Part I – Something's Not Right

Dr. James Stephens is a pediatrician serving the Tarpon Springs, Florida, area who is seeing one of his new patients in the clinic today. As Dr. Stephens enters the examination room, he says "kali mera" to Stephanía and Nikolaus Stamos, a greeting he uses with a number of his patients who are Greek Americans. Mr. and Mrs. Stamos have brought in their only child, beautiful little Nikoleta. It seems odd to Dr. Stephens that they are here because Nikoleta's one-year checkup is only six weeks away. Nikoleta's parents are very concerned and tell the doctor that the baby has been acting strangely. The father, Nikolaus, is a personal trainer and he suspects that Nikoleta has been anemic for some reason. Originally, Nikoleta had been on a low iron formula because she was experiencing gastrointestinal distress. The parents changed her formula to a high iron formula to see if it would help alleviate her symptoms, but Nikolaus tells Dr. Stephens that it did not. His daughter continues to suffer from general malaise and lethargy, and her skin looks a little pale recently. Nikoleta's parents also tell the doctor that their daughter looks bloated all the time, and seems tired and cranky. Dr. Stephens notices that Nikoleta is not growing as she should. She has not grown significantly since her last checkup three months earlier. Dr. Stephens orders a CBC (Complete Blood Count) panel.

Questions

1. What are the symptoms of anemia?
2. Why did the parents change Nikoleta's formula to a high iron formula?

Physical Anthropology Philip L. Stein, Bruce M. Rowe, 1982 Since the first edition of Physical Anthropology over a quarter century ago Stein and Rowe have been helping to teach physical anthropology to tens of thousands of students In this new edition these award winning teachers and authors continue to share their love of discovery with students in this balanced objective introduction to physical anthropology that does not assume that students have any previous knowledge of the subject Carefully streamlined making it more accessible and affordable this seventh edition provides students with a pedagogical program designed to facilitate comprehension Every concept is carefully explained and illustrated guiding students step by step through difficult material Despite changes in organization and length this text maintains its emphasis on three important themes First that anthropology is a holistic discipline second that human beings are an integral part of nature and third because humans depend on learned behavior our maintenance of a balance with nature can be strengthened by an understanding of our evolutionary past As always Stein and Rowe use the most current data to unravel the mystery of the evolution of humankind and to examine the dynamic relationship between humans and their environment

Genomics with Care Mike Fortun, 2023-06-30 In *Genomics with Care* Mike Fortun presents an experimental ethnography of contemporary genomics analyzing science as a complex amalgam of cognition and affect formal logics and tacit knowledge statistics and ethics Fortun examines genomics in terms of care a dense composite of affective and cognitive forces that drive scientists and the relations they form with their objects of research data knowledge and community Reading genomics with care shows how each resists definition yet is so entangled as to become indistinguishable Fortun analyzes four patterns of genomic care curation scrupulousness solicitude and friendship seen in the conceptual technological social and methodological changes that transpired as the genetics of the 1980s became the genomics of the 1990s and then the post genomics of the 2000s By tracing the dense patterns made where care binds to science Fortun shows how these patterns mark where scientists are driven to encounter structural double binds that are impossible to resolve and yet are where scientific change and creativity occur
