise making it ideal for both group and individual study This important book provides a biblical basis for thinking about our world differently and prompts us to consider changing our own actions Visit inhabitingeden.org for links to additional resources and information

Plundering Eden G. P. Wagenfuhr, 2020-05-22 Christian ecotheology runs the risk of making God himself a resource for human exploitation as a means to species survival The world of climate change soil depletion and mass species extinction reveals a frightening conclusion humans act as cosmic parasites The problem is not with the world talk of climate change blames the symptoms displayed by the victim but with human epistemology Humans are systematically incapable of rightly perceiving reality and so must socially construct reality The end of this epistemological problem is necessary ecological devastation by the development of civilization In *Plundering Eden* Wagenfuhr traces ecological problems to their root cause in the broken imagination and argues that reconciliation with God the Creator through Jesus Christ is the only means to ecological healing through a renewed kenotic imagination expressed in the creation of an alternate environment that reveals the kingdom of God the ekklesia

When Time Is Short Timothy Beal, 2022-07-12 With faith hope and compassion acclaimed religion scholar Timothy Beal shows us how to navigate the inevitabilities of the climate crisis and the very real and very near possibility of human extinction What if it's too late to save ourselves from climate crisis *When Time is Short* is a meditation for what may be a finite human future that asks how we got here to help us imagine a different relationship to the natural world Modern capitalism as it emerged drew heavily upon the Christian belief in human exceptionalism and dominion over the planet and these ideas still undergird our largely secular society They justified the pillaging and eradication of indigenous communities and plundering the Earth's resources in pursuit of capital and lands But these aren't the only models available to us and they aren't even the only models to be found in biblical tradition Beal re-reads key texts to anchor us in other ways of being in humbler conceptions of humans as earth creatures bound in ecological interdependence with the world subjected to its larger reality Acknowledging that any real hope must first face and grieve the realities of climate crisis Beal makes space for us to imagine new possibilities and rediscover ancient ones What matters most when time becomes short he reminds us is always what matters most

The Crucifixion of the Warrior God

Gregory A. Boyd, 2017-04-17 *The Crucifixion of the Warrior God* in an epic constructive investigation takes up the set of

dramatic tensions between depictions of divinely sanctioned violence in Scripture and the message and life of peace of Jesus centering the New Testament Over two volumes author Gregory A Boyd argues that we must take seriously the full range of Scripture as inspired and the centrality of the crucified and risen Christ as the supreme revelation of God *Restorative Readings* L. Juliana Claassens, Bruce C. Birch, 2015-05-15 The Bible has the unfortunate legacy of being associated with gross human rights violations as evident in the scriptural justification of apartheid in South Africa as well as slavery in the American South What is more the Hebrew Bible also contains numerous instances in which the worth or dignity of the female characters are threatened violated or potentially violated creating a situation of dehumanization in which women are viewed as less than fully human And yet the Bible continues to serve as a source of inspiration for readers committed to justice and liberation for all But in order for the Bible to speak a liberative word what is necessary is to cultivate liberating Bible reading practices rooted in justice and compassion *Restorative Readings* seeks to do exactly this when the authors in their respective readings seek to cultivate Bible reading practices that are committed to restoring the dignity of those whose dignity has been violated by means of racial gender and sexual discrimination by the atrocities of apartheid by the HIV AIDS pandemic and by the dehumanizing reality of unemployment and poverty *Reading the Hebrew Bible with Animal Studies* Ken Stone, 2023-05-25 An excellent introduction to the field of animal studies the applications of these ideas to biblical passages illuminate the text in new ways Brandon R Graffius *Horizons in Biblical Theology* Animal studies may be a recent academic development but our fascination with animals is nothing new Surviving cave paintings are of animal forms and closer to us as Ken Stone points out animals populate biblical literature from beginning to end This book explores the significance of animal studies for the interpretation of the Hebrew Bible Combined with biblical scholarship animal studies sheds useful light on animals animal symbolism and the relations among animals humans and God not only for those who study biblical literature and its ancient context but for contemporary readers concerned with environmental social and animal ethics Without the presence of domesticated and wild animals neither biblical traditions nor the religions that make use of the Bible would exist in their current forms Although parts of the Bible draw a clear line between humans and animals other passages complicate that line in multiple ways and challenge our assumptions about the roles animals play therein Engaging influential thinkers including Jacques Derrida Donna Haraway and other experts in animal and ecological studies *Reading the Hebrew Bible with Animal Studies* shows how prehumanist texts reveal unexpectedly relevant dynamics and themes for our posthumanist age Stone's ecological sensibilities theoretical acumen and incisive exegetical arguments open up fresh perspectives Stephen D Moore The Theological School Drew University This monograph is poised to become a key work in the field Anne L tourneau *Reading Religion Groundbreaking* Carol J Dempsey *OP Horizons* **Human Flourishing** Greg Forster, Anthony R. Cross, 2020-08-28 Beyond an internal transformation or mere moment of salvation how does Christian faith envision the good life This question demands not only a Christian view of how individuals should live but of how social institutions are best

arranged for human flourishing In the advanced modern world our common public life is mainly lived out in the domains of work and commerce so a Christian view of economic life is essential to a modern Christian view of human flourishing In this volume established evangelical scholars in theology biblical studies and history explore their disciplines in connection with economic wisdom to yield insights about what it means to live wholly fruitfully and well Faithful and provocative these essays uncover fresh ground on topics ranging from poverty to work ethic to capitalism socialism to slavery to non profit entities to the medieval indulgence industry

Rooted and Grounded Ryan D. Harker, Janeen Bertsche Johnson, 2016-01-28 For many of us the connection between the ecological crisis and humanity's detachment from the land is becoming increasingly clear In biblical terms Adam humanity has severed itself from the Adamic soil and we creation are reaping the consequences This collection of essays and the conference from which it took shape calls the church to root itself more deeply in the agrarian biblical text and ecclesial tradition in order to remember and freshly imagine ways of living on and with the land that are restorative reconciling and faithful to the Triune God's invitation to new life in Christ When we listen attentively to and patiently learn from the biblical text church history and theology the land itself can become a conversation partner and we are summoned to recognize that the gospel is reserved not simply for humanity but for the whole of creation

Creation and Ecology Ronald A. Simkins, 2020-12-24 In this book Ronald A. Simkins addresses the current environmental crisis and what the Bible might contribute in response to it The environmental crisis includes loss of biodiversity degradation of the soil and especially climate change If left unchecked these trends will bring about the collapse of human civilization These environmental problems are interrelated and share a similar cause the exploitation of the natural world through an economy structured by capitalist relations of production and powered by the burning of fossil fuels Through our economic relations we have depleted natural resources polluted natural environments and altered natural processes These problems are a product of our political economy which entails not only our politics ideology and religion but primarily our economic system Because the crisis is economic at its core Simkins first sets the Bible within its own economic context exploring how the biblical ideas of creation an understanding of the human relationship to the natural world were the product of the ancient Israelite political economy Then Simkins places the biblical tradition in conversation with the current environmental crisis The result is a far richer view of creation in the biblical tradition and a better understanding of what is at stake in the current environmental crisis

Nature and Creation Richard H. Hiers, 2023-04-18 People have lived on Earth since before recorded history depending on nature to provide for and clean up after them But Nature cannot do it all anymore Too many people too much trash and too much toxic waste People have long lived in interdependence with other living things Yet humans now degrade and destroy the global environment that nurtures all species including human beings Human activities contaminate earth air and sea causing thousands of species to go extinct Rising global heat produces vicious cycles of catastrophic drought fires horrific storms floods famines and massive migrations by desperate climate refugees We don't hear much anymore about

man's conquest of nature Nature God's creation now clearly has the last word Contrast the theocentric faith and ethics embedded in the Old and New Testaments Here the good world that God created and continues to create was made to be shared with all other living things All alike are made from the earth and destined to return to it Humans were meant to till the soil appreciate enjoy and care for life around them and trust their Creator for what is yet to be Let Your Light Shine Through Philip C. Interpreting the Old Testament after Christendom Jeremy Thomson, 2021-07-23 How would you describe the Old Testament Offensive violent patriarchal archaic difficult boring obsolete Many Christians don't bother with it anymore Yet these ancient books were in Jesus' lifeblood and they provided the thought world of those early followers who wrote about him in what became the New Testament This book challenges those stereotypes of Israel's Scriptures by exploring their significance in the apostolic writings and by demonstrating the importance of whole books for nuanced interpretation It takes readers on a tour through four key books before considering the wider issues of interpretation that readers must consider in order to hear God's Spirit speaking afresh to a range of contemporary concerns including racism and the environment
