Injustice And Restitution The Ordinance Of Time:

Injustice and Restitution Stephen David Ross, 1993-09-28 This book addresses the nature and injustice of authority retracing the ideas of reason and law from ancient Greece to the present pursuing a line of thought begun with Anaximander who speaks of the ordinance of time as restitution for immemorial injustice and Heraclitus who speaks of justice as strife Predominantly philosophical exploring the authority of Western philosophy in twentieth century continental and pragmatist writings the book explores alternative voices as challenges to authority in feminist and multicultural writings in Greek mythology and African narratives in Greek drama and twentieth century literature Postmodernism and the Holocaust

, 2021-10-25 This book is the first sustained inquiry into the ways in which postmodern thinkers have grappled with the historical bases implications and methodological problems of the Holocaust The book examines the thinking of Arendt Levinas Foucault Lyotard and Derrida all of whom have recognized the centrality of the Nazi genocide to the epoch in which we live The essays written for this volume constitute a wide ranging study of the efforts of postmodernism to articulate the Holocaust **The Idea of Communism** Costas Douzinas, Slavoj Zizek, 2020-05-05 Do not be afraid join us come back You've had your anti communist fun and you are pardoned for it time to get serious once again Slavoj Zizek Responding to Alain Badiou's communist hypothesis the leading political philosophers of the Left convened in London in 2009 to take part in a landmark conference to discuss the perpetual persistent notion that in a truly emancipated society all things should be owned in common This volume brings together their discussions on the philosophical and political import of the communist idea highlighting both its continuing significance and the need to reconfigure the concept within a world marked by havoc and crisis

Law, Violence, and the Possibility of Justice Austin Sarat, 2018-06-05 Law punishes violence yet law depends on violence In this book a group of leading interdisciplinary legal scholars seeks to map the inexorable but unstable relationship of law to violence What does it mean to talk about the violence of law Do high incarceration rates and increased reliance on capital punishment indicate that U S law is growing more violent at a time when violence is being restrained in other legal systems How is the violence of law represented in popular culture and does this affect law's actual legitimacy Does violence express or distort the essence of law Does law's violence serve justice In deeply original essays the authors build on the seminal work of Robert Cover one of the few legal scholars ever to consider the question of law and violence In striving to situate his insights within current political social economic and cultural contexts they contemplate diverse and interrelated subjects surrounding the theme of law and violence Among these are the purpose of law as punishment the increasing number of executions in the United States prison violence racial disparity in sentencing and the meaning of torture The result is a remarkable volume that stimulates us to reconsider connections that we too often leave unexplored In addition to the editor the contributors are Marianne Constable Peter Fitzpatrick Thomas R Kearns Peter Rush Jonathan Simon Shaun McVeigh and Alison Young Plenishment in the Earth Stephen David Ross, 1995-01-01 This book is an ethic of inclusion

leading from gender and sexual difference through the social world of race and culture to the natural world The End of Human Rights Costas Douzinas, 2000-06-01 The introduction of the Human Rights Act has led to an explosion in books on human rights yet no sustained examination of their history and philosophy exists in the burgeoning literature At the same time while human rights have triumphed on the world stage as the ideology of postmodernity our age has witnessed more violations of human rights than any previous less enlightened one This book fills the historical and theoretical gap and explores the powerful promises and disturbing paradoxes of human rights Divided in two parts and fourteen chapters the book offers first an alternative history of natural law in which natural rights represent the eternal human struggle to resist domination and oppression and to fight for a society in which people are no longer degraded or despised At the time of their birth in the 18th century and again in the popular uprisings of the last decade human rights became the dominant critique of the conservatism of law But the radical energy symbolic value and apparently endless expansive potential of rights has led to their adoption both by governments wishing to justify their policies on moral grounds and by individuals fighting for the public recognition of private desires and has undermined their ends Part Two examines the philosophical logic of rights Rights the most liberal of institutions has been largely misunderstood by established political philosophy and jurisprudence as a result of their cognitive limitations and ethically impoverished views of the individual subject and of the social bond The liberal approaches of Hobbes Locke and Kant are juxtaposed to the classical critiques of the concept of human rights by Burke Hegel and Marx The philosophies of Heidegger Strauss Arendt and Sartre are used to deconstruct the concept of the legal subject Semiotics and psychoanalysis help explore the catastrophic consequences of both universalists and cultural relativists when they become convinced about their correctness Finally through a consideration of the ethics of otherness and with reference to recent human rights violations it is argued that the end of human rights is to judge law and politics from a position of moral transcendence This is a comprehensive historical and theoretical examination of the discourse and practice of human rights Using examples from recent moral foreign policies in Iraq Rwanda and Kosovo Douzinas radically argues that the defensive and emancipatory role of human rights will come to an end if we do not re invent their utopian ideal **The Gift of Kinds** Stephen David Ross, 1999-09-16 Explores the idea of human and natural kinds pursuing an ethics of the earth responsive to social political and environmental issues *Proceedings and Addresses of the American Philosophical Association* American Philosophical Association, 1993 **Encountering the Other(s)** Gisela Brinker-Gabler, 1995-03-09 Europe and the United States now confront many of the same unresolved issues of nationalist religious racial and ethnic intolerance The book addresses the question How can the humanistic disciplines and social sciences play a role in a political transformation or address cultural difference This difference the other may be a racial ethnic gendered religious or colonial Other Contributors to this book focus on the serious political questions posed by the problems of strangeness the other in the present climate of accelerating social change and global shifts in political power

The Gift of Touch Stephen David Ross, 1998-08-27 The Gift of Touch is the third volume in Ross's ongoing examination of the Western philosophical tradition in ethical terms from the standpoint of the good giving rise to endless responsibilities resisting the neutrality of being and truth The first volume The Gift of Beauty explored the link between art and the good in the light of Nietzsche's revaluation of all values and the second volume The Gift of Truth explored the ways in which truth and knowledge answer to a responsibility beyond themselves given from the good This third book traces Western ideas for corporeal bodies from Plato to contemporary feminist and poststructuralist writings understanding corporeal things throughout nature as heterogeneous and expressive interpreted in ethical terms in relation to histories of domination and resistance At the heart of the book is a reexamination of the good found in Plato as that which gives authority to knowledge and truth The good gives being in abundance understood in terms of endless responsibility giving rise to an ethics of inclusion

Subject Guide to Books in Print, 1996 [Philosophy and Resistance in the Crisis](#) Costas

Douzinas, 2013-07-11 This book is about the global crisis and the right to resistance about neoliberal biopolitics and direct democracy about the responsibility of intellectuals and the poetry of the multitude Using Greece as an example Douzinas argues that the persistent sequence of protests uprisings and revolutions has radically changed the political landscape This new politics is the latest example of the drive to resist a persevering characteristic of the human spirit The EU and the IMF

used Greece as a guinea pig to test the conditions of social reconstruction in times of crisis But the manifold resistances turned the object of experimentation into a political subject and overturned the plans of elites The idea and limits of democracy are redefined in the place of their birth

Extraterritorial Citizenship in Postcommunist Europe Timofey Agarin, Ireneusz Pawel Karolewski, 2015-09-29 What role does the protection of citizens abroad play in motivating states policies How does citizenship of non residents map onto domestic nation building projects And in what ways do extraterritorial citizenship issues differ from those related to diaspora and migration This volume develops a new analytical framework for emerging research on how states establish relationships with non resident citizens and resident non citizens It provides new insights on the changing relationship between states and the societies they govern particularly in light of the liberalization of the state institutions on the one hand and their approach to citizenship as a political resource on the other Examining a range of European states in the post communist region the book illustrates the complex geopolitical interests and interstate relations involved with these policy decisions whilst highlighting the relevance of similar issues around the globe
