 Bibliography **The Juridification of Business Ethics** Bart Jansen,2023-08-25 This book provides a theory of the
 juridification of business ethics Ethical codes pop up everywhere in the business world and increasingly resemble the code of
 law A focus on compliance rather than reflection becomes the norm Legal perspectives replace ethical perspectives turning
 ethicists into lawyers without a law degree This juridification of business ethics conceals a diminishing trust in ethics as legal
 reasoning substitutes philosophical thinking By appealing to the critical study of law Bart Jansen advocates for a renewed
 focus on the ethical side of business This book shows the importance of a good balance between law and ethics in business
 and is of great interest to both academics and professionals Governance in Modern Society Oscar van Heffen,Walter J.M.
 Kickert,Jacques J.A. Thomassen,2013-03-09 This book is the immediate result of the co operation of a great number of
 scholars in the Netherlands Institute of Government NIG NIG is an interuniversity research school As such it has a double
 task In addition to offering a Ph D program to students in Public Administration it also is a research institute in which a great
 number of scholars from seven Dutch universities participate and work on a common research program The chapters in this
 book are all products of the research program that started in 1995 This program had the ambition to explore the frontiers of
 the discipline in two respects First by studying a number of recent developments in society and their consequences for the
 functioning of government These consequences can be summarised as the development of a system of multi level and multi
 actor governance Second by contributing to the knowledge of institutions both by studying what factors are most important
 in the formation and change of institutions and by studying the effects of institutions on the behaviour of actors in different
 political and administrative settings Most contributions to this volume either have their origin in conferences organized by
 the NIG or were published as an NIG working paper We are grateful to Marcia Clifford and Connie Hoekstra who prepared
 the final version of the manuscript to Ian Priestnall who took care of the language editing and to an anonymous reviewer
 whose comments were gratefully used Due Process as a Limit to Discretion in International Commercial Arbitration
 Franco Ferrari,Friedrich Rosenfeld,Dietmar Czernich,2020-09-25 The absence of a coherent body of case law on due process
 has increasingly motivated recalcitrant parties to use due process as a strategic tool thereby putting at risk the prospect of
 obtaining an enforceable award in expeditious proceedings Countering this inherent danger here for the first time is a
 comprehensive study on due process as a limit to arbitral discretion showing how due process applies in practice in key
 jurisdictions around the world Based on country reports prepared by leading arbitration practitioners and academics the

book explores how courts in major arbitration jurisdictions apply due process guarantees when performing their post award review The contributors driven by an interest in exploring the interplay between due process and efficiency focus on those due process guarantees that set limits to arbitral discretion Matters covered include the following the right to be heard and how it may be affected by submission deadlines evidentiary offers by the opposing party and directions to the parties as to which aspects require further pleading the right to be treated equally and its interplay with the duty to give each party full opportunity to present its case and to comment on submissions and evidence filed by the other party the duty to effect proper notice including delivery and language issues the independence and impartiality of arbitrators with a focus on when an arbitrator s conduct can become the basis for a successful challenge and courts standards of deference when examining issues arising at the post award stage An introductory general report thoroughly analyses the normative basis of due process and its interplay with party autonomy as well as applicable standards of review and commonalities among manifestations of due process across jurisdictions A signal contribution to the debate regarding the so called due process paranoia affecting arbitral tribunals a topic relevant in every single arbitration proceeding this book provides practical guidelines on how to maintain the balance between due process and efficiency and how to apply due process and counteract its misuse in arbitration proceedings It will be welcomed by counsel arbitrators and judges from all countries as well as by academics and researchers concerned with international commercial arbitration

Judicial Sales of Ships Lief Bleyen, 2015-12-16 This work focuses on a specific aspect of the enforcement of maritime claims namely judicial sales of ships a procedure creditors typically resort to in the event of an irreversible default situation A substantial part of the book approaches the topic from a comparative perspective the goal being to assess the similarities and differences of the judicial sale procedure between three specific jurisdictions Belgium the Netherlands and England Wales In this study the comparison is used to further analyse the impacts of these differences on the effectiveness and reliability of the judicial sale procedure in each jurisdiction and also forms the basis for assessing the feasibility of harmonising judicial sale procedures and fostering their acceptance Considering the international character typical of judicial sales of ships conflict of law questions are very likely to arise during these procedures Accordingly the comparative study where appropriate is viewed against a private international law background

International Legal Personality Fleur Johns, 2017-07-05 Who or what is entitled to act on the international plane Where should responsibility for violations of international law lie What sort of entities are capable of possessing international legal rights What is the status of individuals minority groups non governmental bodies international organisations and animals in the international legal order and how has their status shifted over time International Legal Personality contains fourteen articles that address these and related questions In historical and contemporary writings international lawyers grapple with the nature of legal identity and confront global distributions of authority and responsibility as they explore who or what is a person in the international legal order These essays document the emergence of an

international legal order increasingly conceived in terms of patterns and probabilities rather than as the stagecraft of a small company of permanent players Recht van kabels en leidingen (Nederlands Recht) A.R. Smits, 2005 Palace of Commerce Bob Wessels, Maurits den Hollander, 2025-05-19 Palace of Commerce invites you to discover the hidden past of Amsterdam s Royal Palace It reveals this magnificent buildings origin as Amsterdam s City Hall in the seventeenth century the Dutch Golden Age Contemporaries praised the building for its beauty Its size and splendour reflect the city s prime position in international trade across the globe as well as the dignity of its urban regents and administrative officials Those who enter the Royal Palace today can hardly imagine that this building was once a bustling collection of offices and courtrooms It even included a prison What originally happened in its now so serene marble halls Who could be found in its rooms full of paintings and sculpture on a daily basis when the building s corridors were still swarming with citizens and businessmen from all corners of the world Using the art and architecture visible today as our point of departure the authors shed light on the history of early modern Amsterdam through the eyes of those who ruled and dispensed justice The regents and administrative officials who frequented the floors of Amsterdam s global centre of commerce finance law and governance are introduced in a compelling selection of short and richly illustrated stories **The New European Private Law: Vol. 3: Essays on the Future of Private Law in Europe** Martijn Hesselink, 2002-10-16 In The New European Private Law Martijn W Hesselink presents a revised and supplemented collection of essays written over the last five years on European private law He argues that the creation of a common private law in Europe is not merely a matter of rediscovering the old ius commune or of neutrally establishing the present common core which may be codified in a European Civil Code Rather it is a matter of making choices some of which may be highly controversial In this book he discusses some of the most important choices which will have to be made with regard to culture principles politics models

rights concepts and structure in the new European private law **Bestuursvraagstukken** ,1949 **Decent Flexibility** Dr Fred C. A. van Haasteren,2017-07-30 Within the context of social law temporary agency work has always been subject of debate The pursuit of more flexible forms of labour is at odds with maintaining decent labour relations For that reason ever since it was established the UN organisation for labour issues ILO has focused on private work placement In its early years it tended to prohibit or severely restrict private work placement but gradually it came to acknowledge that for instance temporary agency work had positive aspects and that a total ban was pointless In 1997 this culminated in ILO convention 181 which was widely supported This did not end the debate on non standards forms of paid work Which forms of work can be considered decent How do they relate to human rights What are the effects of globalisation In the European context too cross border temporary agency work has attracted extensive attention Lastly the Netherlands has its own unique form of public private regulation The guiding principle in this book is whether Convention 181 still has value in this day and age What are the developments in temporary agency work in the social domain How do they relate to the wide range of flexible work forms that are increasingly catching up with temporary agency work Decent flexibility is the challenge Dr Fred van Haasteren 1949 started his career as a scientific associate at the Society and Enterprise Foundation SMO From 1978 onward he worked in the Dutch temporary agency sector In 1982 he became a board member of Randstad Nederland in 1991 he became Vice President of Randstad Holding Among other things he was also President of the platform of European temporary agency employers and of the global temporary agency employer umbrella organisation CIETT He is still a board member of the Dutch Labour Standards Foundation SNA and an independent member of the NCP OECD The social policy pursued by temporary employment agencies has always been at the centre of his activities *Brinkman's catalogus van boeken en tijdschriften* ,2001 With 1901 1910 1956 1960 Repertorium is bound Brinkman s Titel catalogus van de gedurende 1901 1910 1956 1960 Title varies slightly **The Dynamics of Judicial Proof** Marilyn MacCrimmon,Peter Tillers,2012-12-06 Fact finding in judicial proceedings is a dynamic process This collection of papers considers whether computational methods or other formal logical methods developed in disciplines such as artificial intelligence decision theory and probability theory can facilitate the study and management of dynamic evidentiary and inferential processes in litigation The papers gathered here have several epicenters including i the dynamics of judicial proof ii the relationship between artificial intelligence or formal analysis and common sense iii the logic of factual inference including a the relationship between causality and inference and b the relationship between language and factual inference iv the logic of discovery including the role of abduction and serendipity in the process of investigation and proof of factual matters and v the relationship between decision and inference
