Long ago, many Irish people made their new home in America. They soon began a tradition of honoring St. Patrick, the patron saint of Ireland who helped the Irish people. They celebrated the Irish culture with music, food, dance, and the "wearing of the green." Even water is dyed green for the day. Shamrocks, pots of gold and leprechauns are all symbols of St. Patrick's Day. Be sure to wear green on March 17th or you may get pinched!

Mount St. Helens, a volcano in Washington State, has long been called the "Smoking Mountain" by Native Americans. In 1980, this volcano erupted, blowing the top off the mountain, killing almost all plant and animal life, and melting snow and ice from glaciers. But small plants under the snow survived, soon the wind began to blow in small creatures such as beetles and spiders, and fish have slowly returned to the waters. New trees are growing once again from buried seeds and roots.

Honeybees live and work in colonies. The queen bee, workers and drones all have important jobs. Worker bees gather pollen from flowers, fruits and vegetables to make their honey. They also spread pollen to other plants which helps them grow. One-third of all the food in the world is pollinated by honeybees, but the bees are beginning to disappear because of "colony collapse." Scientists are not sure what causes this and worry that too many honeybees will disappear.

Eleven-year old Frank Epperson accidentally invented the popsicle when he made a fruit flavored drink, stirred it with a stick, and left it outside on a cold winter night. The next day, he had fun showing it to his friends, and then forgot all about it. But when Frank grew up, he began to think about his "frozen ice on a stick," and wondered if people would enjoy this unusual and delicious treat. So, he set up a business to make and sell his unexpected discovery.
