Een inleiding tot de geschiedenis van de vroegmoderne tijd Isabelle Devos, 2008 *Wegwijzer wetenschappelijk werk: bronnen voor papers en verhandelingen in de bedrijfseconomie* Luc van Ootegem, 2006 Praktische handleiding voor studenten in het hoger onderwijs *Netherlandic language research* Haeringen, 2024-03-11 The Cambridge Modern History, 1918 The History of Linguistics in the Low Countries Jan Noordegraaf, C. H. M. Versteegh, E. F. K. Koerner, 1992-01-01 The importance of the Low Countries as a centre for the study of foreign languages is well known The mutual relationship between the Dutch grammatical tradition and the Western European context has however been largely neglected In this collection of papers on the history of linguistics in the Low Countries the editors have made an effort to present the Dutch tradition in connection with that of the neighbouring countries Three articles by Claes Dibbets and Klifman deal with the earliest stages of the development of a grammar for the Dutch vernacular Several important European figures worked in the Low Countries their contribution to linguistics is discussed in articles on Vossius Rademaker Spinoza Klijnsmit and one of the most original phoneticians of European linguistics Montanus Hulscher Vivian Salmon's article is a survey on the relations between English and Dutch linguistics in the field of foreign language teaching In the 19th century Dutch linguistics had a special relationship with German general and historical linguistics four articles deal with this period Jongeneelen van Driel le Loux Schuringa Noordegraaf Finally there are three articles by Kaldewij Hagen and van Els Knops on the development of three branches of linguistics in the 20th century structuralism dialectology and applied linguistics This volume should be of interest for all specialists in the history of linguistics in Europe who are interested in the interdependence of the various traditions Storia della storiografia, 2000 **An Economic and Social History of the Netherlands, 1800-1920** Michael Wintle, 2000-09-21 An Economic and Social History of the Netherlands 1800 1920 provides a comprehensive account of Dutch history from the late eighteenth to the early twentieth century examining population and health the economy and socio political history The Dutch experience in this period is fascinating and instructive the country saw extremely rapid population growth awesome death rates staggering fertility some of the fastest economic growth in the world a uniquely large and efficient service sector a vast and profitable overseas empire characteristic pillarization and relative tolerance Michael Wintle also examines the lives of ordinary people what they ate how much they earned what they thought about public affairs and how they wooed and wed This book will be of central importance to Dutch specialists as well as European historians more generally *Netherlandic language research* Coenraad Bernardus van Haeringen, *Netherlandic Language Research Men and Works in the Study of Dutch*, Law, History, the Low Countries and Europe Ludovicus Milis, 1994-01-01 R C Van Caenegem is the successor of Henri Pirenne and of F L Ganshof at the University of Ghent These essays reflect Van Caenegem's main interests over his career the Common Law in England and Customary Law in the Low Countries the differences between institutional development in England and in the

rest of Europe and the forces making for autocratic as opposed to representative government A number of pieces discuss the nature of history itself how it compares with the sciences and what it can teach us Two essays commemorate the lives and work of Pirenne and Ganshof A Classified Bibliography of the History of Dutch Medicine 1900-1974 G.A.

Lindeboom,2012-12-06 I In some periods of the past Netherlands medicine has played a major role in the evolution of European medicine today its history still enjoys much interest even at the other side of the Ocean In this bibliography it has been my endeavour to compile references for all that has been written on the history of Dutch medicine in our country and elsewhere in our age The main concern of this work is with the medicine of the Northern Netherlands However before the end of the sixteenth century the Northern and Southern Netherlands were not yet divided into two separate countries they were still politically one and for the greater part spoke the same Flemish language So before their separation the present day Belgium and Netherlands also had a common medical history Therefore many entries have been included which bear on early and sometimes later Flemish medicine but it has not been the intention to strive for completeness in this respect
