 imaginative and comprehensive study Edward Casey one of the most incisive interpreters of the Continental philosophical
 tradition offers a philosophical history of the evolving conceptualizations of place and space in Western thought Not merely a
 presentation of the ideas of other philosophers The Fate of Place is acutely sensitive to silences absences and missed
 opportunities in the complex history of philosophical approaches to space and place A central theme is the increasing neglect
 of place in favor of space from the seventh century A D onward amounting to the virtual exclusion of place by the end of the
 eighteenth century Casey begins with mythological and religious creation stories and the theories of Plato and Aristotle and
 then explores the heritage of Neoplatonic medieval and Renaissance speculations about space He presents an impressive
 history of the birth of modern spatial conceptions in the writings of Newton Descartes Leibniz and Kant and delineates the
 evolution of twentieth century phenomenological approaches in the work of Husserl Merleau Ponty Bachelard and Heidegger
 In the book s final section Casey explores the postmodern theories of Foucault Derrida Tschumi Deleuze and Guattari and

 provides an account of how we acquire everyday mathematical natural scientific religious and ethical knowledge Rejecting
 the theory that some knowledge is innate he argues that it derives from sense perceptions and experience as analysed and
 developed by reason While defending these central claims with vigorous common sense he offers many incidental reflections

 , 1894 **Cogito and the Unconscious** Slavoj Zizek, 1998-04-08 The Cartesian cogito the principle articulated by Descartes
 that I think therefore I am is often hailed as the precursor of modern science At the same time the cogito s agent the ego is
 sometimes feared as the agency of manipulative domination responsible for all present woes from patriarchal oppression to
 ecological catastrophes Without psychoanalyzing philosophy Cogito and the Unconscious explores the vicissitudes of the
 cogito and shows that psychoanalyses can render visible a constitutive madness within modern philosophy the point at which
 I think therefore I am becomes obsessional neurosis characterized by If I stop thinking I will cease to exist Noting that for
 Lacan the Cartesian construct is the same as the Freudian subject of the unconscious the contributors follow Lacan s plea for
 a psychoanalytic return to the cogito Along the path of this return they examine the ethical attitude that befits modern

subjectivity the inherent sexualization of modern subjectivity the impasse in which the Cartesian project becomes involved given the enigmatic status of the human body and the Cartesian subject's confrontation with its modern critics including Althusser Bataille and Dennett In a style that has become familiar to i ek's readers these essays bring together a strict conceptual analysis and an approach to a wide range of cultural and ideological phenomena from the sadist paradoxes of Kant's moral philosophy to the universe of Ayn Rand's novels from the question Which if any is the sex of the cogito to the defense of the cogito against the onslaught of cognitive sciences Challenging us to reconsider fundamental notions of human consciousness and modern subjectivity this is a book whose very Lacanian orthodoxy makes it irreverently transgressive of predominant theoretical paradigms Cogito and the Unconscious will appeal to readers interested in philosophy psychoanalysis cultural studies and theories of ideology Contributors Miran Bozovic Mladen Dolar Alain Grosrichard Marc de Kessel Robert Pfaller Renata Salecl Slavoj i ek Alenka Zupancic Parochial Sermons Edward Bouverie Pusey, 1853
