L. Crandell, 1995 A man takes the odyssey of a lifetime through Alaska on a motor bike while reliving his youth spent with drugs and resulting in a stroke **Transnational Families, Migration and the Circulation of Care** Loretta Baldassar, Laura Merla, 2013-09-11 Without denying the difficulties that confront migrants and their distant kin this volume highlights the agency of family members in transnational processes of

care in an effort to acknowledge the transnational family as an increasingly common family form and to question the predominantly negative conceptualisations of this type of family. It re-conceptualises transnational care as a set of activities that circulates between home and host countries across generations and fluctuates over the life course going beyond a focus on mother-child relationships to include multidirectional exchanges across generations and between genders. It highlights in particular how the sense of belonging in transnational families is sustained by the reciprocal though uneven exchange of caregiving which binds members together in intergenerational networks of reciprocity and obligation, love and trust that are simultaneously fraught with tension, contest and relations of unequal power. The chapters that make up this volume cover a rich array of ethnographic case studies including analyses of transnational families who circulate care between developing nations in Africa, Latin America and Asia to wealthier nations in North America, Europe and Australia. There are also examples of intra and extra European, Australian and North American migration which involve the mobility of both the unskilled and working class as well as the skilled middle and aspirational classes.

Soc: Welcome to the Cage FH Jr., 2011-06-22

When Frank Hammond became a counselor at South Oak Cliff High School in the Dallas Independent School District he had a good feeling. As a black man with a solid church upbringing and a degree from a historical black college he felt he could really make a difference in the lives of young inner city kids who attended this predominately black high school. It didn't take Hammond long to discover that all was not well within the walls of the high school. In SOC Welcome to the Cage he provides a behind-the-scenes look at what happened at this school as the focus turned from understanding black dynamics to black exploitation. Hammond reveals the scandals that took place at the school including a corrupt and unethical principal, a staff that stole from students and engaged in inappropriate sexual relations, security guards who forced students to cage fight and manipulation of student grades. SOC Welcome to the Cage narrates the transgressions and describes what happened when Hammond blew the whistle. The school district was forced to choose between doing what was right and protecting its basketball championships, an action that affected a member of the University of Kansas national championship basketball team.
