Infinite Conversation Theory And History Of Literature:

Infinite Conversation Maurice Blanchot, 1992-12-16 In this landmark volume Blanchot sustains a dialogue with a number of thinkers whose contributions have marked turning points in the history of Western thought and have influenced virtually all the themes that inflect the contemporary literary and philosophical debate today Blanchot waits for us still to come to be read and reread I would say that never as much as today have I pictured him so far ahead of us Jacques Derrida Blake and Conflict S. Haggarty, J. Mee, 2008-11-28 Famously Blake believed that without contraries there could be no progression Conflict was integral to his artistic vision and his style but it had more to do with critical engagement than any urge to victory The essays in this volume look at conflict as it marked Blake's thinking on politics religion and the visual arts

Romanticism, Hermeneutics and the Crisis of the Human Sciences Scott Masson, 2017-11-28 The human sciences established and developed in the nineteenth century have slowly disintegrated It is an ironic end It was in the name of the greater legitimacy of more universal psychological criteria that its architects disavowed the traditional theological standard for valuing and evaluating human words and deeds With hindsight we can see that universality was indeed gained but only at the cost of alienating any sense of common legitimacy Harold Bloom defending the canon largely in the humanising moral sense convention of critics operating since Matthew Arnold has resolutely maintained the common legitimacy of aesthetic value against the claims of particular interest groups But the very universality attached to aesthetic value is at odds with the world of common sense and thus lies at the root of the problem To complicate matters this universality has been understood as a traditional criterion A more radical treatment of the subject is needed This study begins by surveying the field of modern hermeneutics Noting its repeated crises of self-legitimation it traces these to circular beliefs bequeathed by Romanticism that human nature is self-begetting and can thus be known intimately and autonomously After providing a historical overview of how human nature had been understood the focus shifts to the attack in Coleridge's *Biographia Literaria* on Wordsworth's 1802 Preface to *Lyrical Ballads* and to a reading of some key Romantic texts It reads Coleridge's famous definition of the imagination as an attack on Romantic hermeneutics rooted in the traditional view that man has been created in *Imago Dei*

The Ethics of Witness Xiao Cai, 2018-10-10 This book explores the aesthetic and ethical ways in which history and daily life are filmically represented and witnessed in Taiwanese director Hou Hsiao-hsien's movies From the era of the Japanese Occupation to the White Horror and then to the lifting of martial law the author shows how Hou Hsiao-hsien uses visual media to evoke the rhythms of daily life through the emotional memory of the characters and communities he explores In particular the book focuses on the ways in which Hou Hsiao-hsien seeks to reflect the strong dilemmas of identity and the

traumatic emotions associated with witnessing history Taking an interdisciplinary approach it investigates the concepts of daily life representation and historical trauma in order to focus on how these films represent history and political trauma through the nature of daily life and personal memories and the resulting historical responsibility and ethics This is the first academic monography about Hou Hsiao hsien s films

Memory in Shakespeare's Histories Jonathan Baldo,2011-12-22 A distinguishing feature of Shakespeare s later histories is the prominent role he assigns to the need to forget This book explore the ways in which Shakespeare expanded the role of forgetting in histories from King John to Henry V as England contended with what were perceived to be traumatic breaks in its history and in the fashioning of a sense of nationhood For plays ostensibly designed to recover the past and make it available to the present they devote remarkable attention to the ways in which states and individuals alike passively neglect or actively suppress the past and rewrite history Two broad and related historical developments caused remembering and forgetting to occupy increasingly prominent and equivocal positions in Shakespeare s history plays an emergent nationalism and the Protestant Reformation A growth in England s sense of national identity constructed largely in opposition to international Catholicism caused historical memory to appear a threat as well as a support to the sense of unity The Reformation caused many Elizabethans to experience a rupture between their present and their Catholic past a condition that is reflected repeatedly in the history plays where the desire to forget becomes implicated with traumatic loss Both of these historical shifts resulted in considerable fluidity and uncertainty in the values attached to historical memory and forgetting Shakespeare s histories in short become increasingly equivocal about the value of their own

Darren Aronofsky's Films and the Fragility of Hope Jadranka

Skorin-Kapov, 2015-11-19 Darren Aronofsky's Films and the Fragility of Hope offers the first sustained analysis of the current oeuvre of the film director screenwriter and producer Darren Aronofsky. Including Pi (1998), Requiem for a Dream (2000), The Fountain (2006), The Wrestler (2008), Black Swan (2010), and Noah (2014), Aronofsky's filmography is discussed with respect to his style and the themes of his films, making astute connections with the work of other directors, other movies, and works of art, and connecting his films with other disciplines such as math, philosophy, psychology, and art history. Jadranka Skorin-Kapov deploys her background in philosophy and math to analyze an American filmmaker with an individual voice working on both independent productions and big budget Hollywood films. Aronofsky is revealed to be a philosopher's director, considering the themes of life and death, addiction and obsession, sacrifice and the fragility of hope. Skorin-Kapov discusses his ability to visually present challenging intersections between art and philosophy. Concluding with a transcript of a conversation between the author and Aronofsky himself, Darren Aronofsky's Films and the Fragility of Hope is a much needed study on this American auteur.

The Social Life of Fluids

Jules David Law, 2018-07-05 British Victorians were obsessed with fluids, with their scarcity and with their omnipresence. By the mid-nineteenth century, hundreds of thousands of citizens regularly petitioned the government to provide running water and adequate sewerage, while scientists and journalists fretted over the circulation of bodily fluids. In *The Social Life of Fluids*, Jules Law traces the fantasies of power and anxieties of identity precipitated by these developments as they found their way into the plotting and rhetoric of the Victorian novel. Analyzing the expression of scientific understanding and the technological manipulation of fluids—blood, breast milk, and water—in six Victorian novels by Charles Dickens, George Eliot, George Moore, and Bram Stoker, Law traces the growing anxiety about fluids in Victorian culture from the beginning of the sanitarian movement in the 1830s through the 1890s. Fluids, he finds, came to be regarded as the most alienable aspect of an otherwise inalienable human body and paradoxically as the least rational element of an increasingly rationalized environment. Drawing on literary and feminist theory, social history, and the history of science and medicine, Law shows how fluids came to be represented as prosthetic extensions of identity, exposing them to contested claims of kinship and community and linking them inextricably to public spaces and public debates.

Philosophical Baroque Erik S. Roraback, 2017-04-18 In his pioneering study *The Philosophical Baroque*, On Autopoietic Modernities, Erik S. Roraback argues that modern culture, contemplated over its four-century history, resembles nothing so much as the pearl famously described by periodizers of old as irregular baroque. Reframing modernity as a multi-century baroque, Roraback steepens texts by Shakespeare, Henry James, Joyce, and Pynchon in systems theory and the ideas of philosophers of language and culture from Leibniz to such dynamic contemporaries as Luhmann, Benjamin, Blanchot, Deleuze, and Guattari. Lacan and Iek. The resulting brew, high in intellectual caffeine, will be of value to all who take an interest in cultural modernity; indeed, all who recognize that modernity was and remains a congeries of competing aesthetic, economic,

novels are charged relational fields Closely reading novels by George Eliot and Thomas Hardy Christoff shows that traditional understandings of Victorian fiction change when we fully recognize the object relations of reading It is not by chance that British psychoanalysis illuminates underappreciated aspects of Victorian fiction so vibrantly Victorian novels shaped modern psychoanalytic theories of psyche and relationality including the eclipsing of empire and race in the construction of subject Relational reading opens up both Victorian fiction and psychoanalysis to wider political and postcolonial dimensions while prompting a closer engagement with work in such areas as critical race theory and gender and sexuality studies The first book to examine at length the connections between British psychoanalysis and Victorian fiction *Novel Relations* describes the impact of literary form on readers and on twentieth and twenty first century theories of the subject **Poetry, the**
