Language Arts ELA teachers who want to expand their teaching abilities and knowledge bases **Children's Ways with Science and Literacy** Maria Varelas,Christine C. Pappas,2013-05-07 Science is often a forgotten subject in early elementary grades as various mandates require teachers to focus on teaching young students to achieve specific reading and mathematical competencies This book offers specific examples and empirical evidence of how integrated science literacy curriculum and teaching in urban primary grade classrooms give students opportunities to learn science and to develop positive images of themselves as scientists The Integrated Science Literacy Enactments ISLE approach builds on multimodal multidimensional and dialogically oriented teaching and learning principles Readers see how as children engage with texts material objects dialogue ideas and symbols in their classroom community they are helped to bridge their own understandings and ways with words and images with those of science In doing so they become learners of both science and literacy The book features both researcher and teacher perspectives It explores science learning and its intersection with literacy development in schools that educate predominately children of color many of whom struggle with poverty and have been traditionally underestimated underserved and underrated in science classrooms In all these ways this volume is a significant contribution to a critically under researched area of science education **A Close Look At Close Reading**

Diane Lapp,Barbara Moss,Maria Grant,Kelly Johnson,2015-01-29 The Common Core State Standards have put close reading in the spotlight as never before While elementary school teachers are certainly willing to teach students to closely read both literary and informational text many are wondering what exactly this involves Is there a process to follow How is close reading different from guided reading or other common literacy practices How do you prepare students to have their ability

to analyze complex texts measured by Common Core assessments Is it even possible for students in grades K 5 to read to learn when they re only just learning to read Literacy experts Diane Lapp Barbara Moss Maria Grant and Kelly Johnson answer these questions and more as they explain how to teach young learners to be close readers and how to make close reading a habit of practice in the elementary classroom Informed by the authors extensive field experience and enriched by dozens of real life scenarios and downloadable tools and templates this book explores Text complexity and how to determine if a particular text is a right for your learning purposes and your students The process and purpose of close reading in the elementary grades with an emphasis on its role in developing the 21st century thinking speaking and writing skills essential for academic communication and required by the Common Core How to plan teach and manage close reading sessions across the academic disciplines including the kinds of questions to ask and the kinds of support to provide How to assess close reading and help all students regardless of linguistic cultural or academic background connect deeply with what they read and derive meaning from a complex text Equipping students with the tools and process of close reading sets them on the road to becoming analytical and critical thinkers and empowered and independent learners In this comprehensive resource you ll find everything you need to start their journey

**Teaching Literacy in Second Grade** Jeanne R. Paratore, Rachel L. McCormack, 2005-05-13 Second grade classrooms are exciting places to visit Children are consolidating their growing reading and writing expertise exploring new genres and becoming more effective communicators This book takes the reader into several exemplary second grade classrooms to demonstrate what teachers can do to optimize literacy learning for their students Highlights include how to set appropriate short and long term goals for individual students ways to plan instruction to meet those goals and innovative ideas for partnering with parents

On Developing Readers Marge Scherer, 2016-04-15 This collection of articles on the teaching of reading pulls together some of the best and most clicked on articles on reading that Educational Leadership has published in the past few years from more than a dozen of the most respected experts in the field including Richard L Allington Nell K Duke and Sally E Shaywitz The articles cover what research says about the teaching of both reading and reading comprehension from teaching phonics to improving fluency to tackling complex texts On Developing Readers offers strategies for teaching informational texts as well as fiction Most important it also addresses how to inspire the love of reading

The Essential 25 Marilee Sprenger, 2021-07-06 Determine the main idea of a text and explain how it is supported by key details summarize the text Your students may recognize the words determine explain and summarize in this standard but would they understand and be able to apply these concepts Students encounter these and other academic vocabulary words throughout their school years but too often they don t have a firm grasp of these words meanings or what skills they require Enter vocabulary expert Marilee Sprenger who has curated a list of 25 essential high frequency words that students must know to be academically successful especially on standardized tests and be ready for college and career In this indispensable guide for all educators she provides Pre and post assessments to help you evaluate

your students understanding of the essential 25 A detailed entry for each word including activities and strategies that will help students internalize the word s meaning and application Retrieval games to help students practice the words in fun engaging ways and reinforce the networks for those words in their brains Downloadable blank templates for many of the strategies used throughout the book Every student needs to know and understand these words to perform at their best If educators get behind this effort and make the essential 25 part of the fabric of their schools students will be equipped to thrive in school and beyond
