No Small Hope Kenneth A. Reinert, 2018-06-01 With headlines focused on human suffering civil wars refugee flows the spread of disease due to hunger and poor sanitation population growth climate change it is easy to dive into despair What is needed instead is a radical rethinking of global policy to realize the potential for improving the human condition This book provides hope by examining the basic needs for a fundamental shift in thinking about development and human security for both practical and ethical reasons Kenneth A Reinert calls for a basic goods approach that focuses on the provision of nutritious food clean water sanitation health services education services housing electricity and human security services This approach bridges two perspectives that of standard growth which emphasizes increasing GDP per capita and that of capabilities human development which puts priority on the realization of human potential Reinert argues that only when growth leads to an increase in the broad based provision of basic goods and services will the hoped for expansion of human capabilities and development be achieved No Small Hope places the basic goods approach on the firm foundation of objective human needs and subsistence rights It offers a practical agenda for making progress towards human development by focusing on the real determinants of human well being in an ethical system of moral minimalism In a world of climate change increased risk of natural disasters and increased refugee flows the basic goods approach promises to help alleviate ongoing suffering and address vast deprivations in basic needs fulfillment

What's Hot in Literacy Evan Ortlieb, Stephanie Grote-Garcia, Jack Cassidy, Earl H. Cheek Jr, 2020-09-30 This book showcases hot topics in literacy providing teachers with practices for literacy improvement The international scholars which comprise the author line up for this edited collection describe the evidence based research findings from their research in K 12 schools to demonstrate how literacy success is fostered across the globe

School Children as Agents of Change Emanuela Guarcello, Abele Longo, 2023-09-01 This edited volume promotes the capacity for critical thinking and judgement in primary school aged children in the face of the challenges that schools encounter in today's society Foregrounding critical thinking and judgement as essential capacities for children to develop

each chapter offers a space for reflection on the formation of the ability to think and judge in primary school. While presenting a robust conceptual and foundational framework, chapters focus on the educational didactic practices deemed most authoritative due to their impact on and their innovative qualities within the educational landscape today. Themes affecting schools in both the global north and south are discussed, such as social relationships, children's voices, life skills, and digital education, well-being and health, as well as matters of social plurality, inequalities, and discrimination, ecology, global economy, and the decolonising of education from various international perspectives. Foregrounding real-world experience within the education system, this book will be of relevance to researchers, scholars, and post-graduates in the fields of philosophy of education, moral education, and child development. It will also be of interest to pre- and in-service primary education practitioners.

Critical Reflections on Public-Private Partnerships Jasmine Gideon, Elaine Unterhalter, 2020-12-21

This book argues that despite the hype within many policy circles, there is actually very little evidence to support the presumed benefits of Public-Private Partnerships (PPPs) in reducing poverty and addressing inequalities in the provision of and access to public services. Taking a cross-sectoral comparative approach, this book investigates how PPPs have played out in practice and what the implications have been for inequalities. Drawing on a range of empirical case studies in education, healthcare, housing, and water, the book picks apart the roles of PPPs as financing mechanisms in several international and national contexts and considers the similarities and differences between sectors. The global COVID-19 pandemic has raised significant questions about the future of social provision, and through its analysis of the emergence and expansion of the role of PPPs, the book also makes a vital contribution to current discussion over this rapidly changing landscape. Overall, this wide-ranging guide to understanding and evaluating the role of PPPs in the Global South will be useful to researchers within development, international relations, economics, and related fields, as well as to policy makers and practitioners working in development-related policy.

International Practices to Promote Budget Literacy Harika Masud, Helene Pfeil, Sanjay Agarwal, Alfredo Gonzalez Briseno, 2017-08-09

Budget literacy is defined as the ability to read, decipher, and understand public budgets to enable and enhance meaningful citizen participation in the budget process. It is comprised of two main parts: i) a technical understanding of public budgets, including familiarity with government spending, tax rates, and public debt; and ii) the ability to engage in the budget process, comprising of practical knowledge on day-to-day issues, as well as an elementary understanding of the economic, social, and political implications of budget policies, the stakeholders involved, and when and how to provide inputs during the annual budget cycle. Given that no international standards or guidelines have been established for budget literacy education to date, this book seeks to address this gap by taking stock of illustrative initiatives promoting budget literacy for youth in selected countries. The underlying presumption is that when supply-side actors in the budget process (governments) simplify and disseminate budget information for demand-side actors (citizens), this information will then be used by citizens to provide feedback on the budget. However, since citizens are often insufficiently

informed about public budgets to constructively participate in budget processes one way to empower them and to remedy the problem of budget illiteracy is to provide budget literacy education in schools to youth helping them evolve into civic minded adults with the essential knowledge needed for analyzing their government's fiscal policy objectives and measures and the confidence and sense of social responsibility to participate in the oversight of public resources This book elaborates on approaches learning outcomes pedagogical strategies and assessment approaches for budget literacy education and presents lessons that are relevant for the development improvement or scaling up of budget literacy initiatives
