Innovation and Firm Performance

An Empirical Investigation for German Firms

Innovation And Firm Performance 38 Zew Economic Studies

Johanna Nählinder

Innovation And Firm Performance 38 Zew Economic Studies:

Innovation and Firm Performance Bettina Peters, 2008-01-08 The process of firms growth in terms of productivity or employment is a major concern of policy makers In this context innovations are considered to play a crucial role in stimulating firms performance This book investigates this general hypothesis by looking at three topics 1 Does innovation lead to an increase in employment growth 2 Does innovation boost labour productivity 3 Does innovation in one period improve innovation performance in subsequent periods

Handbook of Innovation Indicators and Measurement Fred Gault, Anthony Arundel, Erika Kraemer-Mbula, 2023-09-06 Providing nuanced insight into key areas of innovation studies this erudite second edition acknowledges the significance of innovation within the informal economy It contributes to the broader scholarly discourse on innovation indicators and measurement exploring the nature and rate of recent developments within the field

Promoting Innovation In New Ventures And Small- And Medium-sized Enterprises Joe Tidd, 2017-09-15 Since the pioneering work scholars such as Joseph Schumpeter and Peter Drucker the fields of innovation and entrepreneurship have evolved to become two separate and distinct disciplines Schumpeter 1 focused on the contributions of entrepreneurial startups and smaller firms whereas Schumpeter 2 emphasized the role of formal research development and industrial innovation in larger firms Unfortunately the study and practice of each field has suffered as a result entrepreneurship has become preoccupied with individual entrepreneurs and small business creation and innovation is dominated by corporate R D and new product development Promoting Innovation in New Ventures and Small and Medium Sized Enterprises SMEs aims to bridge these two fields by examining innovation in new ventures and SMEs This book identifies themes which can reunite the study and practice of entrepreneurship and innovation by examining a potentially bridging phenomenon The focus here is on high growth innovative SMEs and the interactions between SMEs and larger organizations private and public It is organized around three overlapping themes SME innovation performance practices and networks

Low-tech Innovation Oliver Som, Eva Kirner, 2014-10-28 This book highlights the economic relevance of the so called low tech industries and firms Non R D intensive firms continue to be the economic backbone of several developed industrial countries They form the core of National Innovation Systems and contribute significantly to growth and employment However due to their lack of R D activity they are easily overlooked in the general innovation debate This book provides latest empirical findings on the current economic relevance and specific innovation strategies and management of non R D intensive firms in Germany It discusses their future role in a knowledge driven economy as well as possible implications for innovation and technology policy An outcome of several years of dedicated research conducted at the Fraunhofer Institute for Systems and Innovation Research ISI this book will prove of immense value to researchers and policy makers dealing with innovation and knowledge strategy

Firm Innovation and Productivity in Latin America and the Caribbean Inter-American Development Bank, Matteo Grazzi, Carlo Pietrobelli, 2016-07-01 This volume uses the study of firm

dynamics to investigate the factors preventing faster productivity growth in Latin America and the Caribbean pushing past the limits of traditional macroeconomic analyses Each chapter is dedicated to an examination of a different factor affecting firm productivity innovation ICT usage on the job training firm age access to credit and international linkages highlighting the differences in firm characteristics behaviors and strategies By showcasing this remarkable heterogeneity this collection challenges regional policymakers to look beyond one size fits all solutions and create balanced policy mixes tailored to distinct firm needs This book is open access under a CC BY NC ND 3 0 IGO license *ZEW News* ,2007 **ECKM 2019**

20th European Conference on Knowledge Management 2 VOLS Dr. Eduardo Tomé,2019-09-05 The Palgrave Handbook of Economic Performance Analysis Thijs ten Raa,William H. Greene,2019-12-13 This Handbook takes an econometric approach to the foundations of economic performance analysis The focus is on the measurement of efficiency productivity growth and performance These concepts are commonly measured residually and difficult to quantify in practice In real life applications efficiency and productivity estimates are often quite sensitive to the models used in the performance assessment and the methodological approaches adopted by the analysis The Palgrave Handbook of Performance Analysis discusses the two basic techniques of performance measurement deterministic benchmarking and stochastic benchmarking in detail and addresses the statistical techniques that connect them All chapters include applications and explore topics ranging from the output input ratio to productivity indexes and national statistics The Microeconomics of Product Innovation Paul Stoneman, Eleonora Bartoloni, Maurizio Baussola, 2018-02-22 Economics has not given sufficient attention to the microeconomic analysis of innovation and technological change Counteracting this imbalance The Microeconomics of Product Innovation considers how the use of economic analysis can guide and inform the search for insight in the generation and adoption of new products synonymously labelled product innovation Written in an accessible tone and restricting its analysis to the use of microeconomics this book encompasses the definition of product innovation It explores means of measurement and revealed patterns of the extent of product innovation the economic analysis of the forces driving the demand for the supply of and incentives to generate new products empirical evidence upon the determinants of the extent of product innovation the diffusion of product innovations product innovation and firm performance price measurement under product innovation product innovation and welfare and public policy and product innovation **Internet Econometrics** S. Allegrezza, A. Dubrocard, 2012-01-17 The proliferation of the internet has often been referred to as the fourth technological revolution This book explores the diffusion of radical new communication technologies and the subsequent transformation not only of products but also of the organisation of production and business methods **Dual Income Tax** SACHVERSTÄNDIGENRAT, MPI für Geistiges Eigentum, Zentrum für Europäische, 2008-04-17 In its Annual Report 2003 2004 the German Council of Economic Experts launched a dual income tax as an option for a fundamental tax reform in Germany In February 2005 the German government appointed the Council to prepare a detailed report on economic effects

of a business tax reform with special emphasis on a dual income tax With regard to the latter conceptual problems of tax law and of tax administration were to be addressed as well as possible transitional problems when implementing a dual income tax This book presents an English version of the original report completed in April 2006 **ECRM 2018 17th European Conference on Research Methods in Business and Management** Prof. Michela Marchiori, 2018-07-12 These proceedings represent the work of researchers participating in the 17th European Conference on Research Methodology for Business and Management Studies ECRM which is being hosted this year by Universit Roma TRE Rome Italy on 12 13 July 2018 *ECIE2012-7th European Conference on Innovation and Entrepreneurship ,2012* The Role of Innovations Created in the Internationalization Process for Company Performance Adam Dymitrowski, 2014 It is commonly believed that innovations are crucial in company s activity The significance of the role that is assigned to the issue of innovation is confirmed by numerous scientific research studies that indicate the existence of a link between innovativeness and company performance In terms of the dynamically progressing process of globalization it seems that the relationship between innovation and company performance should be examined in the context of entities participating in international expansion The process of internationalization may influence the creation of innovations by enterprises and at the same time the achieved results Despite many literature publications in the field of economics and management concerning internationalization and innovations there is a small number of publications describing the influence of internationalization on the innovation activities of enterprises in a comprehensive manner Likewise there is no answer to the question on how the innovations created in the process of internationalization influence the results of companies Due to the identification of a substantial research gap this book undertakes an attempt at determining the manner in which internationalization affects the process of enterprises creating innovations and ascertaining their impact on company results The conclusions presented in the book may be used by researchers representing many fields of science and be the subject of interest to the representatives of business practice In addition it is one of the few domestic and foreign studies concerning the innovations created in the process of internationalization **Entrepreneurship in the Region** Michael Fritsch, Jürgen Schmude, 2007-10-23 Entrepreneurship in the Region approaches many different aspects of entrepreneurship from a regional perspective The regional influences on entrepreneurship analyzed entail regional peculiarities and disparities in new business formation processes the success and the employment effects of new firms the importance of social capital and of network structures as well as entrepreneurship education and training provided in the regions The articles in this book provide strong evidence for the importance of regional factors that shape entrepreneurship and new firm formation processes It is shown that regional differences of start up rates and entrepreneurial attitudes are not at all elusive but tend to be rather persistent and prevail over longer periods of time The evidence clearly suggests that the regional level can be an appropriate starting point for entrepreneurship policy and that research on the issue may considerably benefit from properly accounting for the spatial

dimension **Innovation and Employment in Services** Johanna Nählinder, 2005-10-07 This is a study of innovation in Knowledge Intensive Business Services KIBS and the impact innovation has on employment The thesis relies on theories within the fields of innovation in services in particular KIBS and innovation and employment taking as its point of departure the taxonomy of product and process innovation The thesis is based on a discussion of innovation in services with a focus on how innovation in services may be understood and delineated A long discussion is dedicated to the taxonomy of product and process innovation and the extent to which these concepts may be applicable to innovation in services The thesis also scrutinises the concept of KIBS and how this can be defined It further discusses features commonly associated with KIBS firms The thesis is also rooted in the broader issue of innovation as a creator and destroyer of employment and makes a contribution in applying these issues to service sectors The empirical part of the thesis builds on a database compiled for the research project comprised of 967 Swedish KIBS firms The database covers issues of innovation employment and characteristics of the firm The findings indicate that innovation was common in Swedish KIBS firms and that innovations often had an impact on employment However the thesis did not detect a straightforward relation between type of innovation technological process innovation organisational process innovation goods product innovation and service product innovation and the impact on employment Explanations other than type of innovation have to be considered to analyse the impact of innovation on employment The thesis further suggests that although innovation in KIBS is common innovation itself is difficult to conceptualise and delineate *OECD Economic Studies* ,2004 Big Data Approach to Firm Level Innovation in Manufacturing Seyed Mehrshad Parvin Hosseini, Aydin Azizi, 2020-08-03 This book discusses utilizing Big Data and Machine Learning approaches in investigating five aspects of firm level innovation in manufacturing 1 factors that determine the decision to innovate 2 the extent of innovation 3 characteristics of an innovating firm 4 types of innovation undertaken and 5 the factors that drive and enable different types of innovation A conceptual model and a cost benefit framework were developed to explain a firm's decision to innovate To empirically demonstrate these aspects Big data and machine learning approaches were introduced in the form of a case study The result of Big data analysis as an inferior method to analyse innovation data was also compared with the results of conventional statistical methods The implications of the findings of the study for increasing the pace of innovation are also discussed **Fuelling Economic Growth** Michael Graham, Jean Woo, 2009 The private sector is playing an increasingly important role in the funding of scientific research As public sector research declines in the countries of the north and the south research and development carried out by the private sector becomes more important for innovations that have economic potential In some cases networks between local firms and multinationals can support learning which leads to economic growth What are the policies which support such partnerships and what are the institutional arrangements that foster research Seven case studies from Argentina China Costa Rica El Salvador Tanzania Peru the Philippines and Vietnam examine how policies have been developed and implemented to

encourage innovation **Strategic Alliances** Albert Link, Cristiano Antonelli, 2018-02-02 Strategic alliances have generally been used to refer to relationships that allow an organization to access the strengths and capabilities of other organizations with the organization often focused on being the firm. The strategy behind such an alliance is for each firm in the alliance to draw on the core competencies of the other firms with the goal of facilitating the growth and development of each member. Strategic alliances have long been studied from several perspectives including the way in which the alliance is brought about, alternative forms of relationships that form the structure of the alliance, efficiency gains from the alliance and the life cycle of the alliance. The strategic alliances that are now being observed are those that involve partners other than firms. In many advanced nations, strategic alliances are subsidized by the public sector in the belief that they advance economic growth. One such form of this public-private partnership involves universities as the public partner; another form involves a government agency as the public partner; and a third form involves both. This book transcends the traditional approach to a strategic alliance. As such, this collection might represent the locus of observational points that make up a new frontier redefining the scope of research that falls under the rubric of strategic alliances. This book was originally published as a special issue of *Economics of Innovation and New Technology*.

Innovation And Firm Performance 38 Zew Economic Studies Book Review: Unveiling the Magic of Language

In an electronic digital era where connections and knowledge reign supreme, the enchanting power of language has become much more apparent than ever.
