Inleiding Tot De Rechtswetenschap:

Inleiding tot de Europese rechtsgeschiedenis Randall Lesaffer, 2008 Overzicht van de historische ontwikkeling van de Europees continentale rechtstraditie **Recht in context. Een inleiding tot de rechtswetenschap** H.S. Taekema, 2020 Wie het recht wil bestuderen kan vele wegen bewandelen Maar voor wie het recht als sociaal cultureel en intellectueel fenomeen wil begrijpen staan aanzienlijk minder wegen open De reden is dat het recht zowel in abstracto als in concreto alleen begrepen kan worden in de context van de omstandigheden waarin het functioneert Dit boek neemt deze gedachte van het contextualisme als uitgangspunt voor een inleiding tot het recht en de rechtswetenschap 00 Deel I is gewijd aan fundamentele kenmerken van het recht en discussies over de aard van het recht Daarin worden centrale thema's als de rechtsbronnen belangrijke stromingen in de rechtstheorie de rol van beginselen en de rechtsstaat behandeld In deel II wordt de stelling van het contextualisme betrokken op specifieke rechtsgebieden en aan de hand daarvan worden basisbegrippen en leerstukken in het strafrecht het privaatrecht en het bestuursrecht besproken Deel III is gewijd aan de rechtspraak en de rechtswetenschap Daarin komt het praktische werk van de rechter in de context van het procesrecht aan de orde evenals de aard van rechtsgeleerdheid als wetenschap 0 **Aristotelian Protestantism in Legal Philosophy** Liesbeth Huppel-Cluysenaer, 2022-01-01 This book contains the first time English translation of the main work of Paul Scholten the General Method of Private Law The introductory article analyzes Scholten's view in contrast with a particular combination of Comte's centralizing optimization program and Neo Kantian Idealism which is still dominant in political philosophy Comte's sociology and Scholten's Jurisprudentialism are not presented here in the well known opposition of Sein and Sollen but by showing how their different views on scientific method are grounded in opposite views on the philosophical political and ethical meaning of human action Neo Kantianism adheres to Comte's view while Scholten adheres to the Aristotelian view as it had developed in Christianity and had provided the protestant foundation of the Dutch Republic in the seventeenth century Comte attacks Aristotelian Protestantism which he characterizes as the metaphysical stage of the Western development of state negative protestant constitutional and juridical Scholten's views oppose the inherent trend towards centralization in Comte's program to cover all aspects of optimization for the best of all ever better That branch of political philosophy not only has shaky foundations in scientific method but also has reached its boundaries of operational applicability Scholten's views oppose the emphasis in Comte's program on a unified general will and stress the need for accepting the existence of deeply conflicting philosophies of life in society This has consequences for the organization of democracy regarding independence of specialized agencies the role of civil society and the voting system It not just holds for the state level but also for Unions and supranational organizations The legal system plays a key role in this development Scholten's views and activities have had great posthumous impact for the reconstruction of society and politics in the first years after World War II They contributed to the collaboration between the different denominations in the Protestant church opened up the social

democratic party to different denominations and helped develop the cooperation of different Christian parties leaving the cleavages of the pre war political spectre behind Authors and open reviewers who have contributed to the DPSP project have a broad international background apart from the Netherlands Finland Germany Austria France Italy United Kingdom Brazil United States and Indonesia Indonesia plays a substantial role in the book as Scholten played a main role in setting up the legal education system in what was then the Netherlands Indies Chapters 1 Paul Scholten Aristotelian Protestantism in Dutch Legal Philosophy Liesbeth Huppel Cluysenaer p 1 2 Paul Scholten s Life Rogier Chorus Liesbeth Huppel Cluysenaer Jacqueline Schoonheim p 28 3 General Method of Private Law English translation of the First Chapter of the General Volume of the Asser serie on Dutch Civil Law written by Paul Scholten Liesbeth Huppel Cluysenaer Marjanne Termorshuizen Arts Cassandra Steer Paul Scholten p 37 4 Jumping Judges Judicial Discovery of Law Niels van Manen p 225 5 From a Legal Order to a Legal System Scholten s Contribution to a Theory of Legal Change Jean Louis Halp rin p 249 6 Law and Context Scholten s Open System of Law and Legal Harmonisation Jaakko Husa 261 7 Case Based Reasoning and Formulary Procedure A Guard against Individual Emotions Marco Gardini p 287 8 Kelsen and Scholten on Reason and Emotion in Solving Cases Nuno M M S Coelho p 315 9 Trembling Necessity and Analogy Juridical Reason as Judgment by the Similar Luciano de Camargo Penteado p 334 10 Paul Scholten and the Founding of the Batavia Rechtshogeschool Upik Djalins p 354 11 In Search of Scholten s Legacy The Meaning of the Method of Rechtsvinding for the Current Indonesian Legal Discourse Shidarta p 396 12 Scholten s Reflections on Judge s Practices An Apology of the Mystery of the Legal Craft Robert Knecht p 443 13 The Reception of the Work of Paul Scholten in the Netherlands Marjanne Termorshuizen Arts p 465 14 Re Appraising Paul Scholten His Influence on the Development of a National Legal System in Indonesia Tristram P Moeliono p 495

Lectures on the Science of Literature Hendrik Clemens Muller, 1904 **The Dutch Language Press in America** Hendrik Edelman, 2024-04-15 The Voice of the Law in Transition A. Massier, 2008-01-01 In the literature on Indonesian legal history the role of language has been paid scant attention Even the replacement of Dutch by Indonesian as the official language of the law surely a major event for the work of Indonesian jurists has not been closely examined Yet since the early 1970s legal usage and terminology have been the topic of a steady stream of highly critical publications by linguists and remarkably by jurists as well Their criticism is focused on the heterogeneity of law language and terminology and the deviation of legal usage from the official standard language Government measures language courses law dictionaries have not allayed this criticism This study exposes two fundamental defects in the government measures and in the criticism itself Firstly they are grounded in an instrumental approach to language an approach that sees language as a mere tool of the

jurist and as secondary in importance to the conceptual world that is considered law's core business. Secondly they greatly underestimate the impact of the declining knowledge of Dutch upon the development of Indonesian law language. Massier argues that the law must be viewed as inextricably bound up with the language in which it is formulated. Consequently legal training and practice are examined in this study in terms of language behaviour and conventions of learning, writing and speaking the languages of the law. The voice of the law in transition provides a language history of Indonesian law and its practitioners.

The Reception and Transmission of Civil Procedural Law in the Global Society Masahisa Deguchi, Marcel Storme, 2008. In modern times the civil procedural laws of every country have been influenced by those of other countries. For instance the Japanese legal system was itself influenced by Chinese culture and later developed independently under the policy of national isolation. And since 1868 Japan has modernized its civil procedural law using French, German and American law as its models. Japan has recently tried to contribute by way of legislative and legal educational assistance to other Asian countries, Vietnam, Cambodia etc in civil and procedural law. The civil procedural laws of different countries should be expected to harmonize with each other in the global society. This book is the outcome of the Congress of the International Association of Procedural Law at the Ritsumeikan University in Kyoto, Japan. In this book various outstanding contributors are treating a contemporary legal problem in their own civil procedural systems including examples from India, the Netherlands, Korea, Italy, China, Japan etc.

Guo, 2025-10-01 This book provides an in depth account of how judicial decisions are published and used in the Netherlands as a source of law The findings are linked to the existing English language literature related to the role of cases in civil law jurisdictions in order to seek new insights that may enrich this body of scholarly writings This book also describes the efforts of China since the 1980s to create a case law system and explores the possible implications that can be drawn from the experiences with case law in the Netherlands for China to further enhance its case law practice Contrary to the commonly adopted result oriented approach this study experimented with a processual approach to study the role of judicial decisions as a source of law in a codified legal system It is submitted that cases cannot be said to be purely judge made law in a civil law jurisdiction as this study demonstrates that which judgments eventually become the leading cases that shape the law depends on the outcome of a process of rational discourse in which not only judges but also other actors such as legal scholars and practising lawyers participate and exercise influence **Algemene inleiding tot de rechtswetenschap** J.
