Information Systems And E Business Technologies Information Systems And E Business Technologies:

Information Systems and e-Business Technologies Roland Kaschek, Christian Kop, Claudia Steinberger, Günther Fliedl, 2008-04-19 This book constitutes the refereed proceedings of UNISCON 2008 held in Klagenfurt Austria during April 22-25, 2008. UNISCON combines the ECOMO workshop series and the ISTA conference series. The 19 papers dealing with conceptual modeling, model-driven software development and information systems applications represent a 30% selection from the original set of submissions. They are completed by two keynote lectures and 35 papers from internationally renowned researchers invited in honor of Heinrich C. Mayr whose 60th birthday is also celebrated at this event that he originally created. Impact of E-Business Technologies on Public and Private Organizations: Industry Comparisons and Perspectives Bak, Ozlem, Stair, Nola, 2011-03-31 This book assesses the impact of e-business technologies on different organizations which include higher education institutions, multinational automotive corporations and health providers. Provided by publisher. Technology, Innovation, and Enterprise Transformation Wadhwa, Manish, Harper, Alan, 2014-09-30 Technical advancements are an important part of modern society but particularly important in the business world. The success or failure of business operations can be affected by the technical operations working within it. Technology, Innovation and Enterprise Transformation addresses the crucial relationship between a business and its technical implementations and how current innovations are changing how the industry operates. Highlighting current theoretical frameworks, novel empirical research discoveries and fundamental literature surveys, this book is an essential reference source for academicians, professionals and researchers who are interested in the latest technical insights within the business field. Database Technologies: Concepts, Methodologies, Tools, and Applications Erickson, John, 2009-02-28 This reference expands the field of database technologies through four volumes of in-depth advanced research articles from nearly 300 of the world's leading professionals. Provided by publisher. **E-business Technology and Strategy** Marzia Zaman, Yawei Liang, Sohail M. Siddiqui, Tim Wang, Vincent Liu, Ceecee Lu, 2010-09-27 The International Conference on E-business Technology Strategy (CETS) provides a peer-reviewed forum for researchers from across the globe to share contemporary research on developments in the fields of e-business, information technology and business strategy. It seeks to promote effective and vibrant networking among researchers and practitioners from around the world who are concerned about the effective management of information technology in organizations. This network of researchers views fostering the development of emerging scholars in the information technology and e-business fields as its primary task. Consequently, the conference is designed to provide a venue for researchers to get substantive and beneficial feedback on their work. There were 134 contributions submitted to CETS 2010. After in-depth discussions, 29 high-quality contributions were selected for publication in this volume. The authors are from Canada, USA, China, Japan, India and Malaysia. We thank all the authors who submitted papers, the Program Committee members and the external reviewers. We also thank all the local people who were

instrumental in making this edition of CETS another very successful event In particular we are very grateful to Ying Xie who was responsible for the local arrangements Special gratitude goes to the publishing editor Leonie Kunz who managed the complexity of information and communication aspects Furthermore we thank the many students who volunteered on the organization team as well as the IT services of Carleton University
