Gender and Voice in the French Novel, 1730-1782 Aurora Wolfgang, 2017-03-02 Analyzing four best selling novels by both women and men written in the feminine voice this book traces how the creation of women centered salons and the emergence of a feminine poetic style engendered a new type of literature in eighteenth century France The author argues that writing in a female voice allowed writers of both sexes to break with classical notions of literature and style so that they could create a modern sensibility that appealed to a larger reading public and gave them scope to innovate with style and form Wolfgang brings to light how the female voice in literature came to embody the language of sociability but also allowed writers to explore the domain of inter subjectivity while creating new bonds between writers and the reading public Through examination of Marivaux's *La Vie de Marianne* Graffigny's *Lettres d'une Pruvienne* Riccoboni's *Lettres de Mistriss Fanni Butlerd* and Laclos's *Les Liaisons dangereuses* she shows that in France this modern feminine sensibility turned the least prestigious of literary genres the novel into the most compelling and innovative literary form of the eighteenth century Emphasizing how the narratives analyzed here refashioned the French literary world through their linguistic innovation and expression of new forms of subjectivity this study claims an important role for feminine voice narratives in shaping the field of eighteenth century literature *Catalogue of an Exhibition of One Hundred Famous First Editions in English and French Literature from December 1st to 14th, 1909* Ernest Dressel North, 1834 **Classified Catalogue of the Carnegie Library of Pittsburgh ...** Carnegie Library of Pittsburgh, 1907 *A New History of French Literature* Denis Hollier, 1998-08-19 This splendid introduction to French literature from 842 A D to the present decade is the most imaginative single volume guide to the French literary tradition available in English *Beyond Postmodernism* Klaus Stierstorfer, 2012-05-02 After the veritable hype concerning postmodernism in the 1980s and early 1990s when questions about when it began what it means and which texts it comprises were apt to trigger heated discussions the excitement has notably cooled down at the turn of the century Voices are now beginning to be heard which seem to suggest a new episteme in the making which points beyond postmodernism while it remains at the same time very uncertain whether what appears as newness is not rather a return to traditional concepts theoretical premises and authorial practices Contributors to this volume propose to explore new openings and recent developments in anglophone literatures and cultural theories which engage with issues seen to be central in the construction of a postmodern paradigm but deal with them in ways that promise new openings or a new Zeitgeist **The Routledge Companion to Eighteenth Century Philosophy** Aaron Garrett, 2014-03-21 The Eighteenth century is one of the most important periods in the history of Western philosophy witnessing philosophical scientific and social and political change on a vast scale In spite of this there are few single volume overviews of the philosophy of the period as a whole The Routledge Companion to Eighteenth Century Philosophy is an authoritative survey and assessment of this momentous period covering major thinkers topics and movements in Eighteenth century philosophy Beginning with a

substantial introduction by Aaron Garrett the thirty five specially commissioned chapters by an outstanding team of international contributors are organised into seven clear parts Context and Movements Metaphysics and Understanding Mind Soul and Perception Morals and Aesthetics Politics and Society Philosophy in relation to the Arts and Sciences Major Figures Major topics and themes are explored and discussed ranging from materialism free will and personal identity to the emotions the social contract aesthetics and the sciences including mathematics and biology The final section examines in more detail three figures central to the period Hume Rousseau and Kant As such The Routledge Companion to Eighteenth Century Philosophy is essential reading for all students of the period both in philosophy and related disciplines such as politics literature history and religious studies

Catherine the Great and the French Philosophers of the Enlightenment Inna Gorbatov,2006 This research monograph is the result of many years of archival investigation in Russia France and elsewhere into the nature of Catherine the Great s involvement with the French Enlightenment Professor Gorbatov s conclusions go far beyond the consensus of philosophic and cultural interests masking an authoritarian and at times barbarous emerging European power and delves instead into Catherine s fascination with French political and social ideals Catherine s thirty four year reign was marked by a furious wholesale consumption of French arts and objets as well as a lavish patronage of French artists and philosophers Even Rousseau the self proclaimed enemy of monarchs was seriously studied though detested and debated by Catherine and her circle as the Czarina attempted to reform the educational system It is this theme of reform and renewal along with Europeanization that provides the great impetus of interest and patronage towards the philosophes and their ideas Professor Gorbatov also shows the effect of Catherine s interest on the higher aristocracy writers and emergent professional classes that was to reach a intellectual and political crisis upon the outbreak of the French Revolution the rise of Napoleon and her grandson s battles with the Decembrists
