Information About Uzere Community:

History of the Urhobo People of Niger Delta Peter Palmer Ekeh, Urhobo Historical Society, 2007 History of The Urhobo People of Niger Delta is the most comprehensive compilation and study of various aspects of the history of the Urhobo people of Nigeria's Niger Delta. It begins with an examination of the prehistory of the region with particular focus on the Urhobo and their close ethnic neighbour the Isoko. The book then embarks on a close assessment of the advent of British imperialism in the Western Niger Delta. History of The Urhobo People of Niger Delta also probes the arrival and impact of Western Christian missions in Urhoboland. Urhobo history is notable for the sharp challenges that the Urhobo people have faced at various points of their existence in the rainforest and deltaic geographical formation of Western Niger Delta. Their history of migrations and their segmentation into twenty-two cultural units were in large part efforts aimed at overcoming these challenges. History of The Urhobo People of Niger Delta includes an evaluation of modern responses to challenges that confront the Urhobo people following the onrush of a new era of European colonization and introduction of a new Christian religion into their culture. The formation of Urhobo Progress Union and of its educational arm of Urhobo College is presented as the Urhobo response to modern challenges facing their existence in Western Niger Delta and Nigeria. History of The Urhobo People of Niger Delta extends its purview to various other fragments of the Urhobo historical and cultural experience in modern times. These include the difficulties that have arisen from petroleum oil exploration in the Niger Delta in post-colonial Nigeria. *Tell*, 2007 *The Information Technologist*, 2005 [Untold Histories of Nigerian Women](#) Tayo Agunbiade, 2023-12-07 This book is a curation of insightful and engaging narrations aimed at freeing women from the margins of Nigeria's history. It chronicles their protest movements against colonial administrations including monster petitions on taxation and food price controls. It details a string of remarkable political landmarks which highlight women's historical credentials as nationalists as well as their voice in early male-dominated legislative institutions. It also narrates more contemporary episodes in women's resistance against oil exploitation, environmental pollution and anger over the mass abduction of school girls. This timely preservation of the voice and agency of Nigerian women from a wide variety of colonial and contemporary documents will benefit readers interested in African history and gender and women's studies. *The Crippled Giant* Eghosa E. Osaghae, 1998-10-22 *Crippled Giant* is an excellent summary of Nigerian political history. The work is notable for even-handed analysis of both history and theory. The result is an introduction of the highest quality to the study of Nigerian politics. *African Studies Review* Osaghae, an academic with a refreshingly neutral and understated approach to the maddening follies of his government, has produced a highly readable overview of Nigeria's politics, economy and foreign relations. Rich in detail, his account is also a useful tour of earlier thematic treatments of the subject. *Foreign Affairs* well-written coherent narrative and thoughtful balanced analysis of Nigeria's political history from 1960 to 1996. A. H. M. Kirk Greene, St Antony's College, Oxford. Eghosa Osaghae's study leads him to the conclusion that Nigeria's problems are not of

recent making but can be traced to structural impediments from colonial times **Communicate** ,2006 **African Handbook of Climate Change Adaptation** Nicholas Ogue,Desalegn Ayal,Lydia Adeleke,Izrael da Silva,2021-05-20 This open access book discusses current thinking and presents the main issues and challenges associated with climate change in Africa It introduces evidences from studies and projects which show how climate change adaptation is being and may continue to be successfully implemented in African countries Thanks to its scope and wide range of themes surrounding climate change the ambition is that this book will be a lead publication on the topic which may be regularly updated and hence capture further works Climate change is a major global challenge However some geographical regions are more severely affected than others One of these regions is the African continent Due to a combination of unfavourable socio economic and meteorological conditions African countries are particularly vulnerable to climate change and its impacts The recently released IPCC special report Global Warming of 1.5o C outlines the fact that keeping global warming by the level of 1.5o C is possible but also suggested that an increase by 2o C could lead to crises with crops agriculture fed by rain could drop by 50% in some African countries by 2020 and livestock production could damage water supplies and pose an additional threat to coastal areas The 5th Assessment Report produced by IPCC predicts that wheat may disappear from Africa by 2080 and that maize a staple will fall significantly in southern Africa Also arid and semi arid lands are likely to increase by up to 8% with severe ramifications for livelihoods poverty eradication and meeting the SDGs Pursuing appropriate adaptation strategies is thus vital in order to address the current and future challenges posed by a changing climate It is against this background that the African Handbook of Climate Change Adaptation is being published It contains papers prepared by scholars representatives from social movements practitioners and members of governmental agencies undertaking research and or executing climate change projects in Africa and working with communities across the African continent Encompassing over 100 contributions from across Africa it is the most comprehensive publication on climate change adaptation in Africa ever produced *New Religious Movements in Nigeria* Rosalind I. J. Hackett,1987 This collection of essays focuses particularly on new religions that have emerged in Nigeria in the period of diversification and change that has elapsed since the civil war of 1967-1970 **The Isoko Ethnic Nationality** Endurance O. Edafewotu,2019-11-09 The book *The Isoko Ethnic Nationality In Time Perspective* is a concerted effort at interrogating the history and cultural practices of the mega Isoko clans with a concomitant foray into a concise discussion of the mini groups outside the main shores of Isoko The approach of the author is novel and commendable The author availed himself with existing literatures and interpreted same within the limit of new sources The strong point of this work is the effort of the author in trying to weave the history of the Isoko people from the perspective of being one as epitomized by their intra group relations The view is that the Isoko were are not a disparate ethnic nationality The language of the author is acceptable and the font reader friendly The book is also illustrated with photographs The book is recommended for scholars administrators and all those truly committed to understanding who we

are where we are coming from where we are and what the future holds for us Corruption and Environmental Law

Convergence: English and Nigerian Languages Ndimele, Ozo-mekuri, 2016-02-22 The present volume which is the 5th in the Nigerian Linguists Festschrift Series is devoted to Professor Munzali A Jibril a celebrated icon in university administration and an erudite Professor of English Linguistics The title of this special edition was specifically chosen to crown Professor Jibril's academic prowess in both English and indigenous Nigerian languages and to mark and laud his official departure from active university lectureship 72 assessed papers are included from the many submitted Papers cover the main theme of the volume i.e the interaction between English and indigenous Nigerian languages and there are a number of papers on other secular areas of linguistics such as language and history language planning and policy language documentation language engineering lexicography translation gender studies language acquisition language teaching and learning pragmatics discourse and conversational analysis and literature in English and African languages There is also a rich section devoted to the major traditional fields of linguistics phonology morphology syntax and semantics *Christian Churches and Nigeria's Political Economy of Oil and Conflict* Nkem Emerald Osuigwe, 2014-09-18 The received account on African evangelical Christianity regarding social witness in a section of Western scholarship is that it is anti development and a political Such an account heavily draws from an instrumentalist and functionalist assessment of such Christianity without recourse to its emic perspective Using the case study method this book presents an ethnographic examination of this functionalist reading by investigating describing and analysing evangelical Christian theological and socio political consciousness within the context of oil and conflict in Nigeria's Niger Delta region Adopting approaches from practical theology congregational studies and anthropology of religion the author challenges such a reading using data gathered from three congregations in the region His discourse revolves around answers to the following four critical questions What are the underlying theological issues and beliefs of Nigerian evangelical Christians within the context of oil and conflict What is their prevalent praxis within the context of Nigeria's political economy of oil and conflict How accurate is the received account that African evangelical and fundamentalist Christianity lacks social responsibility and is a political and anti development What would a contextual political theology for Nigeria's political economy of oil look like The theological issues are varied

and the prevalent praxis nuanced which then serves as a veritable critique of the claim that African evangelical Christianity lacks social responsibility due to its preoccupation with soul winning Whereas such Christianity places much emphasis on the winning of souls as an expression of its spirituality it is neither oblivious nor indifferent to its socio political milieu Rather it sees such spirituality as a form of political praxis Some of the trajectories of the spirituality include a theology of conversion a theology of prayer and an ethics of crude oil with Total Freedom as the nomenclature for the specific theological perspective offered for Nigeria s political economy of oil While locating this theological perspective within the taxonomy of Liberation Theology the affinity and dissonance between the two are identified *Before I Am Hanged* Onookome Okome,2000 This is an extensive study of Kenule Saro Wiwa the Ogoni Minority and Human Rights activist who was judicially murdered in 1995 Questions of nationhood ethnic minority and power politics in Nigeria are discussed in a collection of essays that examine the corpus of his literary and political ideas pointing out the direction of his thought and the enduring contribution that Sara Wiwa made to Nigeria s literary and political arenas
