Government Phone Usa 2000:

Monthly Catalog of United States Government Publications , **The Prince of Silicon Valley** Randall Smith,2010-01-19 RISE FALL AND RETURN The Prince of Silicon Valley traces the rise of the foremost investment banker of the Internet stock market bubble from the back streets of South Philadelphia to the peak of finance as the highest paid banker on Wall Street From Cisco to Netscape to Amazon Frank Quattrone took some of the biggest names in technology public During the bubble years of 1999 and 2000 his California based technology banking group led the most hot initial public offerings which lifted the entire stock market to record heights But after the bubble burst the hot stocks cooled and ordinary investors lost billions It emerged that brokers in Quattrone s firm had created lucrative investment accounts stuffed with hot IPOs for banking clients who became known as Friends of Frank Some of the brokers regulators charged cut off other investors who refused to pay back a share of their IPO profits And so Quattrone and his firm became embroiled in no less than four different investigations of bubble related misconduct culminating in two criminal trials against Quattrone for obstruction of justice the first resulting in a mistrial the second in a conviction in 2004 After his conviction was overturned by an appeals court in 2006 Quattrone returned in triumph to the banking business advising no less than Internet search giant Google on corporate strategy But the story of his fall from grace however temporary remains a cautionary tale of ambition gone wrong of a Wall Street Icarus who flew too close to the sun The Prince of Silicon Valley is an absorbing noir detective story of the investigations and trials that brought him to the brink of disaster **Historical Tables, Budget of the United States Government** United States. Office of Management and Budget,1999 The Year 2000 Computer Problem United States. Congress. House. Committee on Government Reform. Subcommittee on Government Management, Information, and Technology,1999 Report of the Secretary of the Senate United States. Congress. Automated Data and Telecommunications Service,1981 **The Not-so-golden Years** Laura Katz Olson,2003 Table of contents **South America, Central America and the Caribbean 2003** Europa Publications,2002 Introductory surveys cover topics of regional importance individual country chapters include analysis statistics and directory information plus information on regional organizations Government at a Glance 2011 OECD,2011-06-24 This second edition of Government at a Glance almost doubles the number of available indicators and also offers two special chapters one on leveraged governance and one the policy implications of fiscal consolidation **Sharing Power** Donald F. Kettl,2011-07-01 In the flush of enthusiasm to make government work better reformers from both left and right have urged government to turn as many functions as possible over to the private sector and to allow market competition instill efficiency and choice In fact government has been doing just this for years every major policy initiative launched since World War II has been managed by public private partnerships Yet such privatization has not solved government s problems While there have been some positive results thee

has been far less success than advocates of market competition have promised In a searching examination of why the competition prescription has not worked well Donald F Kettl finds that government has largely been a poor judge of private markets Because government rarely operates in truly competitive markets contracting out has not so much solved the problems of inefficiency but has aggravated them Government has often not proved to be an intelligent consumer of the goods and services it has purchased Kettl provides specific recommendations as to how government can become a smart buyer knowing what it wants and judging better what it has bought Through detailed case studies Kettl shows that as market imperfections increase so do problems in governance and management He examines the A 76 program for buying goods and services the FTS 2000 telecommunications system the Superfund program the Department of Energy's production of nuclear weapons and contracting out by state and local governments He argues that government must be more aggressive in managing contracts if it is to build successful partnerships with outside contractors Kettl maintains that the answer is not more government but a smarter one which requires strong political leadership to refocus the bureaucracy's mission and to change the bureaucratic culture

Climate Change 2001: The Scientific Basis J. T. Houghton, Y. Ding, D. J. Griggs, M. Noguer, P. J. van der Linden, X. Dai, K. Maskell, C. A. Johnson, 2001-07-12 Climate Change 2001 The Scientific Basis is the most comprehensive and up to date scientific assessment of past present and future climate change The report Analyses an enormous body of observations of all parts of the climate system Catalogues increasing concentrations of atmospheric greenhouse gases Assesses our understanding of the processes and feedbacks which govern the climate system Projects scenarios of future climate change using a wide range of models of future emissions of greenhouse gases and aerosols Makes a detailed study of whether a human influence on climate can be identified Suggests gaps in information and understanding that remain in our knowledge of climate change and how these might be addressed This latest IPCC assessment will again form the standard scientific reference for all concerned with climate change and its consequences including students and researchers in all aspects of environmental and atmospheric science and policymakers in governments and industry worldwide

Electronic Government Roland Traunmüller, Klaus Lenk, 2003-08-02 In defining the state of the art of E Government EGOV 2002 was aimed at breaking new ground in the development of innovative solutions in this important field of the emerging Information Society To promote this aim the EGOV conference brought together professionals from all over the globe In order to obtain a rich picture of the state of the art the subject matter was dealt with in various ways drawing experiences from case studies investigating the outcome from projects and discussing frameworks and guidelines The large number of contributions and their breadth testify to a particularly vivid discussion in which many new and fascinating strands are only beginning to emerge This begs the question where we are heading in the field of E Government It is the intention of the introduction provided by the editors to concentrate the wealth of expertise presented into some statements about the future development of E Government
