Mullins, 2020-05-27 Native American Indian culture is known for its rich oral traditions In many cases there were no written languages to document their histories The tribes relied on verbal communication to share their customs history rituals and legends The tribal elders used vibrant tales to pass information to the younger generations These stories were not only related to tribal history but were meant to entertain as well as educate while preserving their tribal culture Each time an elder told a story new life was breathed into it The telling of the stories gave a revived meaning to the tribe s past and their relations to the earth and the animals they had depended on for existence In many cases when the stories were told they were accompanied by music Drums and rhythm were paired with dance to create a visual record The Hopi Indians culture was and is rich with these stories With a past stretching back thousands of years they are one of the oldest living cultures in documented history The tribe s teachings relate stories of a great flood and other events dating to ancient times The Hopi trace their ancestry back to the Ancient Puebloan and Basketmaker cultures They were responsible for many stone structures and artifacts of the Grand Canyon and across the Southwest A deeply religious people they live by the ethic of peace and goodwill There was a time in Hopi history that when crops were harvested religious ceremonies had been performed and the winter wood had been collected It was at this time that the people broke out into dance and story telling It was a time of sharing a rich history With this book that time is now Included in this book is a huge collection of the stories of the Hopi Indians Without books and without writing the Hopi have an extensive literature These stories have been collected with the main purpose of preserving the ancient stories of Native American life Over the years many collectors have recorded
