[Green Your Home](#) Jeanne Roberts,2008 Teaches you how to use earth friendly materials to build or upgrade your home

BOOK JACKET

Good Green Homes Jennifer Roberts,2009-09 Green It conjures images of a meadow in spring for some and the color of money for others What does green have to do with our homes In essence green building or sustainable building means being smart about how we use energy water and building materials so that we can live well without needlessly damaging the environment Creating a good green home isn t just about conservation about using less or saving more although that s certainly part of it It s about creating better homes that are easier on the environment less expensive over the long term and more delightful to come home to That s the message Jennifer Roberts wants to share in Good Green Homes the ultimate new guide for people who want to live in comfortable healthy environmentally conscious homes With some simple steps outlined in this book you

can save money and do your part to help save the environment For instance using an energy efficient light bulb saves you money It also results in less demand for electricity which in turn results in less pollution from power plants which may help a child with asthma breathe a little easier If you associate green built housing with the unconventional or the quirky tree houses geodesic domes dwellings constructed of tires or soda bottles think again Perfect for homeowners remodelers renters who might be surprised by how much is within their power to change architects builders and interior designers this book lays out seven fundamental principles of green building illustrated with more than 150 color and 20 black and white photographs of more than twenty five homes Jennifer Roberts launched two retail stores in San Francisco specializing in environmentally sensible consumer products including household goods and is a freelance writer and editor on topics that include energy efficient building design and systems

Introduction to Energy and Climate Julie Kerr, 2017-08-09 The purpose of this textbook is to provide a well rounded working knowledge of both climate change and environmental sustainability for a wide range of students Students will learn core concepts and methods to analyze energy and environmental impacts will understand what is changing the earth s climate and what that means for life on earth now and in the future They will also have a firm understanding of what energy is and how it can be used This text intends to develop working knowledge of these topics with both technical and social implications Students will find in one volume the integration and careful treatment of climate energy and sustainability

[The Complete Idiot's Guide to Green Building and Remodeling](#) John Barrows, Lisa Iannucci, 2009 A guide to home building renovation and remodeling for environmentally conscientious readers or home owners looking to promote energy efficiency explains how to reduce one s personal carbon footprint lower costs and promote an eco friendly lifestyle while creating one s dream home Original

Green Information and Communication Systems for a Sustainable Future Rajshree Srivastava, Sandeep Kautish, Rajeev Tiwari, 2020-11-18 Green Information and Communication Systems for a Sustainable Future covers the fundamental concepts applications algorithms protocols new trends challenges and research results in the area of Green Information and Communication Systems This book provides the reader with up to date information on core and specialized issues making it highly suitable for both the novice and the experienced researcher in the field The book covers theoretical and practical perspectives on network design It includes how green ICT initiatives and applications can play a major role in reducing CO2 emissions and focuses on industry and how it can promote awareness and implementation of Green ICT The book discusses scholarship and research in green and sustainable IT for business and organizations and uses the power of IT to usher sustainability into other parts of an organization Business and management educators management researchers doctoral scholars university teaching personnel and policy makers as well as members of higher academic research organizations will all discover this book to be an indispensable guide to Green Information and Communication Systems It will also serve as a key resource for Industrial and Management training organizations all over the world

The Green Edit: Home Kezia Neusch, 2020-09-10 Create a happy beautiful and eco friendly home Having a

happy healthy home is a key part of our wellbeing but how do we ensure the pursuit of our perfect living space doesn't negatively impact on the environment Blogger and low waste expert Kezia Neusch provides simple swaps and genius hacks to help you reduce your household's ecological footprint covering everything from how to break up with your tumble dryer and why your mid morning snack might be harming the planet This book contains everything you need to know to create a sustainable home for you and your family *Sustainable Homes* Centaur Media,2014-07-01 Whether you are a self builder or keen renovator this digital book has condensed some of the key articles featured in Homebuilding Renovating magazine to bring you the most informative and valuable information providing everything you need to know about how to achieve a home as energy conscious as you are **Green Living For Dummies** Yvonne Jeffery,Liz Barclay,Michael Grosvenor,2008-04-15 Want to do your part to reduce energy consumption waste and pollution clean up the environment and save the planet Green Living For Dummies is packed with practical suggestions you can follow to make your lifestyle greener by doing as little damage as possible to the planet and the animal and plant life that depend on it This practical guide delivers an array of realistic practices and changes you can undertake to help the environment and create a better home for yourself and your loved ones You'll discover easy and innovative ways to make a difference by reducing energy use and waste scaling back reliance on your car and even making minor adjustments to your diet You'll also find how to live green at work and in your community and you'll develop a deeper understanding of how these changes benefit both the environment and your own health and well being Discover how to Go green gradually Make eco friendly home improvements Work greener transportation into your lifestyle Save money by going green Eat locally and organically Raise your children's environmental awareness Reduce waste by repairing restoring and reusing Become a green consumer Invest in green companies for fun and profit Complete with handy lists of things you can do to make a difference right away and down the road Green Living For Dummies is the resource you need to start taking steps toward shrinking your footprint **Choosing Green** Jerry Yudelson,2008-05-01 Energy efficient non toxic healthy homes are the hottest trend in the building industry Homebuilders are constructing green homes in astonishing numbers nearly 200 000 in the US alone in 2006 How does a home buyer who wants a green home know what to look for what questions to ask a builder which green home rating systems to trust and what homes are on the market Nationally recognized green building expert Jerry Yudelson provides answers to some common areas of concern including Energy efficient home features Water conservation fixtures Non toxic finishes Green products Healthy indoor air Drawing from the expertise of dozens of homebuilders government officials and green home experts Choosing Green deftly takes the reader through these considerations with easy to use tables charts maps score sheets and checklists The book includes a glossary of green building terms an extensive resource section and a list of homebuilders green rating programs and financial incentives This comprehensive book provides homebuyers with everything they will need to make a successful search for their own green home *The New Rules of Green Marketing* Jacquelyn

Ottman,2017-10-19 For too long marketers of sustainable goods and services have targeted deep green consumers to promote their products and they have little to show for their efforts In this innovative book Jacquelyn Ottman shows how the green market has moved beyond such niche marketing and how marketers will find greater success promoting the inherent superior value of their offerings Greener products are now available within every industry and are a part of our everyday lives But they didn't get to be so ubiquitous just because they are better for the planet Whether they were promoted as such or not sales of green products have grown so fast because of the added value they provide health superior performance good taste cost effectiveness or simply convenience This central emphasis on primary benefits the new rules is critical to winning over the mainstream consumer and to driving overall organizational growth The New Rules of Green Marketing helps readers understand why value based sustainability marketing has become a critical organizational capacity and how readers can adopt this approach in their own organizations Illustrated by examples from both international mainstream and the more niche deep green leaders who are showing everyone else the way the book provides practical strategies tools and inspiration for building every aspect of a credible value based green marketing strategy including How to use a proactive approach to sustainability to spur innovation How to frame environment related benefits with relevance to mainstream brands How to communicate with credibility and impact and avoid greenwashing How to team up with stakeholders to maximize outreach to consumers How to use a life cycle orientation to ensure the integrity of one's offerings How to best take advantage of recent technological advances in social media Drawing on the latest data from leading researchers and reflecting on learnings from Ottman's corporate clients and other pioneers including GE Nike HSBC Method Starbucks Timberland HP NatureWorks Philips Procter Gamble Stonyfield Farm and Wal Mart this book shows how market leaders are edging out the competition using effective value first marketing strategies This book captures the best of the author's previous groundbreaking books on green marketing and takes the content into the 21st century Whereas earlier works focused on readers who were less familiar with green initiatives this work squarely focuses on a new generation of marketers who likely themselves grew up with an appreciation of sustainability and who want and need to know how to connect effectively with mainstream consumers

Book Review Index - 2009 Cumulation Dana Ferguson,2009-08 Book Review Index provides quick access to reviews of books periodicals books on tape and electronic media representing a wide range of popular academic and professional interests The up to date coverage wide scope and inclusion of citations for both newly published and older materials make Book Review Index an exceptionally useful reference tool More than 600 publications are indexed including journals and national general interest publications and newspapers Book Review Index is available in a three issue subscription covering the current year or as an annual cumulation covering the past year *Your Eco-Friendly Home* Sid DAVIS,2008-11-12 More and more people are becoming interested not just in living green but particularly in living in a home that's ecologically sound With thousands of new eco minded houses being built and the real estate market becoming more attuned to home buyers

interests demand for ecologically efficient living spaces is still exceeding the supply Yet few resources exist for those wanting to build buy or remodel their own home to use less energy and be environmentally sensitive Your Eco Friendly Home shows readers how they can find finance and buy eco friendly real estate work with eco conscious agents and brokers use environmentally friendly materials and techniques for interiors and exteriors make their homes and landscaping more efficient take advantage of tax incentives for going green This practical reader friendly guide gives readers all the guidance they need to easily become ecologically responsible homeowners *Green Restorations* Aaron Lubeck, 2010-01-01 Some 40 percent of North Americans live in homes built prior to 1940 and when it comes time to remodel or restore our older homes homeowners and contractors can find themselves lost in a morass of wildly divergent information and opinion With *Green Restorations* author Aaron Lubeck brings his expertise as a restoration contractor and preservation consultant to this first of its kind guide leading the reader through the steps for restoring historic building using sustainable practices and green building techniques In a readily accessible room by room and system by system format *Green Restorations* covers rehabilitation and remodelling questions applicable to old homes focusing on the core techniques and debates often seen in practice Here you ll find the answers to restoration questions such as Is sealing my old crawl space a good idea Should I replace or rehabilitate my windows Are there historic aspects of my home I need to preserve and what can I change What are the cultural environmental and financial implications of my proposed changes Do residential historic tax credits apply to my home and how can I access them Written in such a way as to be accessible for homeowners but technical enough for contractors this book will appeal to anyone trying to green an older home while preserving its historic and cultural significance
