Philip Jones, 2023-01-06 Readers are transported to Victorian London and introduced to Inspector Doyle a modern day detective with eternal life who discovers that he has been wrongly named as Jack the Ripper the Victorian serial killer Nobody wants that label at any time in history so with the aid of time travel he returns to the year 1888 in an attempt to clear his name Another complication for Inspector Doyle is that his modern day daughter Flora who he has left behind to travel back several centuries is becoming increasingly suspicious of her father's identity This is after making her way into his Shrewsbury study that she is forbidden to enter The only good thing about returning to 1888 is that Inspector Doyle is able to rekindle his relationship with daughter Alice and wife Eleanor who he had to leave behind all those centuries ago Alice can then only but marvel at her father's abilities to answer a question that only he knows the answer to because he has travelled into the future and back The story references many Victorian objects that have been meticulously researched and then used to tell a story that is only possible through time travel and a rather clever inventor who may or may not be still alive Many elements of the original Jack the Ripper case are also detailed as are the horrors of Whitechapel Find out whether Inspector Doyle manages to clear his name by discovering who the real Jack the Ripper is and expect a twist at the end that involves both daughters and a Victorian book that unlike the rest of Inspector Doyle's objects is unable to exist in parallel between the two time zones **The Complete and Essential Jack the Ripper**

J. Trow, 2023-04-06 Astonishingly *The Hagley Wood Murder* is the first book solely on the subject other than a selection of privately printed self-published offerings ever written on this murder which took place eighty years ago In April 1943 four teenaged boys discovered a corpse stuffed into the bole of a wych elm in a wood in the industrial Midlands The body was merely bones and had been in the tree for up to two years The pathologist determined that she was female probably in her thirties had given birth and was just under five feet tall The cause of death was probably suffocation Six months after the discovery mysterious messages began to appear on walls in the area variants of Who Put Bella Down the Wych Elm Hagley Wood And the name Bella has stuck ever since Local newspapers then the national press took up the story and ran with it but not until 1968 was there a book on the case Donald McCormick's *Murder by Witchcraft* and that like others that followed tied Bella in with another supposedly occult murder that of Charles Walton on Meon Hill in 1945 Any unsolved murder brings out the oddballs the police files only recently released are full of them and the nonsense still continues The online versions are woeful inaccuracy piled on supposition laced with fiction It did not help that a professional occultist Dr Margaret Murray expressed her belief as early as 1953 that witchcraft was involved in Bella's murder And ill-informed nonsense has been cobbled together to prove that Dr Murray was right McCormick's own involvement was in espionage and his book slavishly copied by later privately printed efforts have followed this tack too It was wartime so the anonymous woman in the wych elm had to be a spy parachuted in by the Abwehr the Nazi secret service *The Hagley Wood Murder* is the first book to unravel the fiction of McCormick and others It names Bella and her probable

murderer And if the conclusion is less over the top than the fabrications referred to above it is still an intriguing tale of the world's oldest profession and the world's oldest crime
